Open house

Wayne-Westland's Champions program will participate in the annual Lights On Afterschool nationwide celebration of afterschool programs today, Oct. 18.

Champions will be one of more than 7,500 sites across the nation sending the message that afterschool is key to children's success, and that the lights must be kept on and doors open after school. It will be holding an open house 4-6 p.m. at Marshall Upper Elementary School on Bayview east of Wayne Road in Westland.

There will be refreshments, activities and a chance to see why children and families like Champions and how its high-quality programs are making a difference.

"The benefits of quality afterschool programs are clear. They support working families by ensuring that children are safe and productive when the school day ends," program manager Dawn Adkins said. "We hope that you will help us keep the lights on after school, and give our children a brighter future."

Council tables vote on merger of fire unions

By LeAnne Rogers
 Observer Staff Writer

From a practical standpoint, the Westland and Wayne fire departments are already merged into one operation.

But the legal merger into a separate fire entity hit an unexpected snag Monday as the Westland council tabled a vote on a letter of understanding between the two firefighter unions and the

two cities.

The council had already approved an interlocal agreement with Wayne that merged the departments.

The tabling motion was made by Councilman Bill Johnson, and supported by Councilwoman Christine Bryant, both of whom denied their actions were politically motivated.

At issue was language in the letter of understanding which

says that the new separate legal entity created by the two cities will become a self-funded fire authority with voter approved millage or some other similar mechanism.

"It requires a millage increase and that is not proper in a labor agreement. We should table it," said Johnson, who wanted the language clarified.

Heading the joint department, Fire Chief Michael Reddy said

that no one on the council had contacted him with questions or concerns in the two weeks since the agreements were presented at a study session.

"I hate to see politics put before public safety. If there was a question when it was presented two weeks ago, they could be answered by now," said Reddy.

Memorial groundbreaking set for Veterans Day

By LeAnne Rogers
 Observer Staff Writer

The exact location hasn't been determined but a groundbreaking for the Westland Veterans Memorial Garden is set for Veterans Day Sunday, Nov. 11.

The groundbreaking will be part of the Salute Our Veter-

ans program at 2 p.m. on William P. Faust Library at 6123 Central City Parkway.

Originally, the memorial garden had been planned for Central City Park but now will be located near the library.

The park location was providing problematical due to the location of a fence blocking access to a contaminated

pond and inability have plantings due to lead contamination remediation.

Relocation of the memorial garden, to be privately paid for through fundraising, came as Westland explores possible locations for a new City Hall, including a site behind the

W-W seeks author of bogus bomb threat

By Sue Mason
 Observer Staff Writer

Wayne-Westland school officials are trying to find out who left a bogus bomb threat at John Glenn High School in Westland.

Described as "scribble" by Deputy Superintendent Paul Salah, it was discovered by a midnight custodian in a stall in a boys' bathroom late Monday night. Westland police were called to investigate and determined the message to not be

"credible threat," Salah said.

"The police looked at it and immediately ruled it out," Salah said. "They didn't give it much credence to it."

Salah added that the message was lightly written and difficult to see. It was also "very vague and said something like bomb, get out."

"Obviously, it is not something we take lightly, we take these things very seriously," he said.

Salah alerted parents of Glenn students about the discovery

by a robocall Tuesday morning.

The staff also was informed and kept a lookout for any suspicious behavior. School officials are not sure when the message was written, but are conducting "a thorough and complete" investigation to find out who left it.

"We have the best interest of the students at heart," Salah added. "We are looking out for the kids and building."

Clerk predicts long lines at polls on election day

By LeAnne Rogers
 Observer Staff Writer

The combination of a lengthy ballot and expected high turnout for a presidential election is likely to result in long lines at the polls Nov. 6.

A resident recently called on Westland Clerk Eileen DeHart Schoof to speed up the voting process by having plenty of voting machines available.

"By state law, we can only have one tabulator per precinct," said Schoof. With the computerized voting machines, voters take their paper ballots to a station with a privacy screen and then turn in their ballots to be feed into the tabulator.

If there were two tabulators, Schoof said they would generate two vote totals that would have to be processed manually to get the precinct results — something that would take longer than using a singular tabulator.

Just over two weeks before the election, Schoof said she still needs election workers as she plans to have six workers per precinct.

Westland has approximately 61,000 registered voters and had a 66 percent voter turnout at the 2008 presidential election.

Schoof is encouraging voters to cast absentee ballots, if they meet one of the qualifications — 60 years or older, physically unable to get to the polls or being out of the community election day.

"There are no absentee police who are going to come to your house," said Schoof. "There will be long lines election day. It's a two-page double-sided ballot. It will take people 20-30 minutes to vote."

During the 2008 presidential election, Schoof said people waited in three hour lines to cast their ballots.

"Come see me if you need an absentee ballot," said Schoof, adding two stamps are required to return the ballot by mail due to its size.

The Clerk's Office stays open the Saturday before the election — in this case Nov. 3 — to allow absentee voting. That would also be the last day absentee ballots can be returned by mail.

W.C. Franks Furniture store closing for good

By Matt Jachman
Observer Staff Writer

William C. Franks Furniture, a fixture in the city of Wayne for nearly 50 years, is announcing plans to close permanently nearly two years after a gas explosion leveled the store on Wayne Road, killing two employees and severely injuring the owner.

The store's website announces a retirement sale at its warehouse location on Dearborn Street off east-bound Michigan Avenue, which was opened to the public after the Dec. 29, 2010, gas explosion, the cause of which wasn't fully determined. The blast killed two Westland residents, Leslie Machni-

ak, 54, a secretary, and James Zell, 64, a salesman, and left owner Paul Franks, the son of the store's founder, with serious burns.

Franks, a Plymouth Township resident, declined to be interviewed for this story, saying he's a private person and has refused all media requests since the tragedy. By phone, Franks said the store could be closed by the end of the year.

Wayne Mayor Abdul "Al" Haidous said Franks' closing will be a big loss for his city, but that he understands and respects the decision.

"That store was built on good reputation, loyal customers, because of the quality of the people who

run that business and own that business," Haidous said.

Franks Furniture opened in 1963 and has its roots in a furniture refinishing business. Paul Franks helped his father, William, and mother, Betty, at the store as a young man.

Haidous said Paul Franks sold quality furniture, had good relations with the public and was active in the city. Everyone who dealt with the business "fell in love with them," he said.

"It's a big loss to lose business of that caliber, and the people will miss that store," he said.

The website advertises prices of up to 75 percent off. Consumers Ener-

library.

Stephanie Klefman, who lives in Newberry Estates Subdivision just south of the library, commented that she thought putting the memorial garden near the library was only a plan.

"This is more than a plan. This won't help our property values. How much of the woods will we lose?" said Klefman, who has opposed plac-

ing City Hall behind the library. "Will we lose the performance pavilion? Is there a site plan?"

There is a concept for the memorial garden but the exact location — behind the library or fronting along Central City Parkway — hasn't been determined yet, said Council President James Godbout.

"The veterans asked for a groundbreaking, so we are doing it Veterans Day," said Godbout. "There is ample room behind the library for multiple uses. The reason

we moved from Central City Park is this is more serene. People could walk respectfully through the memorial without kids playing soccer next to them."

Along with the Veterans Day ceremony and groundbreaking, the Westland Veterans Association also is collecting items to be sent to troops overseas.

The items sought include cotton T-shirts, long-sleeved cotton T-shirts, high over-the-calf socks, toothpaste, Gold Bond foot powder, toilet-

ries, individually packaged snack foods, microwaveable individual foods, writing materials, AA batteries, books, CDs, DVDs and positive messages of support.

Early donations can be dropped off in the lobbies of City Hall or the library.

Following the Veterans Day ceremony, guests are invited to a reception at the VFW Bova Post 9885 at 6440 N. Hix between Ford and Warren.

MERGER

Continued from page A1

Not moving forward with the merger endangers \$1.5 million in state Economic Vitality Incentive funding and the federal Safer grant which is funding 15 firefighters in the two cities, said Reddy.

"I was taken aback when I heard the council tabled it. I'm disappointed that they didn't pass it," said President Mitch Tokarski of the Western Wayne Professional Firefighters Local 1279, a new bargaining unit resulting from the merger of the Westland and Wayne firefighter locals.

The firefighters are aware that they can't require a millage increase, Tokarski said. The language aimed at making it clear that funding needs to be provided for the new merged fire entity.

The fire unions worked

long and hard to reach agreements for the merger that didn't cause a grievance for anyone, that will help the communities qualify for funding, reduce expenses and improve service in both communities, Tokarski said.

"I would never put politics over public safety or any other decision," said Bryant, adding she understood Reddy's comments about council members not asking their questions prior to the meeting.

"This has nothing to do with politics. A labor agreement can't dictate millage. I think it violates the city charter," said Johnson.

At the next council meeting, any member can ask to have the agreement removed from the table for a vote, said Council President James Godbout.

Anderson treats vets to free movie

Local veterans will again be treated to a Veterans Day movie by State Sen. Glenn Anderson and AMC 20 Theatres in Livonia.

"Five years ago we were able to partner with Livonia AMC 20 Theatres and begin a wonderful tradition of recognizing our local veterans," said Anderson, D-Westland. "Our local veterans certainly deserve constant recognition for the tremendous sacrifice they have made and with the help of Livonia AMC 20, this event has become an annual event they and we look forward to."

This year, the veterans are invited to a free screening of the movie *War Horse* at 3 p.m. Veter-

ans Day Sunday, Nov. 11. Livonia AMC 20, 19500 Haggerty Road, north of Seven Mile, will be hosting the celebration.

In addition to the free screening, concessions will be provided free of charge courtesy of AMC Theatres of Livonia. Tickets are limited and a reservation is required.

Veterans may request their free tickets by contacting Anderson's office by email at SenatorAnderson@senate.mi.gov or toll free by phone at 866-262-7306. Tickets are limited to two per veteran.

Anderson represents the 6th State Senate District which includes Livonia, Westland, Garden City and Redford Township.

Jim North received a special certificate for more than 50 years of service from Garden City Rotary Club president Peggy Sexton.

GC Rotary honors Jim North for 50-plus years of service

By Sue Buck
Observer Staff Writer

When asked what his fondest memory of serving in the Garden City Rotary was, Jim North proclaimed it is what happened Oct. 11.

North was honored for his more than 50 years of service at a regular club meeting at Aman-tea's Restaurant in Garden City.

"This was my best memory," North said immediately after.

North has actually been a member for 51 and nine months, according to Garden City Rotary Club president Peggy Sexton.

"Just shy of his 49th

year we did a big party in the evening for him with his entire family invited," Sexton said. "That was the fall of 2009."

The Franklin resident stays current although he always goes out West for the winters.

"The club doesn't see him at all until early summer and then he does attend quite regularly and participates on most of our projects while in town," Sexton said.

North is the club's second oldest member at age 82.

"He is our longest serving member," Sexton said. "Our oldest member is Gene Zylinski at 86 years. He has been a

member for 31 years and eight months."

The Oct. 11 ceremony was strictly for North. He reportedly quipped at the first celebration for his years of service, "Don't you think that I am going to make it to 50 years?"

He did. North still stays young by skiing, and the people and the projects have kept him active in Rotary over the years.

