# Few suffer from Desert Storm anxiety attack

☐ Group has a mission to help troops, 2A

By Janice Brunson staff writer

People may be thinking and talking non-stop about Operation Desert Storm, but some mental health professionals in Westland and Garden City say few are driven to counseling or other support services in order to

"And of those calling a newly implemented Desert Storm Anxiety Hot line (876-7100), fewer than one a day are seeking additional services from a referral number supplied by the hot line's recorded message.

"None of my patients have even brought the subject up," said Dr. Patricia Wolff of Westland Counseling Services who treats some 20 patients weekly.

"Their concerns remain what they usually are, very private - marital concerns, concerns with children,"she said. "Unless world problems touch them personally, people tend to be more concerned with their own

Dr. Kenneth Pitts, medical director of the department of psychiatry at Annapolis Hospital-Westland Center, reports no increase in the number of patients or telephone inqueries as a result of Operation Desert

"I HAVEN'T NOTICED any dramatic reaction, and I don't think we'd expect any," Pitts said.

"Obviously it is affecting everyone because we are all thinking and talking about it. It's on everyone's mind, but so far as we know, (U.S. involve-

ment) is going pretty well and that makes it more manageable."

David Berry, director of out-patient services for Northwestern Community Services in Garden City, said activities in the Middle East contribute to general unfocused anxiety in the same manner a poor econ-

omy or job insecurities contribute. Under such circumstances, "people usually don't seek professional counseling," Berry added.

The hot line, launched earlier this week and widely publicized by Henry Ford Health System, assists callers in identifying and coping

with anxiety and provides a second phone number for additional services from Selfridge Air National Guard Base north of Detroit.

# Biker raises funds to fight MS

By M.B. Dillon staff writer

Bob Carney hasn't slept in his own bed since Sept. 23, 1989.

In fact, he's hardly slept in the same place twice since leaving Lantana, Fla. nearly 16 months ago on a 16,000-mile quest to find a cure for multiple sclerosis.

MS is the most common handicapping disease of the central nervous system afflicting young adults in the United States.

The wiry, 65-year-old Carney has ridden his 18-speed Diamond Back mountain bike, with a 300-pound trailer attached, from Rhode Island ("where my mother's kin are from)," south through the Atlantic states, across the southern United States, north along the West Coast, and is now eastbound through the horthern states. He expects to reach Rhode Island sometime between St. Paddy's Day and Memo-

rial Day. He stayed at the Westland home of Charles Sherk for four days, leaving Monday. Carney met Sherk Thursday at a bar near the Town and Country Cyclery, on Middlebelt near Joy, where the traveler was having maintenance work and new, tires installed on his bike.

After hearing of Carney's crosscountry trip, Sherk invited him to stay at his home in the Ann Arbor Trail-Merriman area.

A custom cabinetmaker, Carney entered the state near Michigan City, riding to Benton Harbor en route to Kalamazoo.

"I took a wrong turn and ended up in Niles," said the Key Westborn Carney. "From Niles I went to South Bend, from there to Elkhart, Three Rivers and Battle relief to her than her doctor was." Creek. I made it to Kalamazoo, Lansing, Jackson and Ann Arbor." His impressions of Michigan?

"It's nice; it's just too cold," said Carney, who's lost 20 pounds since beginning his trip.

"But I really don't care about the weather; it's still not as tough as these people have it. I'm still hoping for a cure; that's all that

Carney is encouraging people to donate to the Rhode Island Chapter National Multiple Sclerosis Society, 535 Centerville Road, Warwick, RI 02886. He estimates he's raised thousands of dollars so far.

When Carney set out, he had six friends with MS Now he has dozens.

In Dallas, a met a 6-year-old girl with MS who needs two canes to walk. "The kids teased her in school. Kids can be so mean; she didn't want to go to school. I got permission to talk to the student body," sald Carney. "Afterwards the kids had a better understanding

Carney - who's financing his trip on \$360 monthly social security checks and loans from his brother-in-law totalling \$1,600 at the moment - made a stop in north Florida at the home of a woman he knows.

"When I got to her house, she was out shopping for dinner. When she got home, she looked at me and said, 'God must have sent you today. A friend of mine just got diagnosed with MS today. Her doctor told her he didn't know much about the disease.'

"I told her forget dinner, let's take some information about MS down to her.

"We visited with her about two hours, and she told me I was more

# Group digs in to help troops

A western Wayne County chapter of Friends of Freedom continues to work for troops stationed in the Persian Gulf. .

And that work has been made easier by the donation of a packaging center by a local businessperson and by the creation of a logo by a Churchill High School student.

The government has asked that: Americans temporarily stop sending: packages to the Middle East, said Yvonne Zapinski, chair of the Livonia chapter of the Friends of Freedom, but that order is expected to be lifted shortly and the chapter will resume sending packages.

"Donations of cash and food/nonfood items are being collected," said Zapinski. "Our troops need our support now more than ever. Mail is an important part of their morale

"Each service person I write to tells me you can't imagine how they hate not getting mail from home."

IN LATE December the Friends of Freedom was displaced when the warehouse it was using in Wixom was sold.

Although the sale did not stop the operation, being displaced did hinder packing efforts. But the organization now has a new home, thanks to Walter Samuels, owner of the Shelden Center at Farmington and Plymouth roads, who donated use of a 2,800square-foot building.

The chapter does need 10-15 banquet tables and could use donations of printing material. Anyone who can help with these needs is asked to call Livonia Friends of Freedom at

have art students from Churchill High submit drawings for a proposed logo. Churchill serves the northwestern section of Westland.

The design selected as the official logo of Friends of Freedom was drawn by Thomas Gess, an 11th grade Creative and Performing Arts student from Churchill.

INDIVIDUALS INTERESTED in writing troops in the Persian Gulf may send a self-addressed, stamped envelope with a note requesting a pen pal to Livonia Friends of Freedom, P.O. Box 9503, Livonia 48151 and a name will be furnished.

"With war under way, there are no longer PXs around for them to pick up the necessary items the service does not furnish," said Zapinski.

"Because they were given a small raise in the past, the services stopped furnishing their necessary items and they now have to buy them. There are no drug stores, supermarkets or such in the Saudi desert, so how do they get them?

"That's where we come in. We pack our boxes unisex with food, personals, etc. If they don't need it they pass it on to a friend and share.

"Cash donations are used to pay the postage for mailing packages directly to service personnel. The U.S. Post Office does not give us a break on postage.

"I also urge you to write your senators and congressmen, asking that they do something to change

that policy. Why should any of us pay to send our service people packages when they are serving their country during war time?"

Anyone wanting to share the name of a service person to be put on the pen pal list, or to receive a package, may mail the requests to Friends of Freedom, POB 9503 Livonia 48151.

The chapter also asks for donations of boxes 14-by-11-by-8-inches, packaging tape, large mailing labels, small and large zip lock bags for packaging. To donate such items call the chapter at 422-2036. Receipts will be furnished on request by sending a self-addressed, stamped enve-

"If everyone gave just one item, or sent a couple of dollars, just imagine the boxes we could send," said Zapinski.

"We have received a letter from a major with the 101st Airborne who has rotated to the back lines in December with his troops for a break and to resupply. He was amazed that people were writing and sending so many things. He has 750 men in his command and asked that we send

mail to his men, then gave us special instructions.

"If you would like to write to this unit, send a self-addressed, stamped envelope asking for their address."

THE LIVONIA chapter expresses its thanks for the contributions of donors and efforts of volunteers to date, locally and from the surround-

Special thanks was given by Zapinski to Ryan Delvechhio of Boy Scout Troop 782. Delvechhlo with the help of fellow scouts, leaders and parents delivered 700 fliers from the chapter door-to-door on Saturday, Jan. 10, asking participants to prepare donations for pick-up on Jan.

"As long there are troops who need our help, we will be in operation and continue to serve them."

Anyone interested in working as a volunteer with Friends of Freedom are urged to attend the next meeting at 6:30 p.m. Tuesday, Feb. 12, in Room 58 of Frost Middle School, 14041 Stark, north of Schoolcraft in Livonia.

The plaque outside Mary Browe's office carries a simple declaration: "Welcome to the friendliest place

Browe, Dyer Senior Center supervisor for four months, feels that the friendly atmosphere of the facility and programming best describes the

center and its patrons. The Wayne-Westland school district owns and operates the center, on Marquette between Wayne Road and Newburgh, for senior citizens.

The school board, after voters' rejection of two millage increase proposals last year, downsized the Dyer Center staffing and programming as part of a districtwide slash in spending to balance the budget for the current school year.

BUT WHILE patronage at the center is down from past years, there is

still a lot of enthusiasm and energy among those retirees who use the center for its varied educational and social activities, Browe said.

Edith Brill, president of the newly formed Dyer Senior Club, said she likes the "warm, friendly atmosphere of the center, as well as its activities, dinners and trip.

"There is good enthusiasm of members. We just have a lot of fun here."

Millie Skoog echoed her comments.

"I like the friendly and homey atmosphere here, not like the city center," she said.

Some Dyer Center patrons also use the city's Friendship Center programs to meet some of their needs, Browe said.

THE ENTHUSIASM and energy wasn't dimmed by the school board's new "pay-to-play" policy, which requires students and others to pay to

At the Dyer Center, seniors are required to pay \$25 for a school year. Before there was no fee to take part.

After the fee was implemented in the fall, the center registered 218 people, a drop from previous years' numbers. While there were no figures on past participation, Browe did say the numbers are down.

The reduction in participation also led to the consolidation of the center's two senior clubs into one.

whom have been in the program for five years and expect to don their caps and gowns for an adult education graduation ceremony in June.

DESPITE THE reduced dollars for staffing and programming at Dyer, Browe works more than the budgeted 15 hours a week, she said. She is only paid for the 10 a.m. to 3 p.m. period Tuesday, Wednesday and Thursday.

"Rarely do I leave before 7 p.m.," she said.

Her motto is:

"You do what you have to do when you have to do it.'

BROWE'S STRATEGY in dealing with the demands of her job is to emphasize teamwork of herself and the center's patrons.

Unlike her predecessor, Nancy Kuzma, Browe doesn't have an assistant or secretary.

Stressing teamwork, "all have to pull their share," Browe said. "We all have to work together and I'm just a member of the team."

But the council must vote on the investment at its next meeting in order to give the Wayne center needed notice of open skating at Westland, Thomas said.

Officials of the Municipal Services Bureau, a private, non-profit quasigovernmental agency which manages the rink and golf course for Westland, updated the council on its current and projected costs for the 1990-91 fiscal year.

BUREAU OFFICIALS said they would realize a \$30,000 surplus, but some council members said the breakdown of the group's revenues and expenses was confusing.

The complications centered on a \$64,500 bond that the bureau didn't count in its revenue, but included it as an expense.

When SIDS (Sudden Infant Death Syndrome) takes a victim, there is only silence.

It's commonly known as "Crib Death." The death of a seemingly healthy baby for no apparent reason. \$10\$ is the number one cause

of death in infants from one week to one year old . . . causing more deaths than cystic fibrosis, childhood cancer and heart disease combined.

4. . . .

Over 7,000 babies each year.

This killer strikes quickly, quietly, with no warning. A SIDS baby dies within seconds, usually while he's sleeping. He suffers no pain. He doesn't cry out.

One of the most disturbing facts about SIDS is that there's way to predict it. No way to prevent it. Not yet.

But there is hope. With your help we can find the cause and the cure.

Donations of your time and of

'We wish and pray the world would take notice. We want people to be aware of what's going on (in Lithuania)," said Taura Underys, 31, of Redford Township.

Taura and her husband Vitas, 32, a special education teacher in Farmington Public Schools, along with Dana Petrulis, 25, of Franklin and Linas Orentas, 28, of Redford Township, were among a group of some 250 Americans of Lithuanian descent protesting outside the McNamara Federal Building in downtown De-

The group was protesting the Soviet army's attack Jan. 13 on unarmed Lithuanians seeking to keep their democratically elected government from toppling.

More than a dozen Lithuanian citizens were killed and more than 100 wounded when Soviet paratroops and tanks moved to take control of the radio and television stations and a television signal tower in Vilnius, the capital, according to U.S. pressreports.

THE CENTRAL government in Moscow has been pressuring the Baltic republics of Lithuania, Lativia and Estonia to nullify the separatist declarations passed last March by their democratically elected parliaments. The three republics, which were independent states between the world wars, were annexed by the Soviet Union in 1940.

THE DEMONSTRATION was organized by the Detroit Lithuanian Organizations Center, an umbrella agency which includes groups that represent other Baltic and Eastern European nations and of which Orentas is a director.

Shoved off the front page when the U.S. went to war with Iraq, the struggle in the Baltic region of the Soviet Union remains of prime importance to local residents of Lithuanian descent.

# S'craft braces for cuts

By Wayno Peal staff veritor

Business and women's programs could be curtailed at Schoolcraft College in the wake of Gov. John Engler's proposed budget cuts:

Schoolcraft could lose as much as \$310,000 in state money, with business procurement and displaced homemaker programs in specific danger of closing.

As with all community colleges, Schoolcraft would face a 1 percent cut in general state appropriations, losing an estimated \$80,000.

Cuts still loom as a possiblity even though House Appropriations committee members rejected Engler's budget package Tuesday.

The college's business center stands to lose a \$190,000 state grant — and a matching \$110,000 in federal money — for programs used to promote business in southeast Michigan.

The procurement programs help businesses gain government and overseas contracts. They have helped area businesses secure 2,601 contracts, for a combined \$235 million, since 1985, college officials

More than 400 businesses currently use the procurement services, college officials said.

"IF WE could come up with a way to match the federal grant we might still be able to keep going, but it's awfully short notice," college spokeswoman Saundra Florék said.

In addition, the Livonia-basedd community college stands to lose a \$40,000 grant for its Women's Resource Center.

# To fight crime in Philly, people plant posies.

"The bad part of town." Abandoned cars. Sidewalks scattered with crack vials. Bombed-out buildings.

A neighborhood whose spirit is as broken as the bits of glass that dot the street. There are only two things to do if your neighborhood becomes a war zone: give up or take action.

The Philadelphia Story One day, in the "bad part" of Philadelphia, a neighbor complained to a neighbor. And then to another. And then to more. People didn't like their homes being "taken over." Feelings of helplessness and resentment turned to action.

They went to the police for holp.

Soon a substation was established where folks could readily reporterime. Weekly meetings began. Community watches started. Things started

getting fixed up. Vacant lots were cleaned up and fenced off. Abandoned cars were towed away. Painting and repairing programs began.

The neighborhood was cleaning itself up. The local 4-H Club even helped set up garden clubs where kids. teens and adults could work together on plants and flowers while talking over ways to raise awareness.

When people care and get involved, neighborhoods change. When a block doesn't look like a haven for crime and druge, it won't be. And in this part of Philly, where once only apathy grew. seven gardens now bloom.

This is only one auccess story of many. To find.

# Even Republicans are wary of budget cuts

By Tim Richard staff writer

On paper, it looked as if House Democrats rejected Gov. John Engler's budget revisions Tuesday on a party-line vote.

In fact, some Republicans, too, had problems with Engler's cuts.

At week's end; leaders of the three ' factions - the executive office, Republican-led Senate and Democratled House - started negotiations on how to close a \$1.1 billion gap in the \$7.4 billion budget.