North is the patriarch of the North Brothers Ford dealership on Ford in Westland,

"He has always been very generous donating money to the Rotary Foundation of which he is a Paul Harris Fellow,"

Sexton said.

He also has donated his company trucks in the past to help with the annual flower sale on Easter weekend as well as working shifts to help sell them.

"These are just a few of the ways he has benefited the club," she said.

North joined the Rotary when his dealership had a location in Garden City. He joined two years after his father dropped out. He served as president from 1973-74.

"This was a luncheon club, a group of men who got together," North said.

Tough group sets out to raise cash for wounded military

By Diane Gale Andreassi
Staff Writer

Tough Mudder competitions are hard-core grueling, and that point is made ever so clear when members sign off on a death waiver before the races begin.

Just ask South Lyon resident and former City Councilman John Galeas and South Lyon Hotel co-owner Corry Bala. They're on a team headed to Kentucky this weekend for the local group's second Tough Mudder race. And the best part, according to the participants, is raising money and awareness for the Wounded Warrior Project, serving military members with service-connected wounds, injuries, or illnesses on or after Sept. 11, 2001. The organization also supports the families of these service people.

Tough Mudder is dubbed "Probably the Toughest Event on the Planet," on toughmudder.com. "If you can do this, you can do anything you can put your heart and mind to."

South Lyon's team is ready for the Kentucky competition, which includes a 12-mile obstacle course designed by British Special Forces to test all-around strength, stamina, mental grit and camaraderie. As one of the leading companies in the booming obstacle course industry, Tough Mudder has already challenged half a million inspiring participants worldwide and raised more than \$3 million for the Wounded Warrior Project.

The local group finished a Tough Mudder race last April and despite

Corry Bala, co-owner of the South Lyon Hotel, sludges his way through an obstacle course during a recent Tough Mudders competition. His team is headed to Kentucky for another tough event this weekend.

the rigor of the competition they're ready to go again. In fact, when that race was over, Bala said, the first thing many participants said was, "When can we do it again?"

"You have to psych yourself up for it," he added.

Cross-fit training has become a way of life for Galeas, who watched his weight creep up to 230 pounds. He is now slimmed down to 185 pounds after working out one hour a day four to five times a week in preparation for Tough Mudder events.

The local team includes

Galeas, 52; Bala, 37, of Holly; Laurie Flohr, 25, a Livonia resident and team captain; David Soubeyrand, 43, of Livonia; Darryl Newman, 61, of Livonia; and the newest members, Meg Reid, 22, of Livonia and Amanda Southwell, 20, of South Lyon. Other team members are Mike Caskey, 53, of Livonia and Maria Malanyn, 25, of Westland. Caskey and Malanyn aren't participating in the Kentucky competition this weekend.

"It's treacherous," Flohr said. "But, there's no turning back."

One part of the course

even shoots electrical shocks at the participants, she said. Really.

Flohr is a fitness instructor at the Livonia Recreation Center and Galeas was a student in one of her classes when they met. She works out two to three hours a day six days weekly.

"This is not about who wins," Galeas said. "This is about camaraderie."

Galeas said it's inspiring to see Tough Mudders participants helping members of other teams. They are more interested in seeing the individual succeed, Galeas said. But, it's definitely not a walk in the park. In fact, 25 percent of the people who sign-up for Tough Mudder events don't finish. Sometimes people quit after they suffer injuries and other times participants just can't make it to the end.

"It tests you in ways that an average marathon won't test you," Bala said. "The average runner couldn't do it."

Bala said he looks forward to the day he can compete in a Tough Mudder competition with his two sons, who are 4 and 5 years old. He also "can't wait" for the Tough Mudder event in Michigan June 29-30, 2013. The local team is hoping to drum up a lot of support for that race, too, Bala added.

Oakwood assures patients it doesn't stock tainted steroid

Oakwood Healthcare, Inc., has not and does not stock the steroid linked to a recent nationwide outbreak of fungal meningitis, according to officials from the health system.

As of Oct. 15, the U.S. Centers for Disease Control, has reported 212 cases of fungal meningitis and two cases of peripheral joint infection nationwide that have been linked to a steroid, methylprednisolone acetate, that had been sold under the name Depo-Medrol and distributed by The New England Compounding Center (NECC) in Framingham Mass. There also have been 15 deaths, including four in Michigan.

The medication has since been recalled and all clinics have been advised to stop using it, according to the company's website. Four facilities in Michigan reportedly received the suspect steroids, but none of them is affiliated with the Oakwood Healthcare system.

Methylprednisolone acetate is steroid administered through an epidural injection and most commonly used to treat pain and swelling that occurs with arthritis and other joint disorders.

"We at Oakwood do not use that medication, our patients have nothing to fear from these reports," said Dr. Paolo Marciano, an Oakwood-affiliated interventional radiologist. Oakwood's drug of choice for epi-

dural injection is triamcinolone acetonide, which has been demonstrated to be safe and effective for spinal injections, according to American Journal of Roentgenology.

"Patients should have no concern about getting their care in the Oakwood Healthcare System," said David Batkie, director of pharmaceutical services for Oakwood Healthcare. "We take precautions to ensure our medicines are safe."

Symptoms of fungal meningitis, which is not contagious, include fever, headache, stiff neck, nausea and vomiting, and sensitivity to light.

The CDC estimates as many as 14,000 patients received the tainted steroid. A total of 15 states, including Michigan, have been impacted. The NECC recalled more than 17,600 single-dose vials of the steroid injection from 23 states on Sept. 26.

After investigators found a sealed vial of a steroid known as "methylprednisolone acetate" at the NECC plant that was contaminated with fungus, the Federal Drug Administration ordered the NECC plant closed and advised physicians to not use any of its products.

More must have apps for your smartphone

By Jon Gunnells
Guest Columnist

So many smartphone apps, so little time. Cut through the clutter of the Android marketplace and iTunes and read this quick guide to the must-have apps this fall.

Bad Piggies - The Angry Birds take a back-seat to the pigs in this new addicting game. Bad Piggies follows a similar structure as the cult-favorite Angry Birds series. The familiar game was created by Rovio - the Angry Birds creator and in just a few weeks has leapfrogged into the iTunes Top-10. It might not even be the best version of the Angry Birds series coming out this fall. Angry Birds Star Wars edition will be released in November.

Viggle - If you watch a lot of TV this application is for you. Viggle is much like GetGlue where users can use their smartphones to check in to television shows. Unlike GetGlue however, Viggle allows users to collect points which can be redeemed for gift cards to retailers, book stores and restaurants. I've

Tech Savvy
Jon Gunnells

used Viggle to check-in to football games and after a few weeks, I am already nearing a \$10 gift card to a pizza chain. Not an amazing benefit; but earning free pizza by watching football isn't a bad way to spend a Sunday.

Pic Stitch - This application is a great toy for those amateur smartphone photographers. Pic Stitch users can take multiple photos and build them into a collage. The application allows users to add effects to the photo much like Instagram or Facebook camera. The application is free, or users can spring for the enhanced application which has more features and no ads. The enhanced version is 99 cents.

Passbook - This gem is only available to iPhone users but it won't be long before other developers and smartphone manufacturers follow suit. Passbook organizes a users documents from boarding passes to movie tickets. It even allows consumers to organize coupons, loyalty cards and gift cards. If you don't own an iPhone and still want to keep your loyalty cards in one place, try KeyRing which is a free application supported by many devices.

ESPN Scorecenter - This isn't a new application but during the MLB playoffs, ESPN Scorecenter

can push updates to your phone to keep informed about the Tigers games. This application also has scores for other major sports although with more detailed information like box scores, game summaries and more.

Doodlecast - Here's one just for the kids. For \$1.99 Doodlecast allows users to draw pictures and make storybooks. The application also supports voice commands so kids can narrate their books before uploading to YouTube to share with family members. Users must have a YouTube account to share videos, but if you don't have one - the account takes about three minutes to create.

Monopoly Millionaire - This app for iPhones allows players to compete for \$1 million in a digital version of the classic board game.

Updated apps - A number of other popular apps have also released recent updates. Google+, Twitter for BlackBerry are a few top apps that have recently redesigned their mobile presence.

Are you using a great app that you want others to know about? Email me at the address below.

Veterans Job Fair

In collaboration with more than 60 companies, the Michigan National Guard is hosting a Veteran's Job Fair Wednesday-Friday, Nov. 7-9.

"Our incredible servicemen and women need to know that America values them not simply for what they can do in uniform, but for what they can do when they come home," said Maj. Gen. Gregory Vadnaia, the director of the Michigan Department of Military and Veterans Affairs and the Adjutant General of the Michigan National Guard. "It's a win on all sides."

Michigan National Guard Veteran's Job Fair will operate between the hours of 8:30 a.m. and 3 p.m. all three days in the Michigan National Guard Joint Forces Headquarters Lansing, 3411 N. Martin Luther King Blvd. The events are free and open to any veteran and or their spouse.

Dress is business casual and prospective employees should bring several copies of their resume for employers. Several employers will interview and hire on the premises.

Where there's smoke

Comerica Bank and the Detroit Red Wings have teamed up to collect new smoke detectors for low-income families and elderly citizens across southeast Michigan. The collection, which began during National Fire Prevention Week last week, runs through Friday, Nov. 16.

Comerica customers can drop smoke detectors into specially marked boxes at more than 140 Comerica banking centers and office buildings in southeast Michigan. All donated smoke detectors will be distributed through fire departments in Macomb, Oakland and Wayne counties. Local fire officials will provide smoke detectors to low-income families as well as elderly and disabled members of the community.

"Fire prevention is a very important cause and we're pleased to partner with Comerica on this initiative," said Olympia Entertainment President and CEO Tom Wilson. "The Red Wings organization prides itself on giving back to the community and we're delighted that this smoke detector

collection will help protect disadvantaged Metro Detroit residents."

This morning Mark Twain is on my mind because two different people recently brought up the same quote: "It ain't what you don't know that gets you into trouble. It's what you know for sure that just ain't so."

It's a great reminder that we put ourselves at risk when we get too attached to a particular perspective on the world.

Choose wisely when selecting Medicare Prescription D plan

By Rick Bloom
Guest Columnist

It's that time of year, when senior citizens have to make a decision regarding a prescription drug plan, also known as Medicare D.

Most seniors have already been getting notices about Medicare D and now the open enrollment period (Oct. 15 to Dec. 7) has started. What this means is that if seniors are going to make a change in coverage, now is the time to do it. Unlike other types of insurance that you may have, this is the only time of the year that you can change your plan. All policies begin Jan. 1 and end Dec. 31.

In understanding Medicare Prescription D, it is important to know that just because the plan

Money Matters

Rick Bloom

you had this year met your needs does not mean that you automatically re-up. After all, plans do change from year to year. A medication that you are receiving under your current plan may no longer be covered by that same plan next year.

In addition, your health situation may have changed. Last year at this time, when you went through the process, you may have been on different prescriptions than you are on now. In addition, the dosage and the frequency of the prescription

may change. Therefore, it is important that you begin the process fresh to decide what plan best suits your needs.

In looking for plans, husband and wife need to do it separately. You can't assume that just because a plan is good for one means it's good for the other. Therefore, husband and wife need to independently look at their situation to make the right decision.

When you begin your search, it is important to review the list of medications that you currently are on. Not only should you check the medication, but the dosage. It is also helpful to prioritize these medications. After all, depending upon your situation, you may not find a plan that covers all your medications. On top of the list should be the

most expensive prescription, followed by all others in order of expense. Therefore, when you do your search, you obviously are looking for the plan that will best cover your prescriptions at the lowest price.

Another factor to consider in reviewing plans is the restrictions that some have. Some plans will require prior approval before you can fill or refill certain prescriptions. In addition, some plans will have limits on the quantity of a drug that you can order. Obviously, if you're taking a medication that has certain restrictions, that can be an issue in selecting a plan.

One of the best ways to begin your search is to visit Medicare's website at www.medicare.gov.

The site is an easy tool to use and can help you narrow your options. To begin your search, just click on Medicare Plan Finder.

Just like investing, I know lots of people will be paralyzed by analysis. They will be pulling their hair out trying to find the perfect plan. Keep in mind that there probably is no perfect plan. However, there are a handful of plans that fit your needs and the goal is to find them.

In doing your search, remember convenience is an important factor. Having a plan that requires you to drive across town to pick up your prescription is probably not the way to go. In addition, for the snowbirds who spend half the year outside the state of Michigan, consid-

er that before you select your plan.

Deciding on a Medicare Prescription D drug plan is not easy. However, there is no alternative. Don't assume that the plan you had last year will work for you this year. Begin the process of selecting a prescription drug plan now so that you'll have plenty of time to make your decision.

Start now, take your time and, if you have questions, contact Medicare directly for assistance. Good luck!

The Credit Union Difference

In a recovering economy, your financial institution should be a trusted partner that's there to offer guidance and personal service in challenging conditions. More than four million people in Michigan — and some 160 million worldwide — use credit unions as their trustworthy and secure place to do business and will celebrate International Credit Union Day on Oct. 18.

Credit union members enjoy the benefits of doing business with a financial institution they own — a cooperative focused on service to its members, not profits for its stockholders. That means value, service, respect, and the opportunity to be part of a financially sound and socially responsible institution.

Credit unions are not-for-profit cooperatives that are owned by their members and governed by a volunteer board of directors, which means that you won't be gouged with high-interest rates and service fees. Last year, Michigan credit union members saved more than \$397 million through lower fees and rates, and members have access to 25,000 free ATMs nationwide through the CO-OP Network.

Even in a troubled economy, credit unions are well-capitalized

and have almost \$190 billion for consumers to borrow while many other lenders are tightening their lines of credit. Credit unions offer great rates on auto loans, mortgage loans and more, and haven't engaged in the types of dangerous lending practices that have resulted in many other financial institutions requiring bailouts at taxpayers' expense. You also know that your deposits are safe, as the National Credit Union Share Insurance Fund, administered by the National Credit Union Administration, insures deposits of all credit union members up to \$250,000.

It's easier than ever to join a credit union. There are 327 federal and state-chartered credit unions across Michigan, and while some credit unions serve groups that share a profession or a specific place they live or worship, many credit unions now are open to all local consumers through a community charter.

Credit unions are also embedded in the communities they serve and have a social mission of improving their members' quality of life. Through financial education and a wide variety of charity work, credit unions are active in supporting and starting community initia-

tives to bring assistance to those in need, while helping people learn to support themselves financially.

Credit unions do these things not because they are mandated to do so by law, but because it's the right thing to do — an inherent part of their existence. Community involvement is a perfect fit with the credit union philosophy of "People Helping People."

The credit union community is also working to push the Michigan and national economies forward through programs like "Invest in America," which offers discounts for credit union members on American-made products. "Invest

in America" has been rolled out nationwide and helped facilitate the sale of more than 250,000 vehicles produced by GM and Chrysler.

Visit www.lovemycreditunion.org to find a credit union in your area and learn more about what credit unions are doing to help consumers, as well as the "Invest in America" program. Credit union members enjoy better value and superior service, as well as the opportunity to participate in the governance of the credit union as a member-owner, and do business with a socially and fiscally responsible institution that is embedded in its community.

Sound money management skills are a big part of a safe and successful financial future. Part of the credit union mission is to educate people of all ages on the basics of saving, budgeting and borrowing, so that consumers are well-prepared for each stage of their lives.

There is no better time to learn these lessons than during early development, which is why credit unions have made a large investment in classroom outreach. According to data from the National Youth Involvement Board, Michigan credit unions reached more than 48,000 students with 1,800 financial education presentations over the past year, capping a complete decade that Michigan has led the country in school involvement. Some of these were cooperative efforts through the Michigan Credit Union League's "Financial Literacy Legislative Challenge," in which lawmakers partnered with credit unions to teach students about important

Credit Unions Offer Members Financial Education Resources

financial topics.

Michigan credit unions also have more than 350 student-run branches at the elementary, middle and high school level that give youth and young adults hands-on experience with financial transactions. Students are able to open savings accounts and manage the branch's operations themselves, not only learning good money management habits, but also putting their own skills to practice. Giving young people this experience can instill lifelong financial values and a basic understanding of how banking works.

Credit unions take part in financial education outreach year-round, but also celebrate April as Financial Literacy Month. Working closely with the Federal Reserve initiative "Money Smart Week," credit unions offer a flurry of classes, seminars and classroom presentations during the third full week in April, and work to raise awareness of the importance of financial literacy to lawmakers and the public.

Through seminars and one-on-one counseling, credit unions work closely with adults on a number of important topics vital for financial well-being. Credit

unions often partner with other nonprofit organizations to offer expertise and assistance to as many consumers as possible — including unbanked populations in underserved areas. Most recently, the Michigan Credit Union League and several partners created www.RightAtHomeAnswers.org so that credit unions can work with members on the home buying process and how to avoid foreclosure when times are tight.

Financial education goes hand-in-hand with the credit union philosophy of "People Helping People." Credit unions exist not only to provide a trustworthy depository institution that is member-owned, but also to help consumers avoid the financial pitfalls that have many Americans deep in debt or facing the potential loss of their home or vehicle.

By working to educate their members and other Michigan residents, credit unions are helping to arm consumers with the money management skills they need in a tough economy, from college to a first home to retirement. For financial education resources, visit www.lovemycreditunion.org.

New Small Business Laws

In a landmark move for the credit union industry, the Michigan Commissioner of Financial and Insurance Regulation has signed an order authorizing credit union service organizations (CUSOs) to provide small business equity investments to Michigan credit unions and their members.

"This is an unprecedented step forward for credit unions," David Adams, CEO of the Michigan Credit Union League & Affiliates said. "Business investing authority has tremendous potential benefits to credit unions and to the small business community at large. It is further proof that there is nothing small about the credit union commitment to supporting small businesses. MCUL and CUcorp plan to work aggressively with our credit union community on a structure and business plan that will take advantage of this new opportunity. CUcorp is well positioned to facilitate this."

In his ruling, Commissioner R. Kevin Clinton noted that based on a review of applicable laws, and with all consideration of safety and soundness, "It is necessary and proper for CUSOs to offer small business equity and venture capital investment administration and related services to its member credit unions and their respective members."

The new authority allows state chartered credit union investment in CUSOs that provide investment administration and other services related to small business equity or venture capital funding.

With knowing how much I appreciate advance notice of things, we wanted to give you the list of upcoming programs so you can be aware of them now and hopefully join us.

Please note all the programs listed do require registration. To register for the program, call (734) 793-1830 or send an email to scharlefour@garden-city.lib.mi.us, if that works better. Other programs, including story-times and more, will also

On a chilly fall day Saturday, the public gathered at the Garden City Fire Department Open House.

It was a welcome shelter as they seized an opportunity to get out of the rain and to get better informed about the hard work of the fire department.

It also was a special time for the department which is celebrating its 50th anniversary.

This is a time when current and former firefighters reminisce about how their second family — the one they spend hours together with — literally have or have had “their backs,” so to speak. They watched as their children grew up together, played sports and were

The event drew other community organiza-

tions like the Garden City Rotary and the Garden City Community Coalition. Kerry Partin, a Garden City resident, broadcast his Garden City Community Chat pod cast live from the fire station, talking to participants who attended.

“For being a first tim-

er at the event, I was very impressed,” Partin said. “The turnout was wonderful considering the weather everyone had to brave.”

His wife, Cheryl Partin, said that the Garden City Garden Club, of which she is a member and which held its first bake

sale at the event, marveled at how quickly the bake goods were snapped up leaving not more than crumbs where the sweets had been displayed. “It was our best fundraiser ever,” Partin said.

Wet weather doesn't dampen spirits at chili cook-off

By Sue Buck
Observer Staff Writer

The Garden City Downtown Development Authority Chili Cook-off brought old and new faces into the downtown area Saturday, and Garden City Downtown Authority Director Stacey Tobar is pleased with the turnout despite the wet weather.

“I think it went well with marginal weather,” Tobar said.

This year, the DDA used well-known names to judge its fifth annual Chili Cook-Off held in the Farmers Market area of the Towne Center. Besides Tobar, the other judges were Garden City Police Chief Robert Muery, resident Kerry Partin and Mayor Randy Walker.

For the first time, a fifth person was added through a unique opportunity where raffle winner won an opportunity to be a judge.

“Ken Newman was the fifth judge,” Tobar said. “He is originally from Inkster and has just moved to Garden City after years of being in South Carolina.”

The winning Chili teams were:

First Place — Merri-man Road Baptist Church F.A.I.T.H. Riders, Darrel Manuel.

Second Place — Garden City Firefighters Union, Corey Chandler.

People's Choice — American Legion Riders, Jeff Adams.

Best Table — Witches Brew, Nancy Pisanski.

donated raffle items.

The DDA raised a total \$4,936. Sponsors brought in \$2,150. They included Gordon Chevrolet, the Garden City Firefighters Union, Hennessey Engineers, Orin Jewelers and O'Reilly Auto Parts.

A car show organized by Bob Hunt, owner of Kar-Go carburetor, brought in \$235.

The DDA will donate all of the money to four local charities.

McNamara: Can make a difference for 11th District

Kevin McNamara wakes up every morning feeling he "can make a difference" as an elected official. And it is that feeling that has him seeking a fourth two-year term representing the redistricted 11th District on the Wayne County Commission.

County operations, he said, affects residents' lives directly "in a rubber meets the road manner."

"Looking back on my first term, at the time I thought I was the best county commissioner," he said. "I have learned that hard work and conviction are only half the battle to effect change. Effective change can only be done by positioning yourself in leadership positions that effect policy from the ground up."

McNamara said that through the leadership roles on County Commission committees and boards like the Southeast Michigan Council of Governments' Finance Board, he has and continues to push for change in improving roads, drainage systems, parks, infrastructure, preschool programming, juvenile programs and senior services.

"Strength matters significantly in my role," he said. "I am perceived as a strong regional leader by many of my peers, often collaborating with leaders in the communities I serve in District 11, leaders in Detroit and leaders across the region. If I am working on an initiative, my regional peers know I am not going to walk away from it and will get the results with integrity."

What do you see as your responsibilities as a county commissioner?

The primary responsibility is the budget. This has been complicated by a decrease of more than \$100 million in property taxes and the legal positioning of elected officials and court orders dating back 30 or more years. These county officials and court orders keep us from taking the necessary action related to the quality of life that we have for decades.