"There are several items I do not support," said Sen. R. Robert Geake, R-Northville, told the Senate Appropriations Committee. He cited Engler's planned closing of the Lafayette Clinic, a mental health service and research facility on the Wayne State University campus.

House Appropriations Committee, Rep. Maxine Berman, D-Southfield, made almost the identical remark. "The mental health cuts weren't that bad except for the Lafayette clinic," said Berman, a new member of the Appropriations panel.

THE DIFFERENCE was that ask for a penny of state subsidy." they voted party lines.

Geake and six Republicans on the

Senate Appropriations Committee gave 7 to 4 approval of Engler's executive order to cut \$265 million in spending. (Sen. Jack Faxon, D-Farmington Hills, was absent.)

Park and 13 Democrats rejected 15 to 8 most of the budget cuts. Voting to support the Republican governor was Gordon Sparks, R-Troy:

"I'm voting for it because the House will reject it," said Geake, correctly predicting the other chamber's vote.

Geake had other objections to Engler's cuts:

• Contracts would be eliminated for social services emergency needs.

. Cuts were made in an Arab-Chaldean program of counseling and job-finding services headquartered on Telegraph Road in Southfield.

 Cities hosting horse racing tracks would lose \$3.5 million in Less than an hour later, in the state taxes on wagering - about \$900,000 apiece for Livonia, Northville and Hazel Park.

> In a rare public disagreement, Appropriations Chair Harry Gast, R-St. Joseph, replied to Geake: "I have a couple of communities that want a race track, and they'd be willing to sign a blood oath that they'll never

DEMOCRATS HAD many objec-

tions - Faxon and Lana Pollack of Ann Arbor criticized arts cuts - but the most often used partisan word was "mean-spirited."

House Speaker Lewis Dodak, D-Berman, Wilfred Webb of Hazel. Montrose, unveiled his broad approach to finding \$1.1 billion: taking one-third from the budget stabilization (rainy day) fund; getting onethird from budget outs; and finding one third in "short-term strategies" - selling state assets, furloughing employees, giving incentives for early retirement.

Engler's changes, in contrast, showed 10 percent coming from the gainy day fund, 80 percent from budget cuts and 10 percent from short-term strategies.

The Michigan Constitution requires the governor, when revenues

appear to be falling short, to make the labor movement, the governor budget cuts and submit them to the appropriations committees in both chambers. The House panel's rejection killed Engler's executive order. The new governor has 30 days to propose a new plan.

SEN. JOE Conroy, D. Flint, an Appropriations member, was orally . beaten up when he said, "If we were to raise our income tax by 1 percent for one year, we would not have a problem."

Countered Dan DeGrow, R-Port income tax would be overwhelmingly defeated."

Said David Holmes, D-Detroit: "I wouldn't be allowed back in Detroit if I voted for these cuts. As we say in has gone to an extreme in the hope that he'll wind up in the middle."

'sistance, a' welfare program for for young adults on GA and AFDC; and mental health layoffs.

Members of UAW Local 6000, rep-Huron: "A 1 percent increase in the resenting state employees, rallied on the Capitol steps and packed the House panel meeting rooms to charge that Engler's cuts targeted "the most vulnerable citizens of this

But Engler's Social Services chief, Gerald Miller, argues that blanket Democrats concentrated their fire cuts would cost the state matching on Engler's plan to cut General As- Mederal grants. "We calculate that gross (state and federal) spending adults without children; job training must be reduced by \$450 million in order to achieve (state) general fund savings of \$243 million," he said of one program.

Engler attempted to save federally supported programs such as Aid to Families with Dependent Children and cut state-only programs such as General Assistance and the youth conservation corps.

# Wayne reps get committee posts

Western Wayne County still has no state representative on the House Appropriations Committee, the panel that handles Michigan's \$7.4 billion budget.

And it will have only one member, James Kosteva, on the House Taxation Committee, which will deal with Gov. John Engler's proposed 20 percent property tax reduction.

A fourth-term lawmaker, Kosteva, D-Canton, retained the chair of the Colleges and Universities Committee in the new lineup.

HOUSE SPEAKER Lewis Dodak, D-Montrose, made his committee assignments Tuesday, fully two Compensation Committee. months after Senate majority leader Richard Posthumus, R-Alto, made

Also keeping committee chairs were John Bennett, D-Redford -Corporations and Finance (one panel) and Legislative Retirement; William Keith, D-Garden City - Education; and Justine Barns, D-Westland Senior Citizens and Retirement.

Dodak's action cooled speculation he would wait for the Jan. 31 House vote on a 16 percent pay raise and reward or punish members accordingly. Dodak favors the increase as recommended by the State Officers Development and Energy.

The state Department of Labor grant had supported the college's displaced homemaker program.

For many college officials, that would be the unkindest cut of all. "We really feel badly about it,"

Florek said. "This is a program that's helped a number of women, many of whom have never worked before. Some 35 women were involved

with the program last year, according to college statistics, with all eventually finding jobs. Based upon average wages of

Schoolcraft trustees haven't yet discussed the effect of the proposed cuts, or proposed alternatives.

"We're specifically interested in our new building," Breen said, referring to the planned Student Services Center. "The feeling is, we've gone as far as we can for now, so we're looking at what's next."

Expected state grant money for the new building was also at risk Breen said.

# Students gain valuable lesson

ARSHALL JUNIOR High School students Monday learned an important lesson in human relations.

The lesson has nothing to do with traditional academic subjects.

The Westland school, which has a 15 percent minority enrollment, held an ambitious assembly

to mark Martin Luther King Jr. Day. The assembly involved students in telling their peers about King's life and his campaign to achieve human rights for all Americans without

regard to their color, religion or national origin. The school assembly, which stressed King's message of resolving problems without violence, came during the first week of the massive bombing campaign in Iraq by planes from the United

We hope the rest of the community will take the message and treat others the way they would want to be treated.

With the growing number of minorities in the school district, there is a potential for conflicts and isolation. But we prefer to see the change in a positive way and as an opportunity for improved relations between all groups in the com-

ESTLAND HOMEOWNERS will get a conflicting dose of good and bad news soon. Their assessments are going up an average 7 to 8 percent this spring. Residents, however, could see their property tax bills increase by only about 6 percent. The annual assessment increase could be offset partially by the Headlee Amendment to the state constitution which limits assessment boosts to the rate of inflation.

On the positive side, the assessment changes reflect a continued growth in the Westland real estate market, although it is apparently slowing down a bit from the 10 percent increases seen in the net property tax increase would be minimal. the previous years.

# Incomes down while our families struggle

FOR THE past several weeks, I have been writing about what has happened to the American Dream, especially here in Michigan.

The hard, cold numbers are clear. For most Michigan families over the last 15 years, incomes after inflation are going down while costs of middle-class essentials like college tuition and housing have increased sharply.

Most families are pinched, trying to maintain the kind of life predicted by the American Dream (usually at the cost of two wage earners) while struggling to stave off disaster.

POOR PEOPLE, especially, have had a rough time over the past 15

Inflation-adjusted income of the lowest fifth of American families fell by 9 percent from 1973-88, while (perversely) their federal tax bite rose 16 percent over the past 10 years, largely because of increases in Social Security. Such people are not only relatively less well off after inflation; they are absolutely worse

Some of these people, not so incidentally, are those who will be the most affected by Gov. John Engler's recently announced budget cuts, which include elimination of General Assistance - welfare for those who are physically able to work but who cannot find a job.

The worst of the worse off are those with no or little education. Median family income for those who dropped out of school fell by an astonishing 25 percent between 1973 and 1989. Such people used to be sustained by well-paying jobs with good benefits in the auto, steel and other manufacturing plants.

But the number of such jobs has dropped as unskilled work has migrated abroad and as such industries

as autos have shed labor in their drive to reduce costs and increase competitiveness.

IS ANYBODY making it these

Sure. The richest fifth of American families saw their adjusted income rise by 25 percent from 1973-88, while the average federal tax bite on such people fell by 5.5 percent from 1980-90. (Federal taxes on the top 1 percent of incomes fell by nearly 15 percent!)

Most political commentators have noted the remarkable redistribution of wealth - toward the already wealthy - that took place during the Reagan years.

And the shift may go far in explaining just why the stagnation affecting most middle-class families has not produced the kind of social and political outrage one might ex-

 The tax revolt (and its especially virulent form in Michigan, dating from the 1983 recall of two Democratic state senators from the suburbs). It has been caused in very large part by people who see rising taxes as yet another nail in the coffin of the American Dream.

• The generational conflict between the increasingly pampered elderly (for whom indexed Social Security payments and Medicare programs are now the political equivalent of the Holy Grail) and the increasing desperate workers struggling to support them.

• Even the intractable U.S. budget deficit, which stems from the combination of shrinking tax revenues (caused in part by shrinking incomes) and strident demands for maintaining various government programs which sustain the American Way of Life.

# Mehl replies to Thomas

To the editor:

I believe that a response is necessary in regards to remarks made by Bob Thomas about me in his state of the city address and at his press conference (Tuesday, Jan. 8).

I have never disputed he was elected mayor. I do take exception to his idea on why I was elected to council. The fact is, I was elected to represent the citizens of Westland, not to kowtow to every whimsical idea Bob Thomas has as it appears some other people are doing. I have not voted against everything this man has proposed.

I have though asked questions and will continue to do so. In addition I will vote as how I feel things will affect our citizens, both short and long term I will continue to vote against useless expenses of tax dollars, labor contracts that are out of line and proposals that are not good for our city. If Bob Thomas doesn't like it, that's too bad.

I really am not surprised by the

mayor's remarks. He is continuing in the same manner as he campaigned. His state of the city (address) is very misleading and he is notorious for attacking people personally.

I will say that I will not lower myself to his standards, but I will have taken means necessary to proteet my personal rights and my familles personal rights. I plan to continue doing what I feel is right for Westland, not what's right for Bob Thomas personally.

# Pupils mad about story

To the editor:

My name is Dina Cullen and I am president of the student council at Adams Junior High School, Recently many of us have read your former article about our school being a battlefield and were very disturbed by it. It's time you hear our voice.

It was very unnecessary to write such an article. Many people are now going to think our school is a nuthouse and we're all suicidal, but that's not true. There was no reason to pinpoint our school because when you get down to it, our school is just the same, if not better than Marshall, Franklin, or Stevenson.

When our two classmates died last year, it was very hard for many of us. Over time, we have gotten stronger just as anyone does after they lose a loved one. It was rather heartless to explain their deaths in

Obviously, no consideration was given to how their families might feel. I am sick and tired of having our school being stepped on. The article was very cold and inconsiderate. Our school is not full of sulcidals, but normal kids. We don't appreciate it and will not stand for it.

Each is married to a cheating hus-

Ranging in age from their late 20s to nearly 60 and married two to 37 years each, they were attending the first meeting in Michigan of WATCH, a Kansas-based organization for "women and their cheating husbands."

One is wed to a minister, another to an attorney. Others are married to a businessman, a salesman, a factory worker and a peace officer.

Baring their souls, the women shared a wide range of raw emotion, revealing attempts to cope with a crisis that, for most, promises an unhappy ending;

Sonja, in her late 20s and married seven years, wants a divorce. Once, when Sonja was gone, her husband spent the night with his lover in the couple's home.

Louise also wants a divorce. Married 37 years and partners with her husband in a successful Bloomfield Township business, "I ask him to leave but he refuses. He says it's his house, too." Meanwhile, he continues a relationship with another woman who Louise suspects is married.

Pat, a Plymouth woman married 30 years and suffering from a condition she described as "pre-cancerous," yearns for divorce but fears "the only way out of my marriage will be death."

OTHERS ARE INTENT on maintaining marriages.

Judy, a Garden City homemaker married since the age of 15, still loves her husband of 33 years, even though he is involved with a married cocktail waitress. "He was a good man once, and I pray that man will come back."

Carol, perhaps the youngest of the group and married less than three years, is grief stricken. "I still love him. He is my best friend. I don't want a divorce. There is something wrong in my marriage, and I can't fix it." She silently weeps.

Rose, of Livonia, is also in love with her husband of more than 30 years. Unfortunately, after a long affair between him and Rose's best friend of many years standing, he recently divorced Rose and is now married to the friend.

Carolyn reflects uncertainty about continuing her marriage. "I was five months pregnant (two years ago)

with our third child when he told me of seven affairs. I already knew about one."

Since the confession, "he's a changed man, everything I ever wanted him to be, attentive, at home every night and on the weekends, and caring for the kids.

"But I need to learn how to go on," she sobbed. This is the first time she has ever expressed her feelings

AN OPPORTUNITY to talk and share grief with others is why Susan, an employed mother of three, orgaher husband's brief affair with a colleague at work.

"I still can't trust him. What I need, is to talk. But you can't just talk to anyone," Susan explained at the start of the gathering.

Coping with feelings of betrayal and dealing with the accompanying nized the meeting after learning of sense of rejection and shattered

"There's an awful lot of embittered victims out there. And

here to learn how to deal with this." Jeanne, a Livonia wife and mother of five, wants "to become healed."

Lynette, whose primary confidant until now has been a parish priest, needs support. "My attorney asks why I want a divorce. My husband pays everything and gives me an allowance. I want a divorce-for my sanity." At a recent WATCH meeting she celebrated her 31st wedding an-

Marilyn, married 23 years to an Oakland County minister and the mother of five, readily admits, "I don't know how to cope. I'm hurt and

Rose responded. "You may never trust again."

SOME HAVE responded to the deep hurt in ways that are shocking even to them.

Carol has physically assaulted her husband twice, the first time immediately after learning of the affair. He was holding the couple's infant

"By nature, I'm not a violent person. My reaction scares me," she

Toni said she seriously considered murdering her lover of four years after he jilted her to marry another woman. She fully intends "to get even." Judy regularly spies on her husband.

"He's really stupid. He leaves clues everywhere," said Jo of her husband, a Westland salesman who travels. Married 31 years, he entered into a love affair three years ago, after Jo's elderly mother came to live with the couple.

Irene, a Northville resident and wife of 27 years, offers hard-learned advice. "I'm not excusing their behavior, but each of us has contributed a little bit ourselves to this."

When she learned of her husband's affair two years ago, "the first thing I wanted to do was run to a lawyer. After talking to my sister, I took caution, went slow. I tried to read what was happening."

TODAY, "MY marriage is working. It can be worked out if you real-

# Safe Sex addresses issues of teenage sexuality

By Larry O'Connor staff writer

The dire consequences of unprotected sex are well spelled out for teenagers - A-I-D-S.

But somewhat lost in AIDS education are other sexually transmitted diseases. Gonorrhea, syphilis and Chlamydia are still around.

And those STDs are also affecting teens at an

"The AIDS issue brings out other problems," said Dr. Donald Lawrenchuk of the Wayne County Health Department.

For example, 182 cases of syphilis for the 15-19 age group were reported statewide only through September of last year. In all of 1989, the total number of cases was 135.

That compares to 70 cases for the same age group in

Centers for Disease Control in Atlanta reports a hyper-epidemic in STDs for all age groups, including

Lawrenchuk said the teenage increase is partly due to the crack problem where teens trade sex for drugs. Lack of education on STDs is another problem.