Change is difficult but passage of my sponsored line item budgeting (through a County Charter amendment) will greatly improve the Wayne County Commission's ability to begin changing the structure of these organizations. We cannot maintain a system built 50 years ago for a county with nearly three million people. Services need to be realigned and in some case eliminated.

Wayne County Executive Robert Ficano's administration has been rocked with scandal. The Wayne County Commission established an ethics committee. Is that enough to deal with the current and future situations or is more need?

The Wayne County

Education: Livonia Stevenson High School, associate's degree in mathematics and science from Schoolcraft College
Employment: Elected to Wayne County Commission in 2006 to represent 11th District, vice-chair of the Committee on Public Services, chair of the Youth Services Committee, member of the Ways and Means Committee; previously worked in sales and management for an environmental company
Community Involvement: Schoolcraft College Board of Trustees, 2001-2006; delegate to the Southeast Michigan Council of Governments and chair of its Finance Board; member of the Head Start Board; Board of Directors of the McNamara Scholarship Fund, 1992-2005; member of the Wayne County Airport Authority Board

Ethics Board, which I supported through an ordinance, will likely go a long way in preventing future abuses.

The problems of the executive administration are rooted in a failure of transparency. There were misrepresented facts, hidden items that became detrimental to their initiatives or reputations, refused requests for information, gave misinformation when pressed and forced the commission to resort to legal requests for budget information that they still refused to put forward.

Again, the budget line item charter amendment I sponsored will likely stop this in the future. We need that charter amendment or the abuses may still occur.

What do you see as the three main issues facing the county? As you handle commissioner, how would you address them?

The primary issues relate to the county budget. The county has a \$35 million structural imbalance. The first thing we need to fix is instituting "line item budgets." Can you imagine a company whose board of directors was not

allowed to see how funds were spent within its budget. Believe it or not, that's what our current charter allows. The executive administration has used the charter to demand

lump sum budgets. As citizen fiduciaries, we do not get to see where exactly the money is spent.

Lump sum budgets give the cover for elected officials to throw that money into whatever pot they want blind to the commission and the public. One case would be severances. They had millions in economic development and paid severances without any knowledge by the commission or public as it was lumped in the overall budget.

The second issue is breaking the court orders of 40 years that demand doing business

as usual. This will need to be done at the state level. When you demand savings and cuts of a department, they can't be allowed to walk into court and have a judge give them more money that just isn't theirs! We spend millions on attorneys to fight these actions and lose every time.

The county executive has complained that departments like prosecutor and courts have repeatedly used the judicial system to force the county to give them more money impacting his ability to provide a balanced budget. How would you correct that problem?

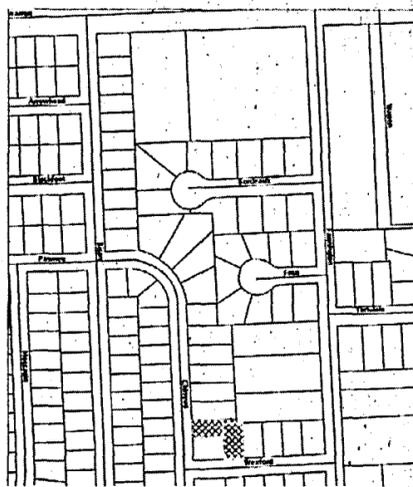

The county executive is correct in this manner. Elected

officials are very serious about their roles in government. They take their responsibilities very seriously and jealously guard against any in-roads by the commission to control their offices. They believe that their services are mandated and essential and MUST be funded by the county regardless of the amount of money the county has or the elected official wants to spend. This attitude means that if we demand savings from any elected official, they just can go to court to get an injunction.

OUR VIEWS

House picks

Knezek in the 11th District, Kosowski in the 16th District

The November general election will see voters in Westland select representatives for two state House Districts - the 11th District which includes Garden City, Inkster and portions of Westland, Livonia and Dearborn Heights, and the 16th District which includes the city of Wayne and a majority of Westland.

In the 11th District, David Knezek of Dearborn Heights is facing Republican Kathleen Kopkczyk of Garden City in the November general election. In looking at the candidates, we believe the district would be best served by David Knezek.

Kosowski

Knezek

An Iraq War veteran and substitute teacher in Wayne County, Knezek has a keen eye on the issues, zeroing in on education. That, he has said, is his passion and the reason he decided to run for the State House of Representatives.

Knezek has said that reinventing Michigan is more than creating new sustainable jobs. You can't talk about the jobs and the economy without talking about education. If you leave education out of the mix, you're missing a "big part of the equation."

Business changes can't come at the expense of the education of children and, if elected, he would like "an immediate lockdown" of the State School Aid Fund to keep the state from shortchanging K-12 programs to balance its budget.

He also wants to see adequate police and fire services for all communities and is proposing a public safety task force to determine minimum staffing levels and passing legislation to ensure communities have that level of protection.

He understands that to accomplish those things he will need to reach out to fellow Republican lawmakers. He is ready to do so. His work as president of the Student Body at the University of Michigan-Dearborn shows that he has the ability to work with all sides to accomplish his goals.

In the 16th District, Democrat Robert Kosowski is being challenged by Republican Mary Stargell. In looking at the two candidates, we believe Robert Kosowski is the best choice for the district.

In a heavily Democratic district, Kosowski is the heir apparent to term-limited Rep. Richard LeBlanc. However, he has left nothing to chance and since announcing his candidacy last year, he has devoted a lot of time to meeting residents, especially in the City of Wayne.

In Westland, he is well-known. He recently retired as the Westland Parks and Recreation director after more than 20 years and believes his connections with local, state and county officials during that time will benefit the district.

He also has sought out the counsel of LeBlanc and State Sen. Glenn Anderson, who also represented the district in the House, to get to know the issues facing the cities, the district and the state and is prepared to face the challenges head on, if elected.

He understands those issues. The first and foremost issue is jobs. Wayne and Westland have strong blue-collar roots and, if elected, Kosowski wants to facilitate job fairs to make sure residents have easy access to work.

We also like the fact that Kosowski is campaigning on a slogan of "Let Me Work for You," a mantra he has followed throughout his years of working in municipal government. He makes it perfectly clear he is in this campaign to win and fully represent the district in Lansing.

We recommend Wayne and Westland residents vote for Robert Kosowski as representative in the 16th State House District and Westland and Garden City residents vote for David Knezek for the 11th District in the Nov. 6 election.

We also urge voters to take the time to vote in the election. Absentee ballots are still available and for those who plan to vote in person, polls will be open from 7 a.m. to 8 p.m. election day, Nov. 6.

Tired of losers

I read in your paper of crimes that happen in Garden City. Does no crime happen in the other cities where you sell newspapers? Livonia, Westland, Canton? If you leave your wallet, credit cards and a laptop computer in plain sight, you must be a mental midget! I'm tired of reading about these (losers). I am moving to Romulus to live with the smart people.

Yes on Proposal 2

Companies negotiate terms and conditions of their relationships with suppliers and customers and American CEOs can negotiate their pay, benefits, stock options, severance packages and so on.

Explain to me, why shouldn't workers be able to collectively bargain the terms and conditions of their employment with employers?

It seems to me that Proposal 2 is a much-needed response by Michigan's working families to an unprecedented "end-around" by forces in the Michigan legislature that have passed or put into motion more than 80 anti-union, anti-worker, anti-middle class bills.

Nearly 1/5 of Michigan residents have slipped beneath the federal poverty level. We need better paying, more secure jobs in Michigan so that we can get back to a sound economy and society. It's no wonder that so many college graduates, which our tax dollars help educate, flee our state after graduation.

I'm asking fellow voters to protect working families like mine and vote YES on Proposal 2.

A good decision

I am pleased that City Clerk Eileen Schoof did the right thing is refusing to require citizenship pledge cards for the upcoming presidential election. She was only resisting the illegal and improper position of the Republican secretary of state.

Since the city clerk's action, a federal judge in Detroit affirmed her position and that of simple common sense to block the citizenship affirmation card on the upcoming election. A person registering to vote for the first time needs to prove their citizenship at that time, but not every election after that.

The secretary of state feels that there 4,000 cases of election fraud but has refused to provide proof. Since then, there has been plenty of election fraud in Florida involving a business who was paid to circulate nominating petitions. Has our former con-

gressman Thaddeus McCotter, who has had plenty of experience with fraudulent nominating petitions for years, moved from Livonia to Florida?
Just asking.

An ongoing problem

Recent articles in the *Observer* reporting on the Livonia Public School bus driver incidents have brought back anxious memories from 15 years ago. At dinner one night early in the school year, my 5-year-old LPS kindergartner announced, "I saw where all the school buses park."

"How did you do that?" I asked him.

"I fell asleep on the bus and the bus driver drove me there."

Imagine my shock at finding out this information from my son. In the morning I spoke with the school principal who stated, "The bus driver searched her bus when she returned to the bus yard and when she found him she returned him safely to the school. I did not see a need to inform you."

Well, I'm sorry, but any routine that deviates from the norm involving my young child, I need to be informed of! I still remember the anxiety I felt as my mind went to the what if the driver hadn't found him and he had awakened and picked up his backpack and wandered on down Farmington Road in search of his school?

I would not have known he was not in school unless I had received a call from the school verifying his absence. Obviously this has been an ongoing problem for at least 15 years.

13th District: No contest hurts electorate

At election time, voters want to know about the candidates who seek to represent them at the local, state and federal levels. They want to know what they stand for, what they will do for them, if elected, and what makes them the best choice.

In the redrawn 13th Congressional District, none of this has happened. There has not been comments, campaign literature or a sighting of the two main candidates - veteran U.S. Rep. John Conyers, a Democrat, and his Republican challenger, Harry T. Sawicki.

Conyers is completing his 24th term in Congress. He currently represents the 13th District, but due to redistricting, is seeking a 25th term, representing the 13th District. He is the second-most senior member of the House, dean of the

Congressional Black Caucus and chairman of the House Judiciary Committee.

Sawicki, a Dearborn Heights resident, is a former Detroit police officer. A self-employed manufacturer's representative, he is trying to rebuild his business after becoming unemployed in 2008.

There are two other candidates - Chris Sharer of the Libertarian Party and Martin Gray of the U.S. Taxpayers Party - but information about them is limited at best.

We have a concern about endorsing in this race. Neither of the major candidates has availed himself to answering inquiries for information from the *Observer*.

While Conyers is well known and has had an impressive record in

Congress, he has found no time to communicate with residents in the western suburbs. His lack of reaching out to the new areas of this district is unfortunate.

And from what we can ascertain, Sawicki has done nothing. He has received no support from the Republican party and raised no money to launch a campaign. We believe it is safe to say that he is a candidate in name only.

We cannot deny Conyers his place in history and because the district is heavily Democratic, he will likely win a 25th term. But that may not be good for western Wayne County voters who didn't see much of the candidate in the primary and who are used to strong, effective leaders who are visible and represent.

Prop 3: Establish standard for renewable energy

PRO: Immediate rate cut for DTE's residential customers

By Hugh McDiarmid Jr.
Guest Columnist

Proposal 3, the "25 by 2025" plan on the Nov. 6 ballot, would result in an immediate rate reduction for residential customers of DTE Energy, long-term savings on utility bills and a healthier, more resilient system. The immediate savings is because Proposal 3 eliminates an unfair DTE rate structure that assesses homeowners 69 percent of the renewable energy surcharge even though they only use 36 percent of the electricity. This represents a savings of \$16 per year for each of DTE's 1.9 million residential customers.

Hugh McDiarmid Jr.

Restoring fairness to DTE's residential customers is the most immediate of numerous benefits Proposal 3 will generate.

The plan would require that Michigan's utilities generate one-quarter of their electricity from clean renewable sources by the year 2025. It is a path to a more secure energy future that engages and employs thousands of Michiganders, reduces our crippling reliance on expensive out-of-state fuels and protects the environment and public health.

The proposal makes so much sense it has generated broad support from a growing and diverse chorus of important allies. But the utility companies are pouring millions of dollars into Michigan to confuse and scare voters with false and misleading claims.

Do not be bullied. Do not be brainwashed. The utilities have a selfish interest in perpetuating the same dirty system that has relied primarily on coal to provide Michigan electricity for more than a century. DTE, the company that owns Detroit Edison, owns nine other companies that make money strictly from moving and processing coal. They own more than 8,500 railroad cars just to move coal. They get federal tax breaks for processing the coal, which allows them to make more than \$60 million a year.

Coal may be good for their bottom line, but it is not good for Michigan families.

Not for our households or businesses that bear the brunt of rising fuel costs. Not for children hospitalized with severe asthma conditions. Not for our inland lakes that have been poisoned by mercury from power plant smokestacks. It is not working for college stu-

dents in the emerging clean energy field who must leave Michigan to find a job.

And it is not working for our economy. Coal — which fuels 70 percent of Detroit Edison's electricity — is expensive and getting more so. The cost of coal delivered to Michigan has doubled since 2005. It is no coincidence that utility rates have soared during the same time period. All told, Michiganders spend \$1.5 billion annually to import coal from other states.

By contrast, renewable energy in Michigan is coming online at a cost cheaper than even the most ardent proponents predicted in 2008, when our current standard — 10 percent by 2015 — was adopted. The Michigan Public Service Commission reports that "the cost of energy generated by renewable sources continues to decline and is cheaper than new coal-fired generation."

Affordable renewable energy is also fueling Michigan's economy. More than 240 Michigan companies are engaged in the wind and solar supply chains alone, according to a report from the Environmental Law and Policy Center. A Michigan State University study showed that tens of thousands of jobs would be created by Proposal 3 in the construction, manufacturing and operations and maintenance of these facilities.

The 25-percent standard would make Michigan competitive with dozens of other states that have renewable standards exceeding ours. And it would position Michigan to become a global leader in renewable energy.

There are other ways it could be done. But our governor and state legislators — many of them firmly under the thumb of the utilities' powerful Lansing lobbying machine — are not interested.

So instead, voters will decide whether to amend the Michigan Constitution. It's a process that has been successfully used more than 30 times since 1963, when we adopted the current version of our constitution. We've established policies including the minimum drinking age, tax policy, stem cell research, casino gambling and the Natural Resources Trust Fund.

As the constitution states, "All political power is inherent in the people." If our elected officials are not going to solve the big problems of today, it is up to us.

Hugh McDiarmid Jr. is a Farmington resident and communications director with the Michigan Environmental Council.

CON: Say no to protect economic progress

By Steve Transeth
Guest Columnist

Only now is Michigan's economy starting to recover from the worst recession America has experienced in decades. This is no time to hit Michigan families and businesses with unnecessary costs, especially for energy from sources that too often are unpredictable and unreliable.

Steve Transeth

And that's precisely why Proposal 3 is the wrong idea at the wrong time for our state.

You may think amending the state constitution to require 25 percent of the state's electric supply to come from renewable sources such as wind, solar and biomass by 2025 sounds relatively harmless.

Unfortunately, you would be wrong.

Meeting that mandate would cost electric customers an estimated \$12 billion — that's billion with a 'B' — driving up utility bills for years to come. That's a staggering burden for working people, families and retirees and seniors on fixed incomes.

I support the concept of generating more of Michigan's electricity from renewable sources. But the price tag for Proposal 3 simply is too expensive.

One analysis estimates that meeting Proposal 3 would require the addition of 4,000 to 5,000 megawatts of wind power capacity. That's equivalent to roughly 3,100 wind turbines, requiring more than 780 square miles of Michigan land.

Voters also should consider: Michigan already has a reasonable, affordable 10-percent renewable energy goal. Consum-

ers Energy (5 percent) and DTE Energy (6 percent) both are on track to meet that mark, in large part because of the six wind farms they are developing separately. Our state should reach the 10-percent standard before reassessing its future energy needs.

The constitution is the wrong place for this mandate. No other state in the country has locked energy policy into its constitution and Michigan shouldn't be the first. Locking energy policy into the constitution would eliminate the flexibility to meet unforeseen challenges in the state's energy market and impede our ability to take advantage of emerging technologies.

Today, local communities set their zoning standards and ordinances to govern the development of wind farms and other renewable energy projects. If Proposal 3 is locked into the state constitution, such zoning laws could be challenged on constitutional grounds and potentially overturned, stripping local officials of their authority.

Renewable energy is good for Michigan in the right places and in the right increments. Wind, biomass, solar and other renewables can contribute to a balanced energy portfolio, along with conventional sources, that will ensure our electricity remains affordable and reliable.

But needlessly pouring billions of dollars into a 25-percent renewable energy requirement that would be locked in our constitution is a bad investment that won't pay off.

Voters should reject Proposal 3 because this costly constitutional energy mandate is bad for Michigan.

Prop 4: Constitutional amendment for home health care

PRO: Offers safeguards for home health care

By John Hoyle
Guest Columnist

Proposal 4 will strengthen safety, health and independence of persons with disabilities and those who are aging.

Those who are aging or have a disability tell us that they want to stay in their own home instead of going to a nursing home or other institution. If that's their choice, our priority is to ensure that they are safe and healthy in their own homes.

On Election Day, voters across Michigan have an opportunity to help seniors and people with disabilities get safe, quality care in their own homes, by voting yes on Proposal 4.

Also known as Keep Home Care a Safe Choice, Proposal 4 ensures our loved ones can direct their own care, while remaining independent and healthy in their own homes.

Proposal 4 will help persons who need assistance to remain in their home get assistance from screened home care workers who help perform many tasks, from getting dressed to taking their medication. Proposal 4 establishes a registry that requires home care workers on it to undergo strict background checks, an important safeguard to prevent neglect and abuse.

Proposal 4 directly impacts the care and safety of countless Michiganders, especially our most vulnerable citizens.

Those of us who work directly with seniors and people with disabilities know first-hand what a real difference quality home care makes. When seniors and people with disabilities choose home care, they are happier and healthier. Home care allows our loved ones to live in familiar, comfortable surroundings near family, friends and their communities. By staying in their own homes, seniors and people with disabilities also avoid costly alternative settings, including nursing homes.

Proposal 4 contains many important safeguards to protect seniors and people with disabilities.

First, it establishes the Michigan Qual-

ity Home Care Council, which would oversee a registry that links home care recipients with pre-screened home care providers in their area.

Second, it requires home care providers on the registry undergo strict criminal background checks to ensure safety for seniors and people with disabilities.

Third, it connects home care providers to critical job training so they can better care for seniors and persons with disabilities.

Furthermore, Proposal 4 will save taxpayer dollars in avoided institutional costs, since home care is significantly less expensive to taxpayers than nursing homes, according to non-partisan studies by the AARP and the conservative Anderson Economic Group.

In addition to promoting quality care, Proposal 4 and the registry it creates will also help keep our loved ones safe. By better screening home care workers, we can prevent abuses as well as exploitation, neglect and abandonment of seniors and people with disabilities. According to estimates by the Michigan Department of Human Services, about 14,000 elder abuse cases are reported on average each year.

That's why a diverse coalition of groups endorses Proposal 4 and urges Michigan citizens to vote yes.

Michigan's leading senior and disability rights groups, such as the Michigan Disability Rights Coalition, the Area Agencies on Aging Association of Michigan, Michigan Paralyzed Veterans of America, the Arc Michigan and many more have endorsed Proposal 4. Faith leaders, veterans groups and many others also urge a yes vote on Proposal 4.

And law enforcement leaders, local police chiefs and prosecutors across Michigan agree that Proposal 4 will promote better care and safety for loved ones.

Proposal 4 promotes greater security, it gives those who need assistance more choices and it saves money for them and for taxpayers.

Vote yes on Proposal 4 for the health, safety and peace of mind of those we care about.

John Hoyle is executive director of the Arc Michigan and co-chair of Citizens for Affordable Quality Home Care.

CON: Forced unionization of home-based caregivers

By Derk A. Wilcox
Guest Columnist

One of the biggest misconceptions about Proposal 4 is that it creates new programs that will assist the elderly and the disabled with independent living. It is on this basis that the proposed amendment to the Michigan Constitution is being sold to voters.

An analysis of the proposal, however, reveals that this claim is untrue and so we have to look deeper to see the true motivation behind the promotion of Proposal 4.

The real reason Proposal 4 was put on the ballot was to protect a scheme to funnel dues and fees from the pay of home-based caregivers to the Service Employees International Union. The amendment seeks to enshrine in the constitution a dues collection scheme that has already diverted \$32 million away from the caregivers, 75 percent of whom are family members caring for loved ones.

Under the Home Help Program, which began in 1981, in-home caregivers had always been considered employees of the care recipients — up until 2005, that is. The care recipient chose the employee, directed the care and had the ability to replace the caregiver, if desired.

In 2005, under the administration of Gov. Jennifer Granholm, a local government entity called the Michigan Quality Community Care Council was created and colluded with the SEIU to force tens of thousands of residents into a government union. These two entities claimed that the caregivers were public employees because all or part of their pay comes from public funds. (Given this line of reasoning, doctors who accept Medicaid or Medicare payments, or grocers who accept food stamps, could also be forced into such a union.) Michigan law, as well as federal law, had always excluded in-home caregivers from the definition of who is a public employee for the reason

that the true employer was the one to whom the care was given, not the state. Nevertheless, the scheme moved forward with little to no public scrutiny. When the full extent of what had happened — and the amount of dues and fees that had been skimmed — became widely known, the public was outraged and the Legislature acted to put an end to the dues skim and prevent anything like it from happening in the future. Proposal 4 is an attempt to validate the dues skim and enshrine in the constitution the definition of a public employee that has already been rejected by the courts and the Legislature. The SEIU has already admitted that it is using the skimmed dues "during the upcoming election" to advocate for its position. Given the millions of dollars involved, the SEIU has a strong incentive to try to keep the skim going.

Proposal 4 would only consider home-based caregivers to be public employees for the limited purpose of being represented by the SEIU or a subsequent union. It would not extend to caregivers the status of public employees in any other regard, including pensions, benefits or civil service protections. Proposal 4 would not grant the union the power to negotiate higher wages or improved work conditions, either. The actual language of the proposed amendment that does not appear on the ballot specifically states that the Legislature, through the appropriations process, determines the caregivers' compensation, and since the work occurs in the care recipients' homes, it cannot affect the working conditions either.