STDs of any type are not to be taken lightly. Untreated, venereal disease can cause sterility in men and infertility in women.

Venereal diseases such as gonorrhea, syphilis and Chlamydia are caused by bacteria passed along through sexual intercourse.

GONORRHEA CAUSES inflammation of the urethra and a discharge of pus. Advance stages of the disease can lead to arthritis, inflammation of the heart valves and an infection of the eyes.

Syphilis is noticeable by an open sore (chancre) on the genital area two to four weeks after infection. Enlargement of the lymph nodes usually follows one to two weeks later. Fever, malaise and a red rash on the chest area marks the secondary stages of the disease.

Left untreated, tertiary syphilis can develop months or years later. Severe cases lead to tumor masses,

heart damage, mental illness or blindness.

Chlamydia is a bacteria that is difficult to detect. In women, the bacteria can cause pelvic inflammatory

Barb Krauseneck, a nurse practioner, teaches a free class for teens in sex safe practices at the Henry Ford Westland Medical Center. The sessions last 11/2 hours and covers issues facing teens such as the use of contraceptives and learning how to say no.

Not surprisingly, STDs have become a large focus. "Sexually transmitted diseases are so common among teens," Krauseneck said. "They think, 'It can't happen to me,' just like in pregnancy.

Such an attitude of invisibility leads many teens not to use condoms all the time, which would stop the spread of sexually transmitted diseases.

KRAUSENECK added another concern for teens is genital warts, which left undetected can lead to cancer. The number of genital warts cases is growing among...

In general, Krauseneck said youths are familiar with AIDS but lacking in knowledge of other sexually transmitted diseases.

Such classes get the word out. But more needs to be done, according to Lawrenchuk.

He cites an on-going study recently published in the New England Journal of Medicine. Researchers ... examined low-risk population (non-drug using heterosexuals) and found 0.77 percent tested positive for HIV.

Another aspect of the AIDS crises to consider is . although the majority of AIDS cases fall into the 20:49 age group, the disease usually has a 10-year incubation period. Chances are a good portion of those with AIDS were infected as teens.

The next Safe Sex class will take place 4-5:30 p.m. Friday, Feb. 1 and 22, at the Henry Ford Westland Medical Center, 35605 Warren, between Wayne and Newburgh roads, Westland. The class is for girls ages 12 to 18. For more information, call 728-0740.

I enjoy reading your column. I find it interesting and very informative. I finally decided to write after my English teacher told me I had to type out every plece of work done in her class. From the day I picked up a pencil, there has always been someone looking over my shoulder, nagging about my writing technique.

I am 18 years old and right handed. I would love to have my handwriting analyzed because I am hoping you can give me some insight about myself and possibly answer. how this can be my neatest handwriting yet everyone: I know thinks it is sloppy.

I appreciate your positive comments on my column and thank you very much.

You are a unique young woman who has developed good coping skills in spite of problems. If this handwriting, as you say, is your best effort, I strongly suspect there is a coordination problem involved and it could be the result of either a physical or emotional problem.

I can't help wondering if the small muscles that control the movements of your hands have not been sufficiently developed. How are you at doing other things with your hands? While teaching graphology classes over the years several parents made me aware of this problem with their

am reluctant to probe too deeply into your handwriting. However, some signs seem strong and may be helpful for you to consider.

It seems quite possible that you may be torn by inner conflicts such as confused feelings from mother-father influence, independence-de-pendence and/or confusion with regard to acceptable social and sexual roles. There are many indications of ambivalence here which can cause indecision, anxiety, guilt and/or mood swings.

Joan Mondale came to the Livonia Town Hall not to discuss politics, but rather her love affair with the arts. Art, she said, is important to the fabric of American life.

# Joan Mondale links life, art

By Larry O'Connor staff writer

Joan Mondale believes people got to have art.

But after the wife of former U.S. Vice President Walter Mondale spoke Wednesday, some in the Livonia Town Hall audience might have been wondering, "Where's the beef?"

Anyone expecting the inside scoop, gossip or dirt about life in the White House was sorely disappointed. This wasn't the "Joan Rivers Show."

Instead Mondale spoke about the fabric of American life.

"The arts matter, the arts contribute," Mondale said emphatically, "and the arts are worth supporting."

A few women squirmed in their chairs, a couple of them whispered. One closed her eyes and began to nod

For the most part, though, those in attendance at Roma's of Livonia listened intently. Undoubtedly, Mondale is passionate about the arts.

After all, this is a woman affectionately called "The Joan of Art" and whose first date with her husband of 36 years was at an art exhibit. She is involved in a myriad of organizations, including serving on the board for the Kennedy Center for the Performing Arts.

HER TOPIC is a newsworthy one, especially in light of budget cuts proposed by Gov. John Engler that would drastically affect state support of the arts.

Mondale's message was simple: This country needs the arts, be it performance or visual. She cited several examples of how the arts are flourishing nationally and enriching

HER MESSAGE to those in the Livonia Town Hall audience was more direct: Support the arts, be it as a patron, a volunteer or a con-

The role of the government is also vital, she said. The U.S. Senate passed a budget increase for the National Endowment for the Arts from \$171 million to \$174 million.

The arts cost the average taxpayer 64 cents a year, Mondale said. Estimates of the savings and loans bailout will cost every man, woman and child \$2,000 by comparison.

The Mapplethorpe controversy was caused by the right wing making issue, Mondale said.

"We're going to face changing values, changing morals. Often these are confronted face to face .... That's no reason to eliminate freedom of expression."

MONDALE'S LOVE of the arts can be traced back to her childhood, although she didn't really become a full-time advocate until her husband became vice president in 1977 under President Jimmy Carter.

She set out on speaking engagements and testified before Congress and lobbied for public officials to support the arts.

If anything, Mondale's work allowed her from underneath the shadow of being a politician's wife. She found four years as a vice presidential wife and a presidential campaign in 1984 to be a fishbowl existence.

Some, like Kitty Dukakis, have withered under such scrutiny.

"You start to become a little selfconscious. You have to block it out. You have to love politics 100 per-

APPARENTLY, MONDALE does. Although her husband is out of the political mainstream, another Mondale - Ted - was recently elected to the Minnesotá State Senate. Joan was actively involved in her son's campaign.

Mondale and her husband spend a great deal of time talking politics, she said. Her husband would not have advocated the use of force in the Persian Gulf, instead letting sanctions work longer, she said.

She's also quite opinionated about the Ronald Reagan presidency, which her husband campaigned against in 1984.

"I think the basic philosophy of the Reagan-Bush administration was that government was part of the problem, not part of the answer. I think people embraced that not realizing what it meant."

# Reaching out

# Pastor likes challenges of his new role

By Larry O'Connor staff writer

On his arrival at'Village Presbyterian Church in Redford, the Rev. Paul Bousquette looks like he could use some waders and a strong net. Like, for one, the aquarium in

Bousquette's office. Water fills the glass tank, but there's no fish,

week," Bousquette said.

The other, and perhaps more important, is lack of people in the congregation, especially younger families. Bousquette has arrived as new pastor to lure them.

Village Presbyterian recently celebrated its 100th anniversary. Yet the venerable institution on Six Mile Road has not been immune to the illsaffecting other mainline denomina-

'I don't think I would have taken the pastorship if there wasn't a challenge involved.'

> -Rev. Paul Bousquette Village Presbyterian Church

Today, the congregation today numbers 300. That compares with a membership of 800 some 20 years

The receding number at services is attributable to a national trend. Part of it, though, might be the image of Village Presbyterian Church.

"A lot of people think this is a "Hopefully, I'll get to that this church of older people because the Village (retirement area) is right be-.. hind us," Bousquette said. ". . . but that's not what we're about. We have a lot of young people who attend our services."

> At least 40 percent of the congregation is 50 or younger. Which is not a lot considering the high number of young families living in Redford Township.

> BOUSQUETTE, 34, arrived in November from Second Presbyterian Church in Richmond, Ind., to facilitate the transition.

new programs designed for young couples. On Feb. 14, a parenting seminar will be offered at Village Presbyteri-

For one, the pastor wants to add

an. The program is headed by Judy Cox of WISE Mothers Inc.

Already, the church has a strong youth program established. The group meets on Thursday nights.

In the future, Bousquette would like to see the church membership become more involved in evangelistic programs: Perhaps even open a mission to help the poor, something similar to what he was involved in at Second Presbyterian Church.

At this point, those are pipe dreams. Bousquette is busy ministering to a congregation that has been without a full-time pastor for nearly a year. The Revs. Carol Gregg and Charles McCloskey filled in on an in-

"What I found first and foremost at the congregation is they need pastoral care," he said.

His style is different.

At Sunday services, Bousquette will come off the pulpit and talk with the congregation. He doesn't speak in grand "fire and brimstone" oratorical tones. Instead, Bousquette tries to be more reflective.

He just wants to be "one of the guys," which might fly in the face of a congregation known more for trad-

"THEY'RE NOT used to it yet," he said, "but they're coming around."

The church's Pastoral Nominating Committee liked Bousquette's ministering. The contingent attended a

service where he was a guest speaker at Littlefield Presbyterian Church before deciding on asking Bousquette to join.

"He's very good on the pulpit," said Harry Simon of Redford, who was on the committee. "He's relaxed. He preaches on the Bible, His' sermons are well-planned.

"He seems to have a lot of good ideas. We're trying to build up our membership and I think he's the one. who can do the job."

Bousquette's arrival is a homecoming of sorts. Bousquette is a native of Sterling Heights. He was majoring in Forestry at Michigan State University before getting "the call" and transferring to Sterling College in Sterling, Kan.

Bousquette completed his graduate studies at Louisville Presbyterian Theological Seminary. He was ordained in 1985.

Second Presbyterian was his first assignment where he was quite involved in mission work. His task at Village Presbyterian is to make a longstanding church vital once

"I like a challenge," he said. "I don't think I would have taken the pastorship if there wasn't a challenge involved."

The Rev. Paul Bousquette, wife Sandy and the couple's two sons arrived at Village Presbyterian Church in Redford last November. He previously served at a church in Richmond, Ind.

# God's love can help to drive away our fears

There is much to fear in the world. There are many things that are happening in people's lives that cause them to feel afraid. Fear is a feeling. Fear is also a reality. Fear can be felt as a trembling of the body. Fear can be felt as tears of sorrow. Fear can be a dread and even terror.

A young man told me of his fear of going into battle in Vietnam. He was terrified. His body was not functioning normally. Finally he was afraid to be afraid. He was ashamed of his fear. The scars of this awful experience still linger.

Even in this relatively secure society, fears seem to grow. There are fears of job loss, fears of recession or higher inflation. Disease strikes someone we love. Those who live on the margins of life, the poor, the old, the incapacitated, may well

fear social welfare cuts. Mothers and fathers fear the impact of drug use in their family. Fears grow upon other fears.

A VOICE from an ancient time tells us "There is no fear in love. Complete love casts out fear." This Scripture passage from I John rings

Only love can help us with our fear. A person who cares enough to listen to us can help us. A person who assures us that there is care, support, love for us when we fear, this helps. Sometimes it takes physical touch to help us face our fears.

speaks of something more than human help. This voice says to us that it is God's love which makes the difference. It casts out fear. If we know that God's love is certain,

in my mind.

The voice from ancient times

// moral perspectives **Rev. David Strong** 

never ending, we are strengthened. If God's love is very real inside a person, their fear will diminish.

The voice from the past tells us that God's love is far greater, more powerful than we imagine it to be. If God's impact upon life is this great, our fear has in fact become

This voice from the past is not suggesting that we ignore this

earthly life. This voice is not saying everything is going to be all right because we will go to heaven. It is not to deny a real strengthening of

Job wrestled with the horror of losing everything, even one's health. He found an answer through the mystery of these tragedies. God was with him. God's love drove out his fear. God's love drove out some of the horror of his situation.

IN THIS TIME, our capacity to love needs to be enlarged. We need to be able to love in trans-personal and world scale terms. We need to reach out and claim those sources of strength and God-given love which are available.

Shakespeare's words come to mind: "He scoffs at fear who never felt a wound." Our wounds, our pain, our cause for fear can be a source of strength if we have found a way to overcome.

Many have recently celebrated the birthday of Martin Luther King. We have been taught by the wounds. the pain and the sacrifice of this man. It is easy to criticize a life as not absólutely perfect. But this man, through his own pain, through the pain of his people and his country has taught us something.

It is possible to overcome our

fear and carry on with the important task. It is possible to gain strength, and overcome if we seek, over and over again the depth of that love that casts out fear.

These are great days in which to live. In the smoke and folly of humankind, love and the deeds of love can make a différence. However we draw upon this resource, our world needs it more than ever before.

Do you agree with Arnold Toynbee who says: "Love is the ultimate force that makes for the saving choice of life and good against the damning choice of death and evil"?

The Rev. David T. Strong is pastor of Central United Methodist Church in Detroit.

# Advisers busy during recession

By Doug Funke staff writer

You hear that economic times are worsening on the business front by talking with people like Carol Hay, Kenneth Posner, James Maiani and Don Wertman.

Hay, a consultant with Universal Software Solutions of Canton, specializes in advertising and promotions for smaller businesses

Posner, a lawyer in Troy, represents both landlords and tenants in various matters including bankrupt-

Maiani, president of Data Techniques of Farmington, is a consultant to busineses for computer hard-

ware and software systems. Wertman, president of Syschk Inc. of Northville, runs a temporary employment service for business data

processing software users. Their observations give some insight into where businesses go wrong

- as well as right - when the good times stop rolling.

For example, the start of a downturn is the absolute worst time for a small business to cut back on promotional activities, Hay maintained. Unfortunately, many do just that.

"PEOPLE'S ATTENTION span is pretty short," she said. "Consumers aren't loyal to the places where they buy. They go for the best price or the latest name on the brain.

"In recessionary times, people hold back. They're scared. You have to keep your name out there, keep promoting in good or bad times."

Hay has worked with smaller business - dry cleaners, carpet cleaners, electricians, specialty stores and other consultants. Most have been in business two to eight years when

they seek her services. "They have never sat down and

gone over elementary-type things," she said. "We go over who the client is, identify customer profile, who they are, where they live, why they buy from your competitor."

Promotions don't have to be costly, she said. Fliers, direct mail and church bulletins are relatively cost effective.

"Small businesses don't have as much play as to how much they can take home or ride through on," Hay said. "A 10-percent decrease to them is phenomenal. It could kill them."

COMMUNICATION IS the key to a good business relationship, attorney Posner said, especially when the economy begins to sour.

"The most important thing in the tenant/landlord area in a recession is to keep in contact with each other and share information," he said. "If you get to a problem early, you can work it out. Bankruptcy is a tool of last resort."

A good lease from a landlord's perspective allows for periodic review of financial statements, Posner said. Tenants should strive for exclu-

sivity and escape clauses in lease negotiations. "If I were the landlord of a small office or small strip center, I would

consciously sit down, perhaps with an accountant, and do an audit of how well each tenant is doing . . . so I don't have any surprises," he said.

"To the extent you have the right to ask for questions and reports, ask for them. If you know who the tenant's customers are, talk to them to get a feel for how the tenant is.

doing. "You don't want to let a tenant get too far back on what he owes," Posner said. "If you identify a problem early before it gets out of control, maybe there's something you can do to save the relationship."

And Posner's current view of the economy? "If this isn't a recession, I don't know what is."

The behavior of business users now is typical of a recession, said computer consultant Maiani.

"WE ARE VERY busy on custom programs now. There's three months of work out there. Companies will lay off people and come to us to get services done. We are not busy at all selling hardware."

Wertman, who provides software specialists to mid-sized businesses on a temporary, as-needed basis, elaborated.

"They have to let go of their own people. After they lay people off, they need something done. We go in for a month or so and they say goodbye. They can get rid of us quick.

"It's the old story - when you hire someone, you make a commitment, his medical (benefits)," Wertman said. "When you hire us, you pay one fee and don't get involved in all that stuff." Also, budgets can more easily accommodate temporaries than full-time personnel, he

"In my experience, they're doing what they have to do," Maiani said. "They have to cut costs somewhere. They stay in business."

But the long-term picture often is ignored in both good times and bad, he added

"Small businesses, when things are busy, don't seem to take the time to upgrade or automate functions they should be automating," Maiani said. "During a recession, when things are slow, they should take the time to go ahead and spend a few dollars. But they don't.

"Small business owners can't see past their noses in some instances. They can't see the long term."

stances, they said.

Interested in making a quick killing in the stock markets with war raging in the Middle East? Forget it, said several profes-

sionals in the brokerage business. Speculation isn't highly regarded as a suitable strategy for most investors even under much more stable international circum-

Besides, the entire investment community had five months to gauge potential profits of defense contractors during the U.S. military build-up in the Middle East.

Speculating now almost would be like closing the barn door after. the horse has run away.

"We're not really interested in trading accounts," said Craig Fleming, Plymouth branch manager at Prescott, Ball & Turben. "It's too difficult a game to play and constantly be a winner.

"The winners I've seen are people who bought quality, held on for the most part and ignored short-term trends," Fleming add-

DEAN GULIS, research director for Roney and Co. was more blunt in his assessment of people who want to play investment roulette with military industrial companies now.

"Good luck," he said. Since the United States attacked Iraq Jan. 16, stocks have soared and the price of gold and oil has dropped - all contrary to what might have been expected to happen in that war situation, Gulis said.

So what's an investor to buy? Companies that cater to ongo-

ing needs of consumers, analysts agree. 'We would focus on defensive

issues in an economic sense, not military . . . where demand patterns are not likely to be disrupted by war or (economic) uncertainty," Gulis said.

Specific companies that would get a look from Gulis include Philip Morris, Anheuser Busch, Johnson & Johnson and Kmart.

"THOSE WOULD be core positions we would build around," he said. "In general, we would stay with the highest quality companies."

Stocks of defense contractors haven't really been in vogue since the fall of communism in Eastern Europe more than a year ago, analysts said.

"Stocks we're recommending now that war is in progress aren't much different than a few months ago if there weren't a war situation," Fleming said. "We're not involved in short-term strategy. We're looking at two to five years or longer."

Consumer-type companies on Prescott's buy list include Ameritech, Disney, Bristol-Myers and Waste Management.

"A lot of stocks we'd like to own and our clients to own are much more favorably priced thanks to Saddam Hussein than they may have been a few months ago," Fleming said.

Mark A. Calice, Troy branch manager at First of Michigan, agreed that most investors would do better with a long-term strategy than speculating on war.

"THE MOOD of the investor today is defensive - things they need regardless of war or movement of the economy," he said. "Health care is an ever-expanding area. Utility stocks, food supply companies. Something that's an on-going requirement . . . a renewable demand."

Sysco, a food supplier, Handleman, a video distributor, Entertainment Publications and Blockbuster Video would get a look from Calice.

"Uncertainties of war and financial problems of banks have created a tremendous opportunity for longer-sighted investors," Calice said. "(Stock) prices are at a tremendous discount from what they were a year ago, six months ago."

But what of defense issues, specifically?

"I don't think they're overpriced," Calice said. "Additional gain depends on the outcome of the war and the rebuilding that needs to be done."

McDonnell Douglas, a major defense contractor, was mentioned by Calice as a possible

speculative buy. "Sixty-six percent of sales are to the U.S. government, 20 percent to foreign countries," he said. "I'm willing to bet the government's not going to let them go

The Nightly Business Report is sent live over the public broadcasting system satellite at 6:30 p.m. (some stations like Channel 56 tape it and show it later in the evening).

After the broadcast, anchors, reporters and production staffers begin planning for the next day's program or continue to work on breaking stories. If a story develops further, it is possible to send updated reports to be inserted in areas where the Nightly Business Report is shown later.

# Sex doesn't sell cars, marketing folks have decided

Events in the Mideast have diminished, if not eliminated altogether, attention to events of lesser significance that otherwise might have deserved our attention.

OK, so maybe even if there hadn't' been a war, not too many people would have noticed Ford and Chevy's apparent threat to a fine old tradition at the North American International Auto Show — namely, the substitution of actors in so-called "real life" situations posing alongside cars on display, rather than the of having nice-looking young women Paris? ride the turntables,

The theory behind this is that people are tired of looking at nice-look-

ing young women wearing about seven hundred bucks of clothes and would rather see articulate couples, wearing, for example, a tweedy suit that goes well with a station wagon.

Frankly, if the people responsible for marketing cars really believe this, the auto business is in worse trouble than I thought.

ONE OF THE ironies to all this is that the "new" North American International Auto Show is supposed to. be a "European" style event. Does anybody at Ford or Chevy really blatantly sexist habit of past years think they do this kind of thing in

# Inflation could kill safe T-Bill

By Sid Mittra special writer

Recently John Jones, one of the long-time readers of my column. came into some money (approximately \$1 million). When we got together to discuss the currently available investment opportunities, he had all but decided to invest the en-

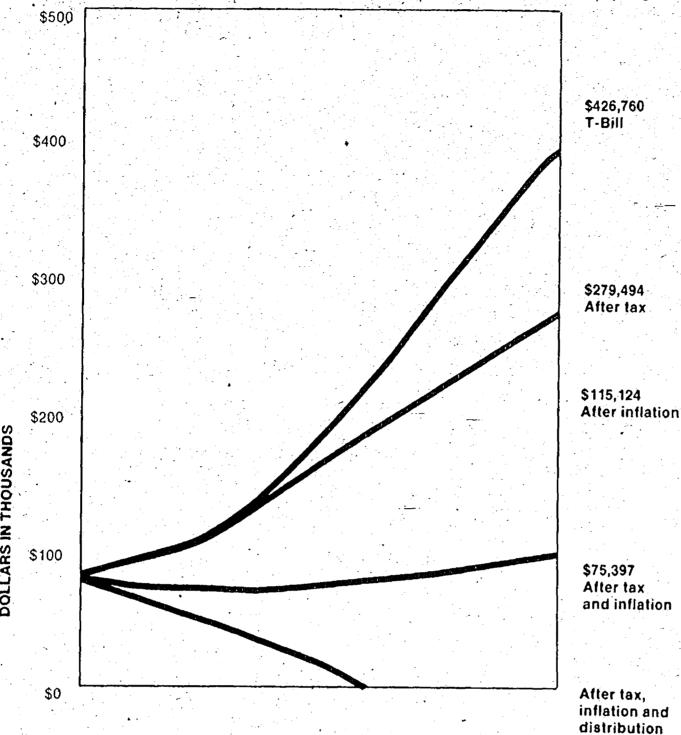

tire sum in T-Bills. "Why shouldn't I take that route." he argued, "since this investment is safe, solid, guaranteed, and hassle-

Jones was right, but only partially. Risk has many faces, and it is unwise to make firm decisions about investing large sums of money without a proper understanding of the complicated risk-reward model.

During the course of our discussion, I presented to Mr. Jones the accompanying charf, which I use in my graduate-level investments course at Oakland University. The chart reveals the following facts:

• If you invested \$100,000 in T-Bills in 1971, by the end of 1989 you will have accumulated \$426,760, ignoring taxes and inflation.

 When adjusted for taxes and inflation, your \$100,000 would be worth \$75,397 in 1989.

# Home business demands talent

By Mary DiPaolo

special writer

At last count, 26 million people - representing 10 percent of the nation's total population - now work at least part time in their homes. And it should come as no surprise that the overwhelming majority of these home-based entrepreneurs are women with fami-

No longer thought of as merely seeking some "temporary diversion" to offset the responsibilities of raising children, these working mothers are proving that it is possible to have the best of both worlds while earning extra income in the process.

IN A recent article appearing in Focus on the Family magazine, author Cheri Fuller says that starting your own home-based business begins with assessing your strengths and skills.

Barbara Brabek, author of 'Homemade Money" and the newsletter National Home Business Report, agrees with Fuller, saying, "one passionate interest could be turned into a business."

Among those talents that have been pursued by women at home include teaching cooking, music or art, designing and manufacturing accessory items such as jewelry. headbands and T-shirts, gardening fresh and dried herb products, custom sewing, baking birthday cakes

and providing professional business services.

TO HELP identify good ideas for a home-based business, consider the talents or skills that others have consistently complimented you on in the past. For example, your having been recognized as an outstanding organizer, letter-writer or furniture refinisher may be just the confirmation needed to transform a specific talent into a

money-making venture. Beyond processing the necessary skills to make a go of your business idea, take time to analyze your own personal characteristics.

Can you set up and follow your own schedules and deadlines? How much money can you invest in a business? Is your spouse and family supportive?

Getting the answers to these and other related questions will help determine if you can do it alone or should consider one or more partners with whom you can share your business vision.

ONCE YOUR have decided on the type of business you are best suited to pursue, Fuller says it is important to learn all you can about the field

"Successful home workers say that after defining their business interest, they went to the library and read as much as possible about the field," Fuller said.

# How to win at the numbers game.

The game is newspaper advertising — and the rules are changing. Rates are up in the Detroit News and Free Press. Suburban circulation is down. And all around town, advertisers are wondering what numbers to trustand where to place their media dollars. What should you do?

of \$6,000/year

# Beware of smoke and mirrors.

Right now, the News and Free Press circulation is unstable at best. On the other hand, SPRING's network of 39 Detroit suburban newspapers delivers to more than 500,000 households --and that's a real number.

How do we know? All SPRING newspapers are audited Every

year, the circulation figures for each SPRING newspaper are verified by either CAC or ABC—two of the industry's most highly-respected independent auditors.

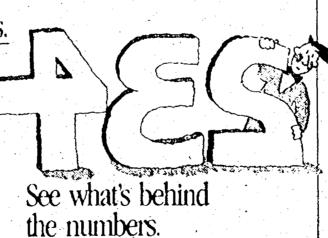

No slippery stuff here. SPRING's numbers are tested, tried, and true.

# Place your bet on SPRING.

Once you've studied the numbers, we're sure you'll agree: SPRING is a sure winner:

SPRING's circulation is solid and stable. It's audited. And it represents more than one million readers who have the means to buy what you sell.

No matter how you figure it -- those are very good odds, indeed.

OK — so dazzling numbers can be misleading. And, when it comes to newspaper circulation figures, you want more than quantity. You want quality.

We've got it. SPRING's one million readers are some of the most affluent consumers around. SPRING newspapers go to suburbs with the spending power to buy more cars, condos, boats, bikes, appliances, apparel, gizmos, and gadgets than most other Michigan communities combined.

Best of all, SPRING delivers this upscale suburban market at a lower cost per thousand than either the News or the Free Press.

One call. One order. One ad. One million readers, one neck-of-a-buy

# Boogie woogie

# Bob Seeley 'an American master'

By Stewart Francke special writer

T IS PROSAIC ENVIRONS for an American master - the piano tucked in the bowed, darkish cranny of the long bar, a promotional glossy and sign hanging just above the plano, reading "Appearing Tonight, Bob See-

The pianist recently celebrated 18 years of performing at Charley's Crab - 15 years in Troy and three years before that at the old Charley's Crab in Pine Lake.

Seeley, small, meticulous and youthful-appearing in his late 50s, begins pounding out Meade Lux Lewis' "Honky Tonk Train Blues," an effulgent piece of boogle woogle piano. The tempo builds and transfers, the thundering left hand playing a rolling four to the bar, alone a mountainous rhythm section. The extended musical images of Seeley's forms - boogie woogie, stride and ragtime - capture perfectly the sounds, motion and emotional transitions of a developing America - in this case, an early steam train.

Seeley, a white master of these black American jazz forms, is no ordinary lounge act. If you do hear "Misty," it's gonna jump.

The Birmingham resident plays five nights a week, 7-11 p.m., at Charley's Crab, with little disillusionment or untended ambitions. He is happy to play. "This is good here," he says, "real good clientele. You don't get the bowling shirt crowd that keeps telling you over and over to play a song you don't know.'

IN ADDITION to his house gig at Charley's Crab, Seeley plays ragtime, jazz and blues festivals throughout the country. Classically trained, Seeley can also plays the works of Beethoven, Rachmaninoff and Debussy, through his passion lies in the jazz and blues forms.

He has recorded only once, the result being "Boogie Woogie and Blues," a remarkable 10-song collection of complex, incandescent solo piano styles restricted almost wholly to stride and boogie 12-bar blues.

Bob Seeley of Birmingham has been playing for 18 years at Charley's Crab.

"As far as recording for a label," Seeley says, "maybe I'll look into that. I feel that if you concern yourself too much with the music business, then the business of music goes out the window. I just play."

Although Seeley is interpreting largely vanished forms, he is internationally revered. Charley's Crab honored him Sunday with a gala pi-

anofest. He recently was sought out by Rolling Stones keyboardist Chuck Leavell who, after hearing Seeley, wrote a laudatory article in Musician magazine around him. His sound recently was cited in a booklength study of the history of boogle woogle called "The Left Hand of God." And he has been selected to appear at a stride and boogie festi-

val Thursday-Saturday, March 7-9, in Paris.

It was at a post-concert house party in Detroit that Seeley, then a skin-ny kid learning plano licks off records, gained a friendship with the legendary boogie pianist Meade Lux Lewis. Lewis had invited the autograph-seeking Seeley and some friends back to the party. Seeley arrived before Lewis and was persuaded to play some piano. He was charging through Lewis' "Chicago Flyer" when Lewis finally appeared.

Initially impressed with Seeley's playing of the technically difficult piece, Lewis and Seeley enjoyed a close friendship until Lewis' death in 1964. The vagaries of being a boogie woogie musician were evident in Lewis' life. "Lux Lewis used to blow my mind," Seeley recalls. "He'd sell out the Embers in New York and go back to L.A. and play in the corner bar."

THE HISTORY of boogie woogie is confused, romantic and brief. As jazz splintered into the progressive and traditional camps, boogie woogie, with its walking left-hand bass and stomping, climactic structure, deeply influenced the seminal rock 'n' roll of Little Richard, Jerry Lee Lewis and others.

Boogie woogie was intensely popular for a short time in the '30s, but only a handful of pianists — Albert Ammons, Pete Johnson, Lewis and . Jimmy Yancey -- continued with it. "Commercial interests got ahold of it and watered it down," Seeley says. "Pretty soon it was very elementary and people lost touch with the real item. It didn't have the impact and the power. Guys like Meade kept playing it, I kept playing it, and now there are quite a lot of people around who like it."