The programs promised by Proposal 4, including a registry and background checks, have already been implemented and require no constitutional amendment to continue. The only facet of Proposal 4 that actually requires altering the constitution is the continuation of the dues skim that the Legislature has tried to stop.

Churchill denied in Kensington finals

By Brad Emons
Observer Staff Writer

There was no doubt about it. Whenever Rebecca Martin is going to set the ball and Symone Abbott is on the front row, good things are going to happen for the Northville girls volleyball team. And that potent one-two combination proved to be the difference as the high-flying Abbott finished with 29 kills, while Georgia Tech-bound Martin dished out 42 assist-to-kills Tuesday night as the host Mustangs

outlasted Livonia Churchill in five sets, 25-21, 20-25, 25-16, 21-25, in the first-place Kensington Conference crossover match. The Mustangs, KLAA Central Division champion, improved to 42-2-4 overall and avenged a loss to Churchill in the finals of the Northville Tournament on Oct. 6. Churchill, which captured the KLAA South Division, falls to 42-6 overall. "Northville is a great team and Symone is an outstanding hitter ... you can't stop her," Churchill

coach Mark Grenier said of the 5-foot-11 junior. "We just came up a little short." Northville served 13 aces in the match to Churchill's six. "Northville serves tough," Grenier said. "They put a lot of pressure on you. Serve receive was difficult for us and we struggled with that." Libero Kelsey Knickerbocker paced the Northville defense with 18 digs, while Julia Colasanti and Martin added 10 and nine, respectively. Cassidy Minghine, Olivia Landis and Martin each contributed

six kills. In the fifth and deciding set, Northville jumped out to a 2-0 lead and never let the Chargers come back. That was the opposite in the finals of the Northville Tournament when Churchill grabbed a 5-0 advantage and went on to hand the Mustangs their first setback of the season. "Every time in practice we play sets to five," Northville coach Amanda Yaklin said. "We play sets to five, sets to five

Hicklin's goal saves Ocelots

Nate Hicklin's unassisted goal in the 103rd minute gave Schoolcraft College a 3-2 double-overtime men's soccer victory over host Muskegon Community College. The fifth-ranked Ocelots, who improved to 12-2-1 overall and 4-0 in the Michigan CC Athletic Association, tied it in the 77th minute when Ardit Dushkaj (Livonia Clarenceville) off an assist from Romario Georgis. Derek Boatright opened the scoring for Schoolcraft in the 37th minute on a play set up by Dushkaj and Georgis, but Muskegon answered on goals by Eric Hilt (52nd minute) and Zach Sutton (77th minute). Goalkeeper Ryan Tikey (Livonia Franklin) made eight saves as the Ocelots also improved to 10-1-1 in NJCAA Region XII. Tyler Lane made eight saves for Muskegon, now 8-6-1 overall, 1-3 in the MCCA and 6-5-1 in Region XII.

Stevenson corrals win vs. N'ville

By Brad Emons
Observer Staff Writer

If there was one boys soccer team that proved to be a major thorn in Northville's side this season, it was Livonia Stevenson. In Monday's Division 1 district opener, the host Spartans got a goal from senior John D'Agostino, who notched his 10th of the year, just 8 minutes and 14 seconds into the match and made it stand up to beat Northville for the third time this season, 1-0. Stevenson, which improved to 11-3-5 overall, moved into Wednesday's district semifinal to face KLAA Central Division nemesis Novi — also for the third time this season. (Visit www.hometownlife.com for more information.) Stevenson is 0-1-1 against the Wildcats this season, but that wasn't the case against another KLAA Central rival in Northville. "Stevenson won the two previous meetings against the Mustangs by scores of 1-0 (Sept. 18) and 2-1 (Oct. 4). And the third meeting proved to be a similar scenario. Junior Ryan Schifano sent long through ball to D'Agostino, who controlled the feed and tallied the game-winner with a no-doubt shot that eluded Northville goalkeeper Steven Jansen. And by the time the second

half had rolled around, the Spartans went into a defensive mode moving back D'Agostino to help stop any Northville offensive thrusts. "We kind of knew how that would go," Stevenson coach Ken Shingledecker said. "We knew

we had to defend for 40 minutes and that's exactly what we did. The whole team defended their hearts out and took care of business. "It was time to lock it in and make the one goal stand up." Northville's best scoring

chance came with 22 minutes remaining, but Stevenson senior goalkeeper Zach Verant denied Northville's Colin Watkins on a point-blank shot from eight years out.

MU players earn plaudits

For the third time in the last four weeks Madonna University's Katlyn Krysiak was honored as Wolverine-Hoosier Athletic Conference Women's Soccer Player of the Week (ending Oct. 14). Krysiak, a sophomore striker who hails from Madison Heights (Lamphere), bettered her eight point effort from the previous week with a total of four goals and one assist for nine points in wins over Concordia and Marygrove. Meanwhile, MU teammate Blaire Schmalenberg (Warren Cousino), a freshman, goalkeeper, earned the WHAC's Defensive Player of the Week for the first time in her career after making seven saves in a come-from-behind 2-1 win over Marygrove along with two stops in a 4-0 shutout victory against Concordia.

Olah's hat trick sinks Chargers

By Tim Smith
Observer Staff Writer

After the first half of Tuesday's Division 1-District 7 first round match-up, which saw Plymouth down 2-0 to host Livonia Churchill, Wildcats senior co-captain Chandler Olah urged his teammates to "up the ante." Olah definitely did just that, scoring twice during the second half to force overtime and then scoring the lone goal of extra time as Plymouth came away with a 3-2 boys soccer triumph. The win advanced the Wildcats to a 7 p.m. match at Plymouth-Canton Educational Park against Westland John Glenn, which rolled to a 6-1 first-round win over rival Wayne Memorial.

"It felt great to come through but I had a lot of help from my teammates," said Olah, whose second hat trick of the year gives him 18 goals. "We obviously didn't want it to end tonight." According to Plymouth coach Jeff Neschich, it was Olah who "put the team on his back" after a first half where the Chargers kept the Wildcats (9-7-0) from putting too much pressure on Churchill junior goalkeeper Colton Robison. Churchill (6-10-2) got off to a quick start with an unassisted tally by junior forward Luke Otto (who missed most of the season recovering from a knee injury) with 8:22 left in the opening half.

Blazers clip Blue Devils

Sophomore Christina Meyer scored goal goals and added one assist as Livonia Ladywood tuned up for the upcoming state playoffs with a 3-1 girls field hockey win Friday at home over Grosse Pointe South. Junior Erin Badge also added a goal off an assist from senior Lauren Kozlowski as the Blazers improved to 6-6-2 overall and 3-5-2 in the division. Mariel Ward scored for the Blue Devils (1-10-2, 0-8-1). Ladywood senior goalie Stephanie Mackley made seven saves, while South's Carly Brown had five stops. "Everyone played great," Ladywood coach Kristine Sanders said. "Our goal for this game was to put two good halves together and we did just that. It was a great way to end our season and it will definitely provide us the momentum we need throughout the playoffs."

Stevenson, Chargers net state finals spots

ed by Brownstown Woodhaven. Joining the Spartans this Friday at Midland is Livonia Churchill, which secured its fifth consecutive MHSAA finals berth by scoring 22 points to earn runner-up regional honors. Third-place Woodhaven just missed advancing as well by

scoring 17 points, but fell one point shy of the automatic qualifying total of 18. "This team improved all the way through the year and really never had a disappointing performance," said Stevenson coach Don McCathney, whose team earned its third straight state finals berth. In singles, Stevenson took

three-of-four flights thanks to the efforts of Sam Tabor (No. 2), Marcus McCathney (No. 3) and Johnson Yang (No. 4). Tabor ran his record to 17-8 when he defeated Trevor Monaco of Woodhaven in the final, 7-6, 6-3, while McCathney improved to 17-8 with a 2-6, 6-4, 6-2 tri-

MU secures 4th win in row; Lady Ocelots derailed, 6-2

The Madonna University women's soccer team extended its winning streak to four games Monday with a 3-0 victory over visiting Rochester College.

Amanda Ferrick notched her first two goals of the season in the 88th and 89th minutes as MU improved to 7-5 overall with the non-conference victory.

After a scoreless opening half, Madonna's Morgan Himanek tallied her first of the year in the 74th minute of an assist from Liliana Serratos.

Ferrick then scored from Jennifer Jurcak and followed with her second on an unassisted effort off a rebound following a penalty kick.

MU freshman goalkeeper Blaire Schmalenberg had to make just two saves to record the shut-out.

Cheyenne Daniels had seven saves for Rochester (1-14-1).

MONROE (N.Y.) 6, SCHOOLCRAFT 2: Natalie Rogers had a pair of goals and one assist Sunday as 10th-ranked Monroe Community College (13-1) downed host Schoolcraft College (11-4-2).

Ally Sharpe also chipped in with a goal and three assists, while Ali Campbell, Taylor Wingerden and Jori Semau also tallied goals as Monroe outscored the Lady Ocelots 5-2 in the second half.

"We started out strong and had some good looks at goal," Schoolcraft coach Deepak Shivraman said. "I thought it was a case of breaking the cardinal rule about falling asleep on the job. We needed to stay vigilant defensively."

"Half of their goals resulted from poor marking. But it also falls on our offensive players because few realize that a small mistake or turnover on the offensive side has ramifications on our defense. It's 'collective responsibility.' This

is one of our team tenants." Schoolcraft got goals from Samantha Jarrett, her seventh off a penalty kick in the 63rd minute, along with Lauren Badalamente, who notched her eighth in the 90th minute on an unassisted effort.

Schoolcraft goalkeeper Alexis Smith (Livonia Franklin) gave up two goals in 15 minutes, while Tara Gessler allowed four in 60 minutes before giving way to Danielle Schendel (Canton).

MADONNA 2, MARYGROVE 1: Freshman goalkeeper Blaire Schmalenberg made seven saves as Madonna University (6-5-1, 3-1) earned the Wolverine-Hoosier Athletic Conference victory Saturday at Marygrove College (6-7-1, 1-3-1).

After making four saves in the first half, Schmalenberg had to make three stops in the second half, none bigger than in the final minute of play when Cheyenne York sent in a shot that the freshman was able to get a hand on it and preserve the victory.

Marygrove took a 1-0 lead in the fifth minute on Katlyn Vigna's six goal of the season, but MU's Ashley Parent scored her eighth of the season in the 17th minute off an assist from Katlyn Krysiak.

In the 43rd minute, Krysiak tallied her ninth of the year for the game-winner off an assist from Parent.

Deanna Lintz made two saves for the Mustangs.

SCHOOLCRAFT 3, MUSKEGON CC 0: In the rain and on a slick field Saturday, Schoolcraft College (11-3-2, 5-0-1) earned the MCCA win on goals by Taylor Bunyak, Emily Behnke and Kayla Szado at Muskegon Community College (5-5-2, 3-3-1).

Bunyak's goal came from close range off a cross from Lauren Badalamente in the 42nd minute.

Behnke scored unassisted in the 54th minute and Bunyak set up Szado (Livonia Churchill) in the 82nd minute.

Tara Gessler, who made six saves in 70 minutes, and Alexis Smith, who added one in 20 minutes, combined on the shutout.