Today, however, boogie woogie is almost unanimously performed by whites, "Fact of the matter," Seeley says, "is that white people now listen to it. But generally they don't care about the race of a person. Does the

# When I was a young man...

By Iris Sanderson Jones travel editor

OCONUT Grove guidebook author Jean-Pierre Haynes calls them "come-overs, stay-overs and wheneyes." The come-overs are ivy league transplants in Gucci sweatclothes, biking the brick streets, eating yogurt ice cream or sipping beer at the sidewalk cafes.

The stay-overs have been in Coconut Grove long enough to be season ticket holders of the Coconut Grove Playhouse, to remember when there were no sidewalk cafes and when all the phone numbers began with the word Highland. But it is the when-eyes that connect us to the mansions of the "old grove," the opulence of Vizcaya and the history of a town that was the biggest in south Florida when Miami was only an army post.

According to Haynes: They start every sentence with, When I . . . "For example, 'When I was young . . . 'or 'When I first

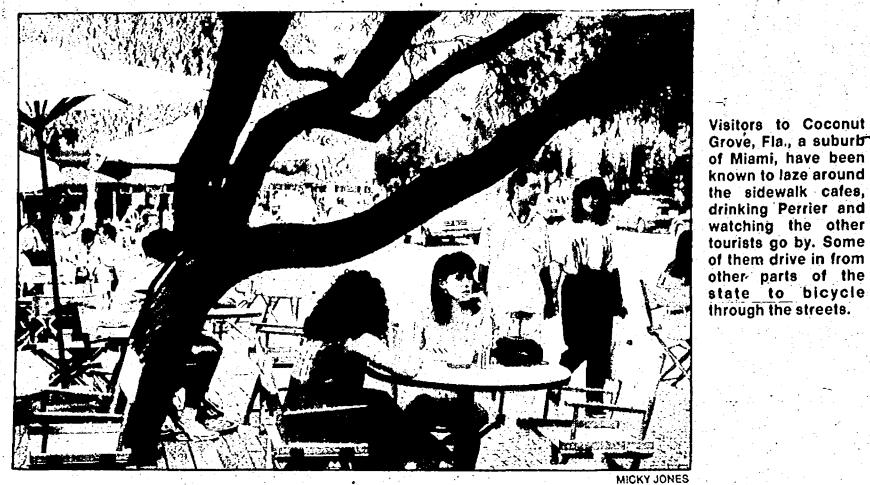

"The when-eyes also know that the most infamous day in history was Sept. 2, 1925, the day the city of Miami annexed the grove despite the near unanimous opposition of the residents."

You may not have heard much of Coconut Grove recently, but it is one of three Miami suburbs of special interest to travelers daytripping or overnighting in the city.

The other two are the restored Art Deco district of Miami Beach, where people once more sit in the sun outside of small pink and yellow hotels, and Key Biscayne, where you can frolic on park beaches within sight of the city skyline.

... I overnighted in Coconut Grove recently. unexpectedly wrapped in the luxury of the Grand Bay Hotel, the only five-star hotel in Miami and one of only 11 in the U.S.

The concierge gave me a map marked in the appropriate places: The art deco Miami

city hall nestled in palm trees against the sea; the Chamber of Commerce in Peacock Park, where McFarland Road turns north towards Main Street and "the village;" several sidewalk cases; the Barnacle state historic site; the big Mayfair shopping complex; and a store called the Book Worm.

I thumbed several guidebooks and settled on one called Cocoanut Grove by Jean-Pierre Haynes, \$12.95. No, the spelling of the title is not a misprint. That's what Dr. Horace Porter called it when he named the post office after the cocoanut trees he planted here in 1873.

The Indians called it Little Hunting on the roof.

Ground. Pirates moored their ships in Sailboat Bay. Bahamian seamen lured ships to their death on the reef nearby, and the Peacock family built a hotel that lured wealthy families from the north.

I was there on a Saturday, when the Chamber of Commerce was closed, but the sidewalk cases were already serving cossee and Perrier on the few blocks of Main Highway that anchor "the village." I joined a lot of people eating breakfast outside the tiny Cafe Terrace and got some local lore from tablemates who drive 25 miles from Hollywood, Fla., every weekend with their bikes

They have often visited the opulent villa and gardens at Vizcaya, built in 16th-century style by farm equipment industrialist James Deering, and now the biggest tourist attraction in Coconut Grove. They also like to tour the streets around the "old grove" mansions and sit in sidewalk cafes and watch the town's busy young tourist life.

The come-overs are here in their designer sweats. The stay-overs are biking and walking the brick streets. Most all the weekend tourists are buying from the expensive shops and sitting together in the sun at the sidewalk cafes.

I followed the low stone wall, made long

You may not have heard much of Coconut Grove recently, but it is one of three Miami suburbs of special interest to travelers.

ago with chunks of coral, that surrounds old mansions hidden in trees along Main Street. I peered through what looked like rifle ports in the wall and saw jungle, sometimes a forest made only of a single tree that had divided into a dozen trunks and was trying to climb over the wall into the street.

I turned away from the street life at/a sign that read "Barnacle historic site" and found myself on a buggy trail that curved through jungle arches, made as the frees dropped their branches across the path.

The old trees led me out of the world of Ralph Lauren into the world of Ralph Middleton Munroe, the most important early settler, whose 19th century wooden house looks across a natural hammock of mown grass to the sea.

A girl was on her stomach reading a book in the sunshine and three young sailors walked single-file past a restored historic ship exhibited on the lawn. Herons sat in shallow waters by the boat dock.

You can't see much of any place in a day, but a picnic table in this small preserved area was a good place to imagine what Coconut Grove was like a hundred years ago, when most of Florida was swamp.

It was easy to imagine the distinguished names that wintered here: Alexander Graham Bell, Thomas Edison, William Jennings Bryan, Harriet Beecher Stowe, Charles Lindberg and Mrs. Andrew Carne-

Many showbelt residents can't resist the urge to get away from winter's icy fingers, at least for a week, and buy a Caribbean cruise. This group of tourists plays volleyball in the Bahamas

while their boats, Oceanic and Royale of Premier Cruise Lines, rest at anchor on the horizon.

# Local travel agents say cruises are the best getaway bargain

This is the time of year when winter-weary travelers look for bargains, especially in the southern sun. We canvassed some of our friends in the travel agency business and their recommendations are listed here. Send us your recommendations for warm-weather bargains, but do it soon or winter will be over. Believe it or not!

We talked to Bee Kalt Travel Service and Cruises Only because largevolume cruise agencies can offer group rates for most crulses, whether or not you travel in a group. You can save 10-20 percent across the board.

Travel networks also offer discounts. They're made up of travel agencies that band together. Their

combined sales give them access to the group services.

Steven Kalt, vice-president of operations at the Royal Oak-based Bee Kalt Travel Service, lives in West Bloomfield..

He recommends Princess Cruise Lines, specifically the Star Princess, which offers two special seven-day cruises March 2 and 9 from San Juan into the eastern Carlbbean. Air-

cruise prices are \$1,480 across the board for an outside cabin and \$1,295 for an inside cabin.

Across the board means that you can get any outside cabin available for the price quoted, on any deck. That means in turn that you may get a better cabin than you would normally buy. The regular price for the least-expensive outside cabin is \$1,830.

Carolyn Simmer of Elkin Travel/ West Bloomfield Inc. is part of Cruise Network Inc. and has these column: Special dates on Royal Cardiscount cruises to suggest: Seven- ibbean for less than \$1,000, cruise Starward, all Norwegian Caribbean unadvertised specials. Line ships, for \$1,049 per person including airfare for an outside cabin,

She can offer 50 percent off Celebrity Cruises through April. For example, through March 30 the Meridian charges \$1,095 for the first person, \$547 for the second person in an inside cabin, or a total of \$825 per person including airfare. On April 7 that's \$995 for the first and \$497 for the second person, or \$746 per person including airfare.

· Carolyn has a lot more of them on her list than we can include in one

# Lines offer extras to those who sail often

By Nicki and Harold Chodnoff special writers

Following the theory that satisfied

customers become repeat customers, some cruise lines offer inducements to bring guests back. Company-sponsored clubs or pro-

grams provide enticements such as future cruise discounts, preferred seating, cabin upgrades and other amenities to lure past passengers. "Cunard values all of its passen-

gers, but we are particularly pleased

when people sail with us again, and the Cunard World Club is our way of showing our appreciation for their loyalty," said Joseph Smyth, a vicepresident for Cunard Lines. He could easily have been speak-

ing for most cruise lines. The lines offering benefits for repeat passengers include:

Chandris Cruise Line's Captain's Club; \$25 fee, with discounts on future cruises, luggage tags and a captain's cocktail party. Call (800) 635-

Commodore Cruise Lines' Club Commodore; Occasional discount of fers, a newsletter, on-board captain's cocktail party and cabin upgrades on a space-available basis. Call (800) 237-5361.

Costa Cruise Lines' Costa Club; Captain's parties. Call (800) 462-

Cunard Lines' World Club offers an exclusive "Help Line" to assist passengers with queries relating to upcoming cruises. A \$25 on-board credit, separate check-in counter at embarkation ports, club pin, magazine, exclusive events aboard and ashore and gifts/amenities are provided based on number of cruises taken. Call (212) 880-7500.

Delta Queen Steamboat Co.; The Paddlewheel Steamboatin' Society of America members can choose from a variety of discounts that change yearly. Call (800) 543-1949.

Epirotiki Lines' Cruise World Socicty; Eligibility starts after 10 nights aboard. Royal Caribbean extends a special captain's party and newsletter. Call (800) 327-6700. Royal Viking Line, at 45 percent,

has the highest repeat passenger percentage. Skald Club offers free land packages or shore excursions, cocktail party, gift program and luggage tags. Call (800) 422-8000. Tall Ship Adventures offers a two

Windjammer Cruises' Old Salt Savings; With two consecutive cruises, one gets a \$50 discount and two free days aboard ship between cruises. Call (800) 327-2601.

For cruisers to become repeat passengers, they first must become passengers. Here too, cruise lines offer incentives:

# Couples tie nuptial knot in Caribbean

By Vera Hogan special writer

What will we do about our fami-

This is the big question couples face when they decide to marry on a tropical island in the Caribbean:

Many of us share fond memories of our more traditional weddings, where moms and dads and a collection of relatives and friends gathered for the happy event.

Other, perhaps more adventurous couples, decide to leave family, friends and often unpredictable weather behind to exchange their vows among swaying palm trees overlooking the clear blue waters of the Caribbean Sea.

Does that sound romantic, but you're still wondering what to do, about mom and dad? According to Norma Kennedy, bridal consultant for the Frenchman's Reef Beach Resort and Morning Star Beach Club in St. Thomas, U.S. Virgin Islands, couples who marry at these resorts

# Coconut Grove a hot spot in Florida

Continued from Page 6

It is only a two-minute walk from there to the bars and restaurants and busy street life of the village, where the best-known names are characters: John Baltz giving neck therapy, Peter Rabbit weaving leaf hats, bartender Beamer Warren costumed and theatrical behind the bar at the Taurus Steak House.

It is only a short drive from Coconut Grove to the heart of Miami. There were lots of cars and taxis, but the mood of the day was more in tune with the Old Town Trolley, which lets you sit in an open-sided car and tour the whole city. You can get off for as long as you like at Vizcaya, at the Miami Seaquarium near the entrance to Key Biscayne. You can even visit another old world settlement at Coral Gables.

I highly recommend a day at the city and state parks on Key Biscayne and a day trip to the Art Deco district of Miami Beach, but for the moment I am happy to walk out under the century-old trees of the Barnacle, back to a sidewalk case on Main Street and watch the world go by in Coconut Grove.

The come-overs are here, A few stay-overs may be found. But most of the when eyes probably stay home on weekends.

Keith and Kim Cotcher of West Bloomfield were married at the Morning Star Beach Club on Nov. 20, 1990. Although they admit that families were a little upset about their plans, all was forgiven when they returned with a videotape to share at the Dec. 28 reception.

Keith and Kim highly recommend getting martled in the Caribbean. "With Norma's help, everything went off without a hitch," Keith said. "She handled all the arrangements and made sure everything was perfect."

The happy new couple took advantage of the resort's "Royal Wedding" package, which included a half-day beach excursion via helicopter to an uninhabited private island.

Bill and Carrie Pendergrass of Rochester Hills were also married on Nov. 20 at the Frenchman's Reef Beach Resort. Their wedding package included a romantic champagne sunset cruise.

Bill and Carrie had originally planned a local traditional wedding, but midway through the arrangements, they decided to slip off to the Caribbean instead. There are plenty of islanders on hand to serve as witnesses. Carrie's maid-of-honor was a waitress she met only 24 hours earlier.

# Agents say that cruises are best travel bargain

Continued from Page 6

Ellie Tomkow of Cruises Only in West Bloomfield suggests the special seven-day Caribbean cruise of fered by Commodore Caribe. Good through June 30, prices start at \$795 per person and include airfare, transfers, port charges, inside stateroom, meals and entertainment.

Bahama Cruises, according to Ellie, offers a two-for-one special on four-night cruises good through March 30. Prices start at \$299 per person for the cruise only.

Rose Laudicina of Travel Max in Farmington Hills said "the best bargain for a deluxe all-inclusive trip would be a cruise to the Caribbean. If the weather happens to be bad in one spot, you're sure to find good weather in another port."

We also asked Maureen Litten of Book Couzens Travel in Rochester what the best travel value is now and she said "anywhere in the Capibbean" and "definitely cruises."

Julie Gigliotti of Sunshine Travel in Rochester Hills said Jamaica is the best warm-weather bargain this winter. She can offer a package rate for seven days that includes airfare and hotel for as low as \$599 per person.

Paula Sucaet of Only By Sea, Inc., a new division of Royal International Travel in Birmingham, recommends the Celebrity Cruise on the Meridian mentioned above, and Costa Cruises, offering 50 percent discounts.

Debi Steele of Travel Agents International in Livonia said "since February is National Cruise Month, a cruise is definitely the best bargain around." She also recommends the many discount packages to Cancun, Mexico available at this time.

playing golf, river ping, or simply bash there is no lack of Jamaica. Known for and natural attractional street is also home to regard stored historic sites.

We talked with Barbara Blaharski of Better World Travel in Howell and asked her to recommend a warm-weather bargain. She simply and enthusiastically stated "cruises and Mexico!"

Charley Farritor of Milford Travel and Leslie Koehler of Brighton Travel also said the best bet for bargain hunters in search of the sun is a last minute cruise. Charley and Leslie told us that since tour operators and cruise lines are offering terrific deals, now is the time to contact your travel agent.

If all this talk of cruising makes you seasick, Charlene Sinelli of Howell Travel recommends the following destinations for landlubbers looking for a bargain.

If your shopping list includes beach parties, underwater sports, fine dining, nightclub dancing and entertainment such as the colorful folkloric ballet, Cancun offers all this and more. According to Charlene, prices for a seven-day stay in Cancun start as low as \$499 per person including airfare, hotel accommodations and airport transfers.

The Cayman Islands offer not only miles of beautiful white beaches and warm sunny weather, but diving and snorkeling as well. Experienced and novice divers can experience the beauty of marine life and coral formations beneath the clear blue waters of the Caribbean Sea.