Schoolcraft also improves 7-1-2 in NCAAA Region XII, while Muskegon is 5-5-1.

Rockets launch district win

Westland John Glenn took care of business in Tuesday's Division 1 district boys soccer opener by defeating rival Wayne Memorial for the third time this season, 6-1.

The Rockets, who improved to 11-7 overall, will square off against Plymouth in the district semifinal beginning at 7 p.m. Thursday at Canton.

Bobby Mason and Alex Isaevski each pumped in two goals for the victorious Rockets.

Tyler Simpson also scored on a 40-yard free kick along with Dan Savor, whom coach Brian Tomlinson nicknamed "The Toasty Turtle."

"A great start to our playoff run and a lot of guys stepped up near the end of the game," Tom-

linson said. "Adam Valentine did a great job distributing and finding the open guy. Derek Merschman created scoring chance after chance."

"Carlos Santiago single handedly controlled the midfield, and Frank Kenne did a great, great job winning 50-50 balls. Captain Ryan McCarthy took a beating tonight and showed real guts sticking it out for the entire game."

Martin Ballah scored the lone goal for the Zebras, who finished the season at 1-17.

"He is deserving of an all-conference selection," Tomlinson said of the Wayne junior forward.

SALEM 8, FRANKLIN 0: Tyler Fosdick and Connor Cole each scored a pair of goals Tuesday as the Rocks (15-2-4)

opened Division 1 district play with a victory at Livonia Franklin (6-12-1).

The KLA Association champions also got goals from William Benintende, Brady Cole, David Schroeder and Chris Dierker.

"They scored four of their goals off set pieces," said Franklin coach Vic Rodopoulos, whose team trailed 5-0 at intermission. "They (Salem) came to play."

NOTRE DAME PREP 2, CLARENCEVILLE 1: On Monday, goals by Zach Nantau and David Klei enabled Catholic League C-D Division champion Pontiac Notre Dame Prep (10-7-3) to escape host Livonia Clarenceville (7-9-3) in the opening round of the Division 3 district tournament.

Klei's goal came with a second left in the first half to make it 2-0.

"Our defense got caught off-guard on a break," Clarenceville coach Trevor Johnson said. "But it was a good shot." David Vandekerckhove scored on a throw-in from

Shane Martin at the 52-minute mark, but the Trojans couldn't score the equalizer.

"I wish it would have been a different result, but I'm proud of the effort," Johnson said. "They played hard."

LUTHERAN WESTLAND 7, BAPTIST PARK 0: Troy Gotchev notched a hat trick and collected one assist, while Ernie Babon added two goals and two assists as Lutheran High Westland (4-15) rolled to a victory Monday over visiting Taylor Baptist Park (5-11-1) in the Division 4 district opener.

Nick Flanery and Jeonghun Han also tallied goals for the Warriors, who led 2-0 at halftime.

Brandon Wyman contributed two assists, while Walter Gembariski and Daniel Roberts also drew assists for the Warriors.

INTER-CITY 8, HVL 0: In a Division 4 district opener Monday, host Allen Park Inter-City Baptist invoked the eight-goal mercy rule to oust Westland Huron Valley Lutheran (3-12).

"That was a huge save," Shingledecker said. "Billy Werthman, Tom O'Brien, Brian Smith — those guys have been solid all year, and Gino D'Orazio ... the whole back line has been excellent all year, and today we got it done."

The Mustangs ended their season at 11-7-3 overall.

"It's one play," Northville coach Henry Klimes said of the game-winning goal. "We tried to make some adjustments. They sat on the lead and brought No. 17 (D'Agostino) back, but overall we possessed and played a much better brand of soccer. I wish them (Stevenson) luck. They were the better team, I guess, in executing, so we'll see what happens on Wednesday for

"I think everyone played well the second half," Klimes said. "I

can't think of one stand-out more than another. They all really played hard the second half."

The best chance came on Watkins' ball midway through the second half.

"I thought that was going to be the equalizer," Klimes said. "But like I said, 'It wasn't meant to be' for the boys this year. I feel bad for our six seniors. We're young and hopefully next year we'll get them."

The match marked the final appearance for Mustang players Troy Dolmetsch, Ben Holbrook, Colin Warner, Nate Baughman, David Lindow and Daniel Kubert.

Meanwhile, Stevenson lived to play another day and will face at Novi team that beat them 5-1 on Oct. 2. The first meeting, on Sept. 14, ended in a 1-1 draw.

Novi advanced on Monday with a 1-0 win over Novi-Detroit Catholic Central.

"Can't wait," Shingledecker said of the impending district semifinal matchup.

because those first five points matter so much in a 15-point set. And we remembered that. They did not forget how hard it was to dig out of that hole, so they really went after it in the beginning." Northville made a total eight service errors, while Churchill had seven.

"I think our tough jump-serving really gives us an edge," said Yaklin, a former Churchill assistant. "When they're on their heels and they can't put away the first ball, then it gives us a chance. Hats off to the servers. They really went out for it today."

"I would say that was the best game we persevered through this year. In that sense I think we got a little bit better."

"Since we dropped that set to them in the finals of our own tournament, that was the lowest hitting percentage day we've had, the whole day, the entire season. So, we've probably taken 1,500 swings at practice since that day and it definitely paid off and showed up today."

Seniors Emily Norscia and Marissa Pomaville paced Churchill's hitting attack with 20 and 17 kills, respectively. Courtney Pietruszka chipped in with seven.

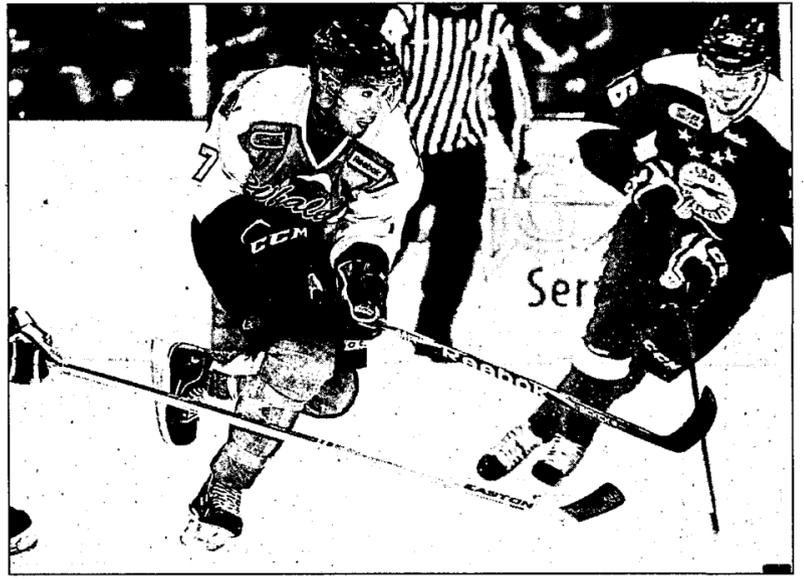

Setter Katie Chartrand racked up 45 assists, while libero Julia Szuba led in digs with 29.

Audrey Durocher and Chartrand also contributed 13 digs apiece.

Despite the loss, the two teams could meet again Saturday in the 12-team KLA Association Gold Tournament hosted by Novi. (Pool play starts at 9 a.m.)

"The silver lining to this is that we beat them at their tournament and they (Northville) win this — and congratulations, they deserve it," Grenier said. "Northville is a great team with a great coach, but our revenge is when we see them again in the state championship. We'll get another crack at them we hope, or at the (KLA Association) tournament."

RENA LAVERTY

Plymouth Whalers defenseman Austin Levi (No. 7) chases after the puck along with Michael Schumacher of Sault Ste. Marie during Saturday's 'Pink Out' game for breast cancer awareness. Levi recently rejoined the team.

DISTRICT

Continued from page B1

Plymouth goalie Mario Gruszczynski came out trying to cut off the play, but the ball slid underneath him into the cage.

About three minutes later, Churchill went up 2-0 when junior Patrick Adegbite-Martins converted a feed from junior Tyler Piotrowski.

But at halftime, Neschich reminded his team they'd have a brisk wind at their back for the second half and to crank up the offense.

The Wildcats picked up the pace, all right. With 24 minutes left in regulation, Plymouth senior Teddy Phillips sent the ball over toward Olah at the top of the 18-yard box.

Olah corralled the pass,

spun and drove a shot inside the right post.

Plymouth kept making gains in territorial play and finally got back to even with 4:52 remaining.

Junior Viet Nguyen's through-ball found Olah as the latter dashed inside the box and the resulting boot from about 15 yards caromed off Robison — desperately coming out to try for a sliding stop — and inside the right post.

At 4:15 of the first 10-minute overtime (two sessions automatically are played), Olah rammed the ball inside the left post this time.

Assisting was senior forward DK Kim, who Olah praised (along with Phillips and Nguyen) for their playmaking contributions to his goal surge.

Churchill turned up the heat midway through

the second OT and came within inches of sending the game into penalty kicks. A hard shot by junior Andrew Smutek from the left side of the box was blocked by the sprawling Gruszczynski.

The ball did dribble off the keeper toward the right side of the goal. Adegbite-Martins then barely missed depositing the loose ball into the Plymouth goal.

"When you have a 2-0 lead at halftime, that should be enough," Churchill coach Matthew Grodzicki said. "Give Plymouth credit, though. Olah was unbelievable. Of course, this was a tough way to end it for our seniors. Still, I'm proud of the way we fought."

Whalers' Vellucci gets 400th win

By Tim Smith
Observer Staff Writer

Mike Vellucci proudly is the coach with the most wins in Plymouth Whalers history, hitting the 400 milestone Oct. 6 against Niagara.

But nailing down his 401st is becoming problematic, as the Whalers lost 3-2 in overtime Saturday night against Sault Ste. Marie before 2,510 fans who turned out at Computware Arena for the annual Pink Out game for breast cancer awareness.

The Whalers wore specially designed pink jerseys featuring the familiar ribbon logo and universal symbol for the breast cancer fight.

Scoring at 3:10 of overtime was Andrew Fritch, who nudged the rebound of a Darnell Nurse shot behind Plymouth goalkeeper Matt Mahalak, who stopped 30 off 33 shots. Although the Whalers did earn a point, it was their third defeat of the week — falling to 2-3-2-1, while the Greyhounds improved to 6-4-0-0.

"He (Mahalak) just didn't catch it," Vellucci said. "It squibbled out of his glove right to the other guy. But those are the kind of (bad) breaks we've been getting. The only way you're going to change your breaks is on your own."

Tough road to 400

It took the Whalers five games to get Vellucci his 400th, and it has been a slow go out of the Ontario Hockey League gate for a team expected to be one of the top squads in the Western Conference.

"It was tough to even get to 400 there, too," Vellucci said. "But we played two

great games this week on the road, we fell to some unfortunate bounces and tonight we were out of gas."

"We held up and they got the five-on-three (late in the third, extending into OT) and (they) just got an unfortunate goal at the end."

The tail end of that two-man disadvantage was about to expire when Plymouth forward Alex Aleari (Farmington Hills) came close to winning it for the Whalers. Aleari, however, was stopped by Greyhounds goalie Matt Murray (31 saves).

Instead, the Greyhounds emerged victorious seconds later on the Fritsch tap-in.