Prices to the Caymans start as low as \$679 for seven days including airfare, hotel accommodations and airport transfers.

Whether you enjoy sight-seeing, playing golf, river-rafting, shopping, or simply basking in the sun, there is no lack of things to do in Jamaica. Known for its cultural and natural attractions, Jamaica is also home to reggae music and restored historic sites.

Charlene recently booked a trip to Jamaica for a client at a savings of \$400. A seven-day trip that would normally have cost \$1,050 was discounted to \$650. Price included airfare, hotel accommodations and airport transfers.

# lafrate feels reborn

'It feels stable here (in Washington). The tension is not there. it's an atmosphere of contentment.'

> - Al lafrate Capitals defenseman

Infrate's face said it all. No, Kuwait hasn't been liberated yet, but for the new defenseman of the Washington Capitals, it was a personal liberation of sorts.

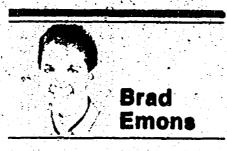

Ironically, it came just days before our nation honored another great-libertarian, Dr. Martin Luther-

"It feels good, all the equipment even feels lighter," said the 24-yearold Livonia native. "It feels stable here. The tension is not there. It's an atmosphere of contentment."

It was a bitter cold night Tuesday outside Joe Louis Arena, but inside the Caps' dressing room, following their come-from-behind 2-1 overtime win over the Red Wings, Iafrate projected a warm glow.

He had a right to feel euphoric. After 61/2 painful years with the Toronto Maple Leafs where he was dogged by innuendo and whispers of off-ice personal problems, lafrate was set free last week, traded to the Caps for a guy named Zezel and another called Rouse.

It was only the second game with his new teammates, but the Iafrate deal appears to be already paying dividends. Displaying the moves that made him an All-Star in 1990, Iafrate was selected as the game's

THE NEW, more physical-minded No. 34 also delivered a strong message in the third period, swatting Detroit star Steve Yzerman against the boards like a mosquito.

There was no mistaking that the new lafrate is going to throw his 6foot-3, 215-pound frame around NHL. rinks with more authority this sea-

"I like to see that from the big, strong guys," Washington coach Terry Murray said. "It's a physical. game, and if he can do that, it creates more room and more opportunities for the other players."

Infrate, who struggled in Toronto this season after undergoing his fourth knee surgery last year, is probably one of the league's most gifted players.

Murray is very familiar with lafrate's immense capabilities, the ones that made him the second youngest member of the 1984 U.S. Olympic Team, the fourth pick overthe game's premier talents.

"Iafrate is just a great player,". Murray said. "And he played well tonight. The things he can do are so

"His skating ability alone can put a team on the defensive. He's just a great addition."

MURRAY was well aware of lafrate's abilities long before the

"When we scouted the opposition, he was always one of those people who jumped out at you," said the Caps coach. "He's a talented player just like Kevin Hatcher (the Caps All-Star defenseman). It's easy to see right away."

Infrate, who said his knee is getting stronger, joined the Caps last Thursday in Minnesota. Murray's instructions to his new player were simple and to the point.

"Here (Washington) they just want your hardest effort," Iafrate said. 'And if you do that, you'll raise your level of play. Everybody knows what their job is and you just go out and do it. He (Murray) just said, 'Do your job and do what you do best.' They said just set high standards for yourself. There's no pressure, just go out and play."

# Redford CC rallies to beat stubborn Stevenson

Redford Catholic Central stormed back for three unanswered goals in the final period Saturday to beat Livonia Stevenson, 4-2, in a nonleague hockey game at the Redford Ice Arena.

CC is now 7.4 overall, while Stevenson, which lost to the Shamrocks for the second time this season, fell to 6-6-2.

The Spartans struck first at 5:12 of the opening period, Ryan Gusick from Nick Sata and Chris

Matt Surowiec, on an assist from Jesse Hubenschmidt, answered for CC at 11:27 to make it 1-1 after one period.. Stevenson's Mark Peterson, on a drive from

the slot, scored unassisted for the only goal of the The Spartans also fought off a pair of penalties simultaneously at the end of the period to hold a

one-goal lead. But CC, outshooting the Spartans 9-1 in the fi-

nal period, scored three straight times.
Paul Schloss tied it at 2-all from Hubenschmidt and Bill Baaki at 9:46, followed by Jeff Wollschlager game-winner on an assist from Victor Stesiak at 10:36. The Shamrocks got a kind bounce off the boards as the puck accidentally bounced in behind the goaltender.

'The kids played real well, but we were kind of sagging bad for about 10 minutes in the third period.'

— Paul Ferguson Stevenson coach

Baaki then tailied an empty net goal with six seconds left to seal the victory.

"The kids played real well, but we were kind of sagging bad for about 10 minutes in the third period, we were back on our heels," Stevenson coach Paul Ferguson said. "But as a whole, the team played well. Obviously we made some mistakes. We got to get three periods of hockey together."

Stevenson goalie Dave Labadie was sharp, turning back 39 shots.

CC's defense, paced by Surowiec, Matt Gorski, Mike Kasper and Tim Knoth, made life easy for goaltender Mike Brusseau, who faced only 17

"It was a team effort forechecking in the third

period," CC coach Jack Gumbleton said. "I was so happy, even our sophomore line. They couldn't get it out of their end. They're starting to believe forechecking works."

# Nissen has made her mark with more than just records

By Steve Kowelski staff writer

When Sue Nissen began her basketball career at Central Michigan University 31/2 years ago, she had a reasonable goal.

"I wanted to make an impact." said Nissen, a Redford resident who graduated in 1987 from Dearborn Divine Child, "I didn't want to be just a name and number going through the system. I didn't have any specific guidelines as to how I was going to make an impact, but if it included setting records then that means it's been a success."

A huge success. With 11 regular-season games remaining in her senior year, Nissen already owns the CMU record for points in a career (1,703) and twice has been named to the Mid-American Conference's first-team. A leading candidate for this year's MAC's

"Player of the Year" honor, Nissen

is one of three players scoring in

double figures for the Chippewas. CMU, 12-3 overall and 4-1 in the Mid-American Conference, is off to its best start since 1983-84. And that's the best news of all for Nissen, a 6-foot center who first earned a reputation in 1986-87 as the state's

"WE HAVE A very good team that plays very well together," said Nissen. "We all get along and have great chemistry. It's the most fun I've had in my four years.

runnerup for Miss Basketball.

"This team has very few weaknesses. Everyone scores and rebounds. If you double-team one per-

son, someone else is going to score." Although she leads the Chippewas in scoring (16.7 points) and is second in rebounding (7.2), Nissen has not yet led Central in scoring during MAC play. Sophomores Carla Sterk and Carrie Isanhart have taken

much of the scoring burden off Nissen, averaging 15.9 points and 11.3 points, respectively.

CMU coach Donita Davenport, in her seventh year, remembers days earlier in Nissen's career when that wasn't the case. The balance has paid off, as CMU has been able to post impressive wins over Michigan State (a Top-25 ranked team) and Bowling Green State University (the MAC champion three of the last four

"I have game films of Sue's sophomore year when she was being guarded by three players at once,' Davenport said. "It's been to our team's advantage for our offense not to revolve around Sue. We're much harder to defend that way and it's made Sue's life much nicer.

"Sue's always been a leader, and gives 100 percent, whether it's a two-minute shooting drill or the last two minutes of a game. Her work ethic is very infectious and that's one of the reasons we're having the kind of season we're having."

NISSEN'S NUMBERS ON the court are impressive, but so are the ones she carries off the court. A twotime MAC All-Academic selection, Nissen owns a 3.4 grade point average and will graduate in May with a degree in health fitness.

A member of the NCAA Student-Athlete Advisory Committee, Nissen last summer was selected by the group to speak for the Knight Foundation in Washington. Every two years, The Knight Foundation dedicates itself to a certain cause, Nissen

This year, the foundation dedicated itself to finding ways to reform the NCAA.

"They just asked, 'If you had a magic wand, what would you want changed about college sports?" said Nissen, referring to her presentation. "College sports are getting out of hand and all the cheating and pressure is because of money. I wish it could just be for fun.

"I remember reading a story about a basketball player out west who couldn't read or write but kept being pushed through two or three schools because he could play basketball. I think that's terrible."

NISSEN PLANS on starting her master's degree at a physical therapy school (either Wayne State University or Oakland University) this fall. She hasn't given much thought to the Liberty Basketball Association, a women's professional league scheduled to begin next season.

The league is different in that it

"I'm biased," said Nissen, "maybe because I've played the traditional way, with the 10-foot rim, so I don't agree with a 9-2 rim (the LBA plans on using). I don't know if I agree with any of the changes. Maybe they're just trying to draw attention."

She's already drawn enough of that with her play at CMU.

# Estey keeping Illinois rolling

By C.J. Risak 🦂 staff writer

Illinois women's basketball team is doing can best describe her atti- shot's there, then take it. tude toward her own game. Sald

"We still have a lot of room for improvement. We've just got to

keep working.".
Estey has been working on her game, It shows, too, although statistic-minded followers may not think so.

After all, the former Plymouth Salem standout is averaging just 4.1 points a game. And even though she's just a sophomore, Estey did season — and she averaged 4.1

points a game then. So where's the improvement?

FIRST, CHECK the team's record. There's a new coach, Kathy Lindsey, who takes over for Laura Golden. A year ago, the Illini finished 11-17 overall, 5-13 in the Big Ten; so far this year, they're 7-9 overall and 4-2 in the Big Ten.

"We play a lot more together this year than last year," said Estey. "It's so much better than it was. There's no such thing as an easy practice. It's the way it should

Second, check some of Estey's other statistics. Like assists — she led Illinois last year with 97, an average of 3.4 a game. She's dishing out 5.9 a game this season, which is near the pace to set a new Illinois single-season record.

Then there's defense. "I think my defense has (improved most)," she said. "I'm really happy with my defense. Last year, I never even thought about blocking out and getting rebounds."

AT 5-FOOT-4, Estey isn't going to get a lot of rebounds. But her defense has improved to the point where she leads the team in steals, averaging 2.5 a game.

And finally, check Estey's goal

sheet. She admits "I never really considered myself a pure scorer,

not even at Salem. I'd really rather pass the ball."

Which is what her coach wants Perhaps Jill Estey's reply when her to do. "That's the way she asked how well her University of wants her point guard to be," said Estey. "Run the offense. If the

"This year, I think we have

enough scorers." Estey was at her best in Sunday's · 81-66 win over University of Michigan at Illinois' Assembly Hall, Yes, she scored just four points, but also passed out 11 assists, made three steals - and dld not have a turn-

What has helped Estey acclimate herself to the college game most is her physical conditioning. "Last year, after a weekend of games, I start 19 games at point guard last could hardly walk up the steps," she said. "I don't care what anyone, says, there's no way to prepare for

college basketball after high school basketball." INDEED, HER defensive play can be traced to her improved conditioning — which is a good thing, since Lindsey likes her guards to

apply full-court pressure through-. out the game. Estey said many of her steals come when "people get tired at the end of games." None of this should be mistaken as meaning Estey has made the

jump from high school star to college standout. As she said when asked about the team, there's still much work to be done. "Definitely my shot," she answered when asked what she had to

work on. "That's probably the most inconsistent part of my game. It's one more aspect I have to work But that will come later. So, too,

will the other goals Estey has mapped out - namely, a Big Ten title. Illinois graduates just one senior starter after this season.

"I don't think a Big Ten championship is a realistic goal this year," she admitted. "But I'd like us to get into the upper echelon — the top

That undoubtedly will happen, if Estey can keep the Illini on schedule with the same precision she exhibits passing the ball.

# Ocelots aren't in Macomb's class yet First, understand that, yes, School-

craft College's men's basketball team is better - much better than it's been in years.

Then, understand that the Ocelots still aren't that good.

How good? Good enough to challenge the top teams in the Eastern Conference. Those are Mott CC, Oakland CC and last Saturday's opponent — Macomb CC.

The Ocelots were hurting, sure. Their depleted backcourt - they had already lost starting point guard Lynell Collins to academics at the semester break — was dealt another blow when Kwesi McGill suffered an ankle sprain last week. He should be back by Saturday, but played only a

couple of minutes against Macomb. With reserve William Dawson also out with an ankle injury, only seven

Ocelots were able to play against the Monarchs, who entered the game as the only unbeaten team in the conference. They ended it the same way, with a 94-85 homecourt victory bolstering their record.

ALL FACTORS considered, it wasn't too surprising to hear SC coach Dave Bogataj proclaim, "I thought we played very well. (Macomb is) a very good basketball

It's just that, even when they play

well, the Ocelots aren't in that class yet. They made a battle of it most of the way against Macomb, however, trailing just 47-44 at the half. In the second half the deficit grew to 14 before SC rallied. With just under a minute to play, the margin was down But the Monarchs made their free

throws - 11-of-12 in the second half - when they had to. And SC didn't, In fact, the Ocelots never got the chance to prove themselves at the line in the second half. They did not get an attempt. For the game, SC was 12-of-16 on free throws (75 percent); Macomb was 15-of-18 (83 per-

Randy Watters was again "tough as nails," according to Bogataj: He scored 32 points, nailing 5-of-8 threepointers, and grabbed 11 rebounds.

Mitch Fyke scored 24 points and Barry Quayle totalled 14 points and nine boards.

Troy Wilcox led Macomb (7-0 in the conference) with 22 points, 14 coming in the first half. Marty Kohler had 19, Ken Stanley netted 16, Mike Gorney got 14 and Karl Williams had 10.

ON MONDAY, SC faced Spring Arbor's junior varsity and rolled to a 114-70 victory. The outcome was never really in doubt; the Ocelots led 61-31 at the half.

Churchill is now 6-0 overall and 4-0 in the WLAA.

"Canton played excellent defense and served well," Churchill coach Mike Hughes. "They played very hard. I was quite impressed. It was not one of our better games. There was some poor blocking on our part. We were not as motivated as we have been in the past. We were fortunate to win,"

# Bedford best at CC Invitational

By Ray Setlock staff writer

Wrestlers began arriving at Redford Catholic Central just after dawn on Saturday.

For many, it was their first time participating in the CC Invitational. For others, it was a return to one of the most prestigious wrestling tournaments in Michigan,

In its 27-year history, the CC Invitational has had Temperance Bedford as the champion 11 times. This season was no different, as the Mules accumulated 184.5 points en route to

Howell finished a distant second with 140 points. Holt was third (133) and Warren Lincoln fourth (123.5). The host Shamrocks finished fifth (115.5). (See statistical summary,

Bedford placed seven wrestlers in the finals and had three individual champions.

Jeff Dec (125 pounds), Ryan McBroom (145) and Brent Douge (171) each won individual champion. ships for the Mules.

Dec defeated Robert Dych of Mount Clemens 5-3, McBroom beat Sean Pearce of Lincoln 11-5 and Douge pinned Jason Steinacher of Howell with one minute left in the

CC HAD two grapplers in the finals - senior Rusty Fowler (119) "I think he got uncomfortable with and sophomore Jason Krueger (160).

Fowler scored two quick points against top seed Fred Schumacher of Bedford and never looked back, pinning the Holt grappler with 42 seconds left in the second period.

"I beat him with an ankle pick and followed it with a cradle," Fowler said: "I worked hard this week in practice and it paid off today."

Fowler finished third at 112 in last year's tournament.

Krueger, a sophomore, was not as fortunate. He was pinned by top seed Robert Dunham of Holt with 1:06 remaining in the third period, after leading 5-3 after two periods.

"Krueger is a fine young wrostler," CC coach Mike Rodriguez said. wrestling

the lead. You can't protect a lead.

"Jason is finally making a name for himself and not living off the success of his brother."

Krueger's brother Lee was a twotime state champion for CC during the 1988-89 seasons.

DEREK MOSCOVIC of Birmingham Brother Rice proved why he was seeded first at 112, defeating Louie Tibai of Bedford 6-3. Moscovic was named the tournament's outstanding wrestler.

"I had a good day," Moscovic said. "This is one of the best tournaments in the state, but what I'm really looking forward to is the state tournament."

Jess Reeves of Westland John Glenn lost a 1.0 decision in the 152 finals to Lincoln's Ken Rumps. Reeves was on top to begin the third period, but allowed Rumps to escape in the final minute of the match.

The quickest pin in the finals came in the heavyweight match, as Howell's Kyle Steinacker pinned Ray Stevens of Mount Clemens with 14 seconds left in the first period.

Lincoln had three individual champions. Greg Mayer (103), Tom Costello (135) and Jeff Mayer (140) all won their final matches. Greg Mayer defeated Mark Williamson of Bedford 9-7 in overtime, Costello pinned Ben Hatt of Mount Pleasant in 5:31 and Jeff Mayer beat Kevin Klebba of Howell 4-3.

Jason Armstrong of Mount Pleasant captured first at 130 with a 7-5 decision over Todd Hick of Bedford. Mike Atkinson of Davison pinned Jerred Thill of Holt in 3:39 to win the 189 title.

"The tournament was a success," Rodriguez said: "We saw some good wrestling out there today."

# Wayne stays in hunt, edges Trenton

Wayne Memorial outscored Trenton, 12-8, in the fourth quarter Tuesday and it proved to be the difference in the Zebras' 48-45 Wolverine A Conference bas-

ketball win downriver. The win raised Wayne's record to 8-3 overall and kept the Zebras a half-game behind Belleville in the Wolverine at 7-1. Trenton, which lost to Wayne earlier in double overtime and lost by only seven to Belleville, fell to 4-6 overall and 3-4 in the league.

"They're a good team," Wayne coach Dan Henry said of Trenton. "We're happy to beat them. A lot of teams have trouble there. It was a ball-control game - not our type of game."

The slow-down tempo caused Wayne to fall behind 13-8 after one quarter and 27-24 at halftime. Wayne outscored Trenton, 12-10, in the third quarter to pull within

one after three quarters. Junior forward Greg Hartman led Wayne with 14 points, 10 before halftime. Senior center James Grady and junior forward Rick Barnes scored eight points

apiece and Grady led all Zebra rebounders with eight. Junior guard Stan Hill led Wayne's defense with three

CHURCHILL 48, W.L. CENTRAL 46: Senior center Randy Calcaterra, who led all scorers with 16 points, tipped in the winning basket with 1:12 remaining in the Western Lakes Activities Association crossover game.

Churchill trailed, 41-35, after three quarters but rallied in the fourth to raise its record to 5-4 overall and 1-2 in the WLAA. Mike Thomas, a senior forward, added 11 points for the Chargers who kept Central winless in four WLAA games.

Churchill limited Central to 11 second-half points. The Vikings were led by Steve Rabut's 11 points and Chris Emert's 10 points.

FRANKLIN 71, FARMINGTON 65: Farmington outscored Livonia Franklin in the second half, but it was too late as the Patriots rolled to the WLAA win on the road.

The win improved Franklin to 7-3 overall and 3-1 in the league. Farmington is 1-8 overall and winless in three WLAA games.

The Patriots got 24 points and four steals from junior guard Keith Roberts, and 16 points out of senior co-captain Steve Stasevich. Franklin coach Rod Hanna wasn't pleased to see the Patriots outscored, 23-16, in the fourth quarter, but he was excited by the play of Stasevich.

"He's coming on," said Hanna. "He's helping us inside and we expect that from our seniors. Keith had a decent game and so did Dave Roman (12 points, eight assists and five steals), and Russ Keberly (12 rebounds). We concentrated with getting the ball inside, and I was happy with Russ' intensity.'

For Farmington, Steve Gallagher scored a game-high 26 points. Rob Cook added 13 points for the Falcons, who fell behind 22-17 after one quarter and 43-28 at halftime. Farmington cut the lead to four with about a minute remaining in the game, but the Patriots fended off the Falcons' charge.

CLARENCEVILLE 66, LUTHERAN WEST 65: Senior forward Dan Nunnery had 31 points and 16 rebounds Tuesday as Livonia Clarenceville won its first Metro Conference game against two losses.

With 11 seconds ahead and the Trojans ahead, 64-63, Nunnery made two free throws to seal the outcome. The win pushed Clarenceville to 4-5 overall. Detroit Lutheran West slipped to 1.8 overall and 0.4 in the Metro.

Senior guard Kendrick Harrington and senior center Ryan Hindmarsh were the other double figure scorers for the Trojans, finishing with 18 and 10 points, respectively. Harrington finished with seven assists and was instrumental in leading the Trojans to a seven-point lead midway through the third quar-

# Woodpile provides home for interesting creatures

Cold temperatures do not recognize the official beginning of winter. The season seems to slowly shift; and as early as October we experienced winter conditions. Man's artificial time table is just a general guide to follow.

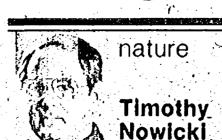

Regardless of the official season, when the temperatures drop it is time to stoke up the wood burning stove. Splitting logs that were cut a couple years ago is always easier in cold weather. What water is left. in the dried logs freezes, and when hit with an ax splits, like ice cubes shatter when they fall.

Splitting wood has many advantages and reminds me of Thoreau's statement that went something like

keeps the body warm.

But I found that my wood pile warms me in other ways. Last

summer while replacing a fence near my stacked wood, I noticed the transparent capsule of an empty butterfly chrysalis. It could have been from a painted lady, a mourning cloak or maybe even a fritil-, lary. All these species of butterfly have a chrysalis with a saw tooth edge to it.

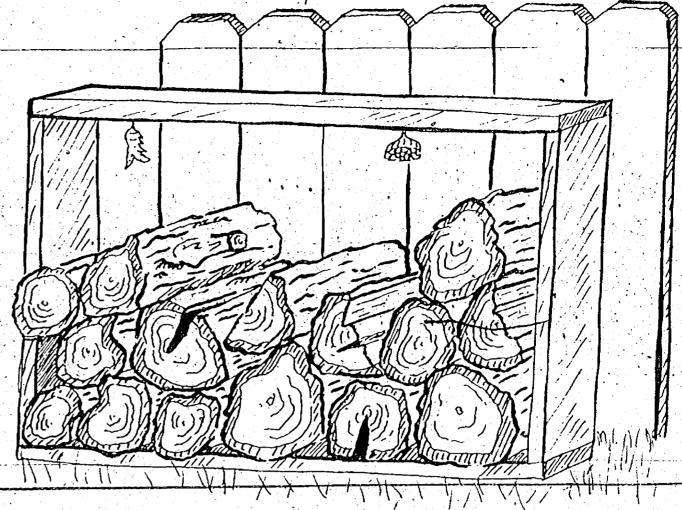

I would like to have seen both the caterpillar and the adult, but I was satisfied that my wood pile provided a safe retreat.

AS I SHIFT and shift through the logs at different seasons, evidence of other inhabitants unfold. Not far from the butterfly chrysalis was a paper wasp nest that had been abandoned the previous year. It too was attached by a single pedicle, which supported an open umbrella of neatly arranged hexagonal columnar cells.

Attaching their nest in the wood: pile was like building a log house in the middle of a forest. Dried wood is the source of the paper which, makes their nest. These wasps did not have to expend much energy traveling from the source to their

Providing or maintaining habitats for animals is necessary for their survival. Habitats do not always have to be large, but the fact that they allow creatures to exist warms me in addition to the wood,

# Tinsmith artists make early American wares

By Linda Ann Chomin special writer

covered landscape near the city of Plymouth sits the mid-1800s tinshop of Bob and Anita Horwood, otherwise known as The Horwoods' Country

As you enter the warmth of the shop from days past with teeth chattering from the cold, a woodsy, welcoming aroma of kindling wafts through the air from the antique cast-iron woodstove to greet you.

Here in the tinshop with their antique tools, the husband and wife tinsmith team create reproductions of lamps, lanterns, sconces and chandeliers typical of those used by early American settlers during the 1700s and 1800s.

"Our products are authentically handcrafted of tin, copper, brass and terne, a pewter-look type of tin," said Bob Horwood during an interview at the tinshop. "Terne was used over a hundred year's ago

"We do everything by hand, from lanterns to outfitting whole houses with light fixtures," Anita said. "All of the (reproduction) items are from original patterns, from Williamsburg to Europe."

THE EARLY American tinware on the walls, ceiling and shelves of the tinshop hold storles of our nation's history. The art of tinsmithing has been around for hundreds of years.

"The oldest item we make goes back to the 1560s," Horwood said, 'There's a lot of crafts that come and go, but this (tinsmithing) is part of our heritage."

Horwood took the art of smithing quite naturally since his background lies in industrial arts.

"I taught woodworking and metalworking for the better part of 30 years in the Plymouth schools," Horwood said. "So when my wife asked me to make her an item from tin for her rosemaling class, I did, That's how it all started."

"Before long, the Horwoods were heading north to Cass City in a truck to buy smithing tools from the helr of a tinsmith. They even dragged home the old, wornsmooth-from-years-of-use log with the hollowed, bowl-shaped forms, which the tinsmith used to hammer, shape and round the tin.

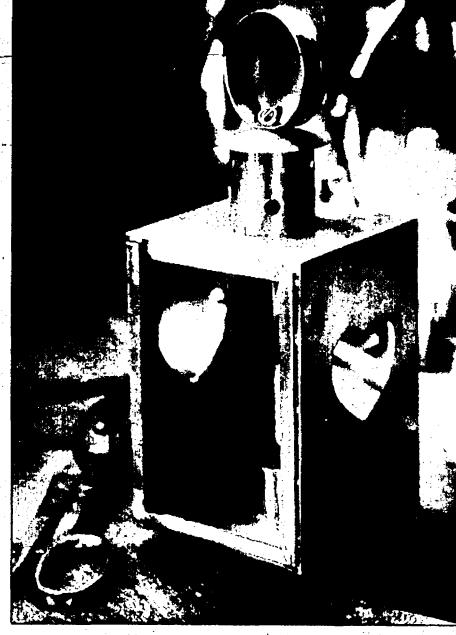

"Bob does all the punching," Anita said.

FOLLOWING A pattern made of the Presidential Seal, Horwood punched hundreds of ice pick-sized holes in a sheet of tin to create the eagle on the front of the lantern that he sent to President George Bush, a year ago in September.

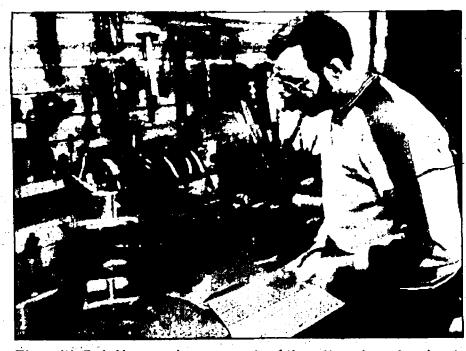

"The 13 stars which round the lantern stand for the 13 colonies,' Anita said. "Congressman Carl Pursell (R-Plymouth) walked it over to the White House for us. We received a nice letter back."

The Horwoods crisscross the United States, showing their tinware at shows in Connecticut, Maine, Virginia and Texas. "We do a lot of folk art shows," Bob said.

Entered in the tinware and Scandinavian decorating category, the Horwoods don colonial costumes to exhibit their tinsmithig skills about 15 times a

The Horwoods' Country House Heart Lantern can be ordered in copper, brass or antique, and electrified if the buyer so chooses

Tinsmith Bob Horwood uses a pair of tincutters to cut a sheet of tin to make a lamp.

During the long hours on the road while Bob drives, Antia twists and turns the shiny tinstrips into icicles. "They're reproductions of icicles made in Germany around the 1890s," Anita said. "There are about 300 different items that we make."

Items authentically handcrafted

by the Horwoods include replicas of a wrought-iron, trotting-horse weather vane; a tin kitchen oven from around 1850 that used heat at the front of a blazing hearth to roast everything from apples to tarts; a Liberty tree Laftern said "to have hung in the trees at town meetings during the Stamp Tax Rebellion;" tin 10th anniversary Items given "to couples in the old days on their 10th anniversary;" a 6-foot-long coach horn used to warn pedestrians that "two or

three hitches of horses and coach were coming around the corner;" and "a match holder used in the old days to hold colonial clay pies."

PRICES IN the Horwood's catalog range from \$3 for a baker's dozen of icicles to \$250 for a chandelier. The Horwoods are partners in a

love affair with the art of tinsmithing.

"When we're getting ready for a show, we put in 14-hour days," Horwood said.

"This is our hobby, our livelihood, our joy," Anita said.

# Non-profit gallery perseveres; cheers for LSO's efforts

SCANNING THE artscape:

• Without fanfare, the Garden City Fine Arts Association (GCFAA) has made The Art Gallery at Sheridan Square on Ford Road a storybook success.

Opened in 1989 as a fragile cultural experiment, the non-profit gallery, nurtured by plenty of TLC, has grown to showcase a range of art forms, from watercolor to pencil to sculpture.

I salute Norma McQueen, the gallery's tireless curator, and Bob Sheridan, Sheridan Square's arts-minded owner, for the invaluable roles they've played in making the gallery

McQueen, in her first year as GCFAA president and herself an accomplished artist, sports the hat of goodwill ambassador for the gallery, a job she does with aplomb.

A charter member of the 40-member association, founded in 1982, McQueen took an early retirement Artists from Garden City and from Henry Ford Hospital's adminnearby communities are invited to istrative staff to "be more active in

A special thanks to Nancy Richard, an LSO board member who has chaired eight of the 13 Young Artists competitions. Her behind-the-scenes efforts are invaluable.

• The long-awaited balustrade now adorns the front porch overhang at the Farmington Historical Museum in downtown Farmington. And it

looks terrific.

A Farmington Historical Society member, I truly appreciate the pursuit of the Quakertown Questers, who secured a major grant for the historical restoration project.

Adding the new wood railing makes the 124-year-old, two-story mansion appear the way it did in 1910. That's when Gov. Fred Warner, Michigan's first three-term governor, called it home.

The history-minded Questers not only provide docents for the museum. but also are regular contributors.

They landed a \$6,000 grant from the International Organization of Questers to add the railing, a Victorian architectural feature. The local chapter chipped in \$50 to meet the

\$6,050 cost. Following the Questers' lead, the

Farmington City Council ticketed \$4,400 to improve the roof and cornices to accommodate the balustrade. Local architect Carl Gaiser donated his professional services.

What's next up for the museum? Changing the tile covering of the everyday parlor's fireplace to wood to better reflect the 1870s. Also in the works is a room of late-1800s fashion upstairs, says Dick Carvell, museum curator.

Fund raising is the hitch.

"Improvements inside have to be done through money the historical committee raises," Carvell said. "City support more or less is for building improvements, maintenance and repairs.

# She turns romance writing into career

Judith Blackwell Myers has found

It all started a few years ago when a friend presented the then-aspiring writer with a gift: "Writing Romance for Love and Profit." Today, she does just that.

The 38-year-old former Livonian lives in Sacramento, Calif., with her husband and 3-year-old daughter and, writing as Julie Meyers, is becoming a highly popular romance

Myers had never seen any of her work published, although she had been writing since grade school. After reading the gift book thoroughly, she adapted a kind of "I Can Do That" attitude.

FIRST, SHE read all the best-selling romances of the time, going over each one ever so carefully, paying special attention to things like content, style, plot, length.

publishing houses for writers guide-lines. She joined the Romance Writers of America (RWA) and met other writers, honed her writing skills, and

> \$199,500 Open Daily

learned more about marketing romance fiction.

An editor from Harlequin, one of the world's largest publishers of romance fiction, spoke to Myers' local chapter of RWA. Myers took copious notes and hung on every word.

THEN, SHE sat down and wrote the first three chapters of a teen romance she titled "Just Like Jessica." Shortly thereafter, she sent the chapters to Crosswinds, a division of Harlequin that specializes in Young Adult books.

All her homework apparently paid off. Crosswinds bought the book, on the strength of those first three chapters.

Since then, Myers has proposed four more books to Harlequin, and Harlequin has bought them all. "Face to Face" was published in 1989 and "In the Cards" in 1990. "Comfort and Joy" and its sequel, She sent away to various romance - "Body and Soul," will be out early

Also since then, "Face to Face" won the Golden Heart Award from break Victoria Diaz

of 1987. After publication, the book was a finalist for the RWA's Golden Medallion Award for Best Short Contemporary Romance in 1989.

THOUGH MYERS declines to reyeal her income as a romance writer ("that would be crass"), she does say it's "comfortable,"

"To be a successful romance writer, you need to know exactly what, line you're writing toward, and what market you're writing for," she said.

'To be a successful romance writer, you need to know exactly what line you're writing toward, and what market you're writing

- Judith Blackwell Myers

"You have to work with certain page :limitations, certain levels of sensual-

"Otherwise, you'll just shed a lot of blood, sweat and tears, and there'll be no (market) available for your work. Of course, if you're working purely as a hobbyist, and want to write a book that will just suit you

CLEARLY, MYERS is not into this writing business as "a hobbyist." It's obvious after talking with her for only a few minutes that she is not someone interested in writing for herself only, then relegating her words to the bottom of a desk drawer somewhere.

She can quote facts and figures related to the romance writing field as handily as a seasoned economist can rattle off numbers and statistics.

And though she may deal in romantic fantasies when she's writing, she's certainly no dreamy-eyed type sitting around and hoping the muse will drop in and pay her a long, inspiring visit.

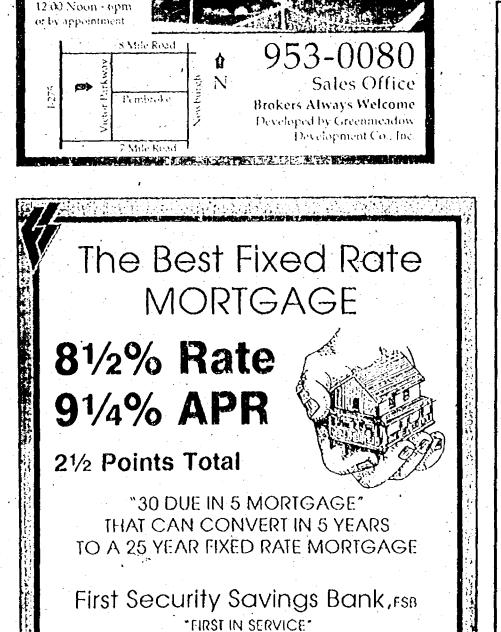

She writes five days a week without fail, turning out three to four pages a day, whether she feels "inspired" or not, and usually completing one chapter every week.

After a recent visit with friends and family in Livonia, she was back at work once again in her at-home office in Sacramento.

BOTH OF her forthcoming novels will feature the usual girl-meetsboy, girl-loses boy, etc. plot line of romance fiction. But the stories will be played out against an unusual background.

# PAINT WORKSHOP

Decorative painting, the art of transforming ordinary flat surfaces to take on the appearance of marble, granite and even fine English leather, has experienced a surge in popularity.

To make these "faux finishing" techniques available to commercial painters and contractors of Michigan, Detroit-based Mercury Paint Co. will conduct a five-day workshop on decorative painting Monday-Friday, Feb. 11-15, at Mercury Paint Co. headquarters, 14300 Schaefer, Detroit.

But commercial painters and contractors aren't the only folks who can benefit from the workshop. "Designers are interested in these finishes so

they can better serve their clientele and be more familiar with the finishes they specify," said Charles Soberman, company president.

"And artists take this course to learn more about the decorative painting skills that have been taught through the centuries."

Utah-based Rocky Mountain Painting, co-sponsoring the workshop, is an established leader in decoration and restoration. Since 1971, it has specialized in decorative graining, marbling and gilding as well as artistic stencil work.

The workshop fee is \$795 per person. It includes instruction, materials and supplies, videos, samples and a catered lunch each day. Call Rocky Mountain Painting toll-free: 1-800-527-9284.

New builders say there's room for them even in times of economic uncertainty.

# 2 leave Farbman/Stein

Marsha Fischer, a vice president for the commercial real estate firm of Farbman/Stein in Troy, figured last month that the time was right to start her own firm.

So she did, - Fisher Real Estate - in Farmington Hills.

"Good brokers will always do well, and I pride myself on being a good broker," Fischer said. "The past nine years, I developed my own clientele. I've always had a great relationship with developers. I just had very, very good feedback from everybody.

"Farbman/Stein is a wonderful place to work," she said. "I couldn't have stayed there nine years if it wasn't. It was like a family.

"The timing (to leave now) was good," Fischer said. "I wasn't really in the midst of any big deals whatever. It's a wonderful feeling to walk into your own office."

Several leasing and sales agents have left an employer/employee relationship to start their own businesses the past couple of years.

Joren Peterson, Bruce Simon and Michael Lippitt left Coldwell Banker to establish Landmark Commercial Real Estate Services in Birmingham. Steve Gordon left Byron W. Trerice Co. to start Signature Associates in Southfield.

brokerage. "I'm very competitive," Fischer said. "I enjoy real estate - live, eat and sleep real estate. It's not a job. It's part of my life."

Eric Stein, a sales agent at Farbman/Stein for 41/2 years, has resigned the firm co-founded by his father, Lee, to join Fischer.

"It was a difficult decision to make, obviously," Eric Stein said. "There's some good people there, friends of mine. I found an opportunity to go to a new company where I could grow within."

Stein worked on both property management and brokerage while at Farbman/Stein.

"When I was in (property) management, the learning curve had pretty much flattened out," he said. "Fischer Real Estate is really focused on real estate brokerage. It's a dynamic company. It's exciting to be in that environment.

'We complement each other very well," Stein sald of his working relationship with Fischer. "If we get into a meeting together . . . we're used to every situation.

# Poor economy fails to deter new builders

By Gerald Frawley taff writer

The area's big builders, despite the economy, remain optimistic that the coming year holds a lot of promise for the industry.

Most of them have been through ne economic recession of the early 980s. They've been around for ears, survived the economic cycles, and their corporate leaders have the avvy to plan through the hard

They may not make a lot of mony, but builders are confident they will somehow make it through.

But what about the small builders or the young builders who got into he business at the tail end of the 1980s' building boom? What do they about the future?

Terry Nosan, the Builders Association of Southeastern Michigan's young builder of the year, said that despite what people see in the media, new house construction is still a very viable industry.

"It's really not that bad out there." Nosan, a vice president with Nosan/Cohen Associates in West Bloomfield, said even though it may not be growing, the housing market in southeastern Michigan remains

"Most people are optimistic despite what you may have heard.'

Housing starts this year, according to the Builder's Association of Southeastern Michigan, were expected to rise by 9.5 percent from 10,500 to 11,500 depending on what happens in the Middle East, according to projections of the Builders Association of Southeastern Michigan.

That increase would follow a decline of 15 percent from last year. A record 12,400 single family units were permitted in 1989.

NOSAN SAID THERE aren't many new builders, but then, there are relatively few people who go

into building even during good times. "But in a manner of speaking, yes, it could be a good time to become a

builder - if you come in on a conservative basis."

There may be some good opportunities for the new builder. Buying land at a reasonable price is one of the toughest jobs facing builders, Nosan said. During slower economic times, the small builder may be able to buy land from the larger builders who have over-extended themselves

by keeping a large land inventory. Other problems encountered by builders working on large sites wetlands, woodlands and the no growth/slow growth movement may also not be as big a problem for the small builder working on one

Todorovich is both a home builder and a general contractor working for other builders.

Todorovich's company completed seven or eight custom homes and 15 speculative homes (homes built without a specific buyer). Homes built by Todorovich ranged from \$80,000 to \$300,000 last year.

"I've already (this year) been contacted about doing-four or five new custom homes," Todorovich said.

FOR A SMALL company with only five full-time employees, 20 homes a year is a good year. Even when he wasn't building new homes, Todorovich found plenty of work building home additions and garages, he said,

Todorovich said he doesn't mean to infer that being a new home builder is easy in slowing times - or in good times for that matter - but it is not impossible.

"I think it's tough to get started right now - you need a lot of good

Todorovich said in order for a small builder to succeed, he must be flexible. "We'll go everywhere and anywhere, and build anything," he said. A small builder has that option because it's easier for him to move from place to place for individual

Falling in love with a particular house is not a good enough reason for buying it, according to Ken Austin, chairman of HouseMaster of America.

"Of course, you must like the house a lot, but buying a house is no longer an emotional event. Today, financial considerations play an expanded role in the purchase deliber-

"It helps to set some guidelines so that you can conduct your house hunt

with realistic expectations." To begin your personal analysis, it is necessary to determine what is an affordable amount to spend each

month on housing. "Review your monthly bills for purchase price.

You can avoid the "emotional pit- the past year and estimate a typical month's budget. This should help you arrive at an amount that is available to you each month for housing costs," Austin said.

From this figure, subtract your estimated monthly cost of real estate taxes, home insurance, utility bills and repair and maintenance costs. The amount that remains is what is available each month for basic mortgage payments that include principal and interest.

The next thing to decide is how much money is available for a down payment, which is paid-upon the signing of a contract, usually several weeks or even months prior to closing. Closing costs should also be calculated because these must be available at the time of closing. A rule of thumb for calculating closing coets is to estimate 3 to 5 percent of the

TO DETERMINE what price house is affordable, Austin suggests multiplying your annual gross income by 21/2. Next, determine the amount of annual income that is required to handle mortgage payments. Most banks and mortgage companies generally follow the rule of thumb that "monthly mortgage payments, including real estate taxes, should not exceed 25 to 30 percent of annual income."

Most banks and real estate brokers can provide a mortgage payment table with different interest rates to help determine monthly costs. In all calculations, Austin advises to factor in estimates of present and future personal considerations and expenses that may have an Impact on monthly budgets. These might include tuitions, medical expenses, child care costs, pay raises, bonuses and job security.

"Though the banks might use the 25-30 percent calculation, you need to add in these other items to be sure you will be able to make the monthly outlay of cash."

ONCE A buyer has analyzed his or her financial status, the next step is to seek out qualified professionals to assist in the house hunt.

"It is a tremendous help to know who the individuals are that you are able to call on throughout the various stages of house hunting. This way, you have the emotional security of knowing that there are people out there who can assist you and are just a phone call away," Austin said.

Some of the professionals who take part in the home-buying process are real estate brokers, lawyers,

characteristics that make up its distinct personality.

Texture is a decorative characteristic with many options. Looped pile (the pile is the surface of the carpet that is seen) may be level or multilevel (high and low loops). Levellooped carpet has become a popular contemporary choice, providing a durable, hard-wearing surface. Short loops, especially, keep soil and spills on the surface, according to Decorating magazine:

AP - Every carpet has unique terms to carpet shoppers. Denier rethe quality of carpet.

The fiber content also will determine how well the carpet will perform. Basically, four major manmade fibers are being used: nylon; acrylic, polyester and olefin. These synthetic fibers are practical, among other reasons, because they are naturally resistant to insects and mildew and are non-allergenic. They are also easy to clean and are soil resistant.

His homes range from \$150,000 to \$250,000. Watkins builds only in Oakland County.

Watkins said he believes there may not even be a slowing housing market if it weren't for a media-perpetuated myth of a housing slump.

It's been encouraging for me because I haven't run into any problems," Watkins said.

A definite advantage for the small builder is the public perception of small builders as quality builders.

"I think quality will always sell."

IT STANDS TO reason that a home built over several months is going to be better built than one built in several days. "When you start mass production, I think you're going to lose quality.

Small builders aren't directly affected by some of the problems that worry the larger builders. Although financing construction is a problem for everyone - especially since the collapse of the savings and loan industry — it doesn't impact the small builder as much.

While there may not be enough money available for an entire subdivision, a small builder in good standing with a bank can get a loan, he

Also, when building a custom home, it is the homeowner who has to come up with financing, Watkins said. A third option — which he uses - is to find a private investor rather than a commercial bank.

Land availability, another problem for larger builder, impacts the smaller spot builder less. While it may be difficult to assemble and acquire large parcels, it is less difficult to buy single lots, he said.

# Humble roots for black cherry wood

AP — Although today most people think of black cherry as one of the classic furniture woods, it wasn't always that way.

Settlers in the Appalachian Mountains, for example, valued the tree's fruit more than its wood. They dubbed the tree "rum cherry" because from its dark purple cherries they brewed a potent liquor, according to WOOD magazine. Also, black cherry's inner bark contributed to tonics and cough medicines. Else-

where, though, the wood was more appreciated.

Early New England furnituremakers often found the price of fashionable Honduras mahogany beyond reach and turned instead to native black cherry. Because black cherry wood eventually darkens to a deep reddish brown, these frugal crafts-

# REDUCE YOUR CHANCES OF GETTING HEART DISEASE, KIDNEY DISEASE R GOING

Obesity can start a chain reaction to poor health that can be devastating.

To begin with, most physicians and researchers consider obesity to be the major cause of diabetes in adults. Up to 90% of adults diagnosed as having diabetes, in fact, are overweight.

Of course, once you have diabetes your chances of developing heart disease, kidney disease, or going blind increase dramatically.

As a person with diabetes you'll be twice

as prone to heart disease. 17 times as prone to kidney disease. And 25 times as prone to blindness, if you are insulin-dependent.

Diabetes, in fact, can shorten your life expectancy by one-third.

Fortunately, diabetes in adults, in most cases, can be prevented with careful weight control, healthy eating habits, and regular exercise.

So if you're overweight, doesn't it make sense to take off the extra weight? Instead of years off your life?