Despite the tough defeat, Vellucci managed a smile when talking about his milestone. He has the third most victories among active coaches in the OHL.

"Obviously, it's great," Vellucci said. "I had one buddy who says either you're a really good coach or you're really old. So take a pick."

"But obviously, it means I've been here a long time and I owe a lot to our owner (Peter Karmanos) and our organization that they've had me for so long."

The 400 wins speaks to the durability and quality of the Whalers under Vellucci's watch.

"I think our program gets underrated," he said. "Twenty-one straight years in the playoffs, I think it's the longest record (in the OHL). I just think it's a great thing for our program."

The future looks bright, too, thanks to rookie playmakers such as linemates Zach Bratina and Ryan

Hartman, who buzzed around the Soo end all night. Bratina collected his first OHL point when he set up Garrett Meurs for a second-period goal that put Plymouth up 2-1.

Bratina centered the puck in front to Meurs, who slung it past Murray inside the left post.

"I think he (Bratina) had a great game," Vellucci said. "For two periods he was awesome. He didn't get a lot of ice in the third with all the penalties. But he had a great game, by far his best, and he's getting better every game."

Plymouth got off to a quick start when Aleari cashed in following a Soo turnover deep in the Greyhounds zone. Aleari faked a shot to freeze Murray, then veered to his right before slipping it home.

Levi's back

Veteran Plymouth defenseman Austin Levi, who has local ties (formerly a Farmington Hills resident) recently returned to the Whalers after being sent down by the American Hockey League farm team of the NHL's Carolina Hurricanes.

Levi, an average player, temporarily gives Vellucci nine defensemen on his roster. Apparently, a trade is brewing to balance out the roster.

"We have nine defensemen, so we're going to have to trade one of them," Vellucci said. "I haven't made my mind up who we're going to move. But we have nine defensemen and we can't carry that many this year and we need some forwards."

PERRY MARY ANN (KATZ)

Beloved mother, wife and daughter died peacefully Monday morning after a long battle with Alzheimer's Disease at the age of 74. Mary Ann is survived by her husband, Don Perry, who was at her side when she passed away. She is also survived by her three children, David, Daniel and Deanna and her five grandchildren; David, Joe, Ian, Danny and Mac. Mary Ann was born and raised in Negaunee, Michigan and did everything at Negaunee High School; starting in school plays, cheerleading, serving on the student council and getting straight A's which earned her a full scholarship to Western Michigan University. While there she met and married her first husband, settled in Livonia, Michigan and raised their three children. She was first and foremost a wonderful mom who shuttled her kids to hockey and ballet, helped them through school and lifted them up with guidance, love and support. Mary Ann was known for her keen intelligence, wicked sense of humor and her kind heart. She loved to make porcelain dolls, take long motorcycle trips with her husband Don and was a voracious reader. Mary Ann excelled as a purchasing agent, financial planner and business owner but her favorite job was being a grandmother with toys and laughter. Private family funeral services are Thursday (today) at the St. John's Episcopal Church in Negaunee. Mary Ann will be buried beside her sister Katie and her wonderful parents, Donald and Helen MacDonald in the Negaunee City Cemetery. After a long and brave struggle, her suffering is over. She is home.

May peace be with you in this time of sorrow.

See Three Cities Art Club works at eatery, mall show

By Sharon Dargay
O&E Staff Writer

Marilyn Meredith's acrylic painting, "Mountain Birches" is getting a lot of exhibit time this month, but you won't find it in a traditional gallery.

The colorful piece — along with works by other members of the Three Cities Art Club — has turned the walls of a local restaurant into an exhibit space.

They'll do the same for a shopping mall this weekend.

Meredith, who is president of the Club, and members Sharon Dillenbeck and Allen Brooks began displaying their works at Westland Charhouse restaurant last month. They and 14 other Three Cities members also will show art Friday-Sunday, Oct. 19-21 inside Westland Shopping Center. Meredith credits Brooks for both programs, which are designed to bring more art to Westland, while giving artists an audience for their works. Brooks, a photographer, asked Westland Charhouse owners John and Cindy Dakis if Three Cities Art Club members could show their works at the eatery. They agreed.

"What we'd like to do is rotate (the paintings and photos) and other members will have some of their art up," Meredith said, explaining how Three Cities artists will share the wall space.

Restaurant owner Cindy Dakis (left) enables artists, such as Sharon Lee Dillenbeck (right) to display their paintings at the Westland Charhouse. Dillenbeck's painting is called "Irises in the Garden."

Meredith said Brooks also "got the show going" at Westland Shopping Center. "Festival of the Arts" is sponsored by the Westland Rotary Club and will be judged by Michigan Senator Glen Anderson, Westland Mayor Bill Wild, Westland Rotary Club President Antoinette Martin, and the shopping center's General Manager Carol Rutz on Saturday.

"He (Brooks) used to be president of Rotary and decided to bring more art to Westland.

There is no art show in Westland. There is no art club," Meredith said.

New exhibit site

Three Cities Art Club previously staged shows at the Canton Public Library, but found it increasingly difficult to book three consecutive days for an exhibit at the venue, Meredith said. Westland Shopping Center became the solution.

Approximately 100 paintings and photos will be on display at

Marilyn Meredith, president of Three Cities Art Club shows her painting, "Mountain Birches," which she removed from Westland Charhouse restaurant this week, to display at the upcoming Festival of the Arts exhibit at Westland Shopping Center.

the Festival of the Arts, which will run from 10:30 a.m. Friday to 5 p.m. Sunday, at the shopping center, located at 35000 Warren Road.

Dillenbeck, who owns D&M Art Studio in Canton, will present an art demonstration specifically for kids from 4-5 p.m. Friday.

Entertainment will include a dance performance from 4-5 p.m. Saturday, music by Livonia Symphony Orchestra mem-

bers from 3-4 p.m. Saturday and Sunday, and songs by Harmony Town Chorus, 5-6 p.m. Saturday and 4-5 p.m. Sunday.

Hands-on art

Deana Salhaney and Liz Gulikson will join Meredith and Dillenbeck in a "Paint-Off," from 2-3:30 p.m. Saturday.

"It's more of a demonstration," said Meredith, noting that each artist will employ a different art medium.

She'll demonstrate acrylic painting by working on a piece she started outdoors at a plein air session last weekend.

"Last year I painted for quite a while," Meredith said, describing the Paint-Off. "I sold the painting I was finishing at the show. Someone bought the painting before I was even finished with it."

Club members' art work is for sale at both the Festival of the Arts and at Westland Charhouse, 35613 Warren Road.

Information about membership in the club also will be available at the Festival of the Arts.

The group meets at 7 p.m. the first Monday of the month from September-June at Canton Township Hall, located on S. Canton Center Road, south of Cherry Hill. It draws artists of all skill levels from throughout the Detroit Metro area.

Black Velvet Whoopie Pies

Makes 2 dozen or 24 (1 whoopie pie) servings.

Prep Time: 30 minutes
Cook Time: 8 minutes per batch

Cookies:

1 package (15½ to 18½ ounces) German chocolate cake mix with pudding

½ cup water

½ cup unsweetened cocoa powder

½ cup vegetable oil

3 tablespoons McCormick Black Food Color

3 eggs

1 tablespoon Pure Vanilla Extract

Jack-O-Lantern Orange Filling:

½ cup (1 stick) butter, softened

1½ cups confectioners' sugar

1 jar (7 ounces) marshmallow cream

½ teaspoon pure orange extract

¼ teaspoon red food color

¼ teaspoon yellow food color

1. For the cookies, preheat

oven to 350°F. Beat cake mix, water, cocoa powder, oil, food color, eggs and vanilla in large bowl with electric mixer on low speed just until moistened, scraping sides of bowl frequently. Beat on medium speed 2 minutes.

2. Spoon 1 tablespoon of batter, 2 inches apart, onto parchment paper-lined baking sheets. (Cookies will spread so avoid crowding them on baking sheet.)

3. Bake 8 minutes or until cookies are puffed and spring back when touched, turning baking sheets halfway through baking. Cool on baking sheets 1 minute. Remove to wire racks; cool completely.

4. For the orange filling, beat all ingredients in medium bowl with electric mixer on medium speed until light and fluffy. To assemble the Whoopie Pies, place 1 tablespoon filling on flat side of 1 cookie. Top with a second cookie, pressing gently to spread the filling. Repeat with remaining cookies and filling.

Industry report ranks metro Detroit tops in affordable housing

By Julie Brown
O&E Staff Writer

Detroit tops the list of metro areas with more than one million households that require the least amount of income to buy a typically priced home. Chicago rounded out the top 10.

Metro Detroit was listed as 70.9 percent owner-occupied, according to the National Association of Realtors. While most of the metro areas listed are from the middle of the country, Tampa, Fla., and Riverside, Calif., also made the list.

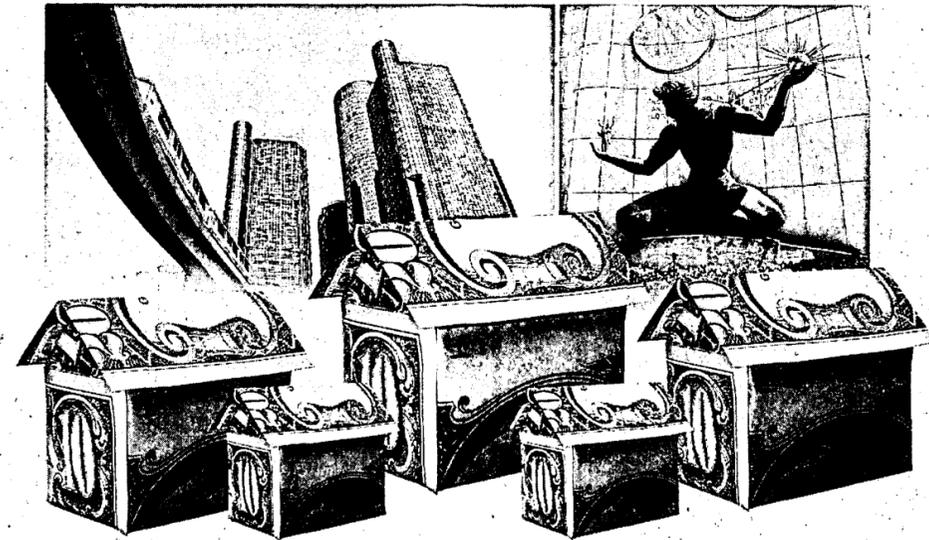

The metro Detroit qualifying income for a down payment with 10 percent down was \$12,533, and for 20 percent down it was \$11,140. Twenty-three metro areas and divisions covered in NAR's initial review of 149 metro areas met the one million household threshold according to Census 2010 data.

Qualifying income is calculated by limiting the monthly principle and interest payment to 25 percent of income. The mortgage payment is calculated for a median priced home in the metro area assuming the given down payment and a 4 percent mortgage rate on a 30-year fixed rate mortgage.

Realtor Tony Schippa, president of the Greater Metropolitan Association of Realtors, and of Coldwell Banker Preferred in Plymouth, said, "It's definitely good news. I believe the market is turning around. We have a shortage of inventory right now so that's bringing the values up, moving forward."

He agreed some major metro areas such as San Francisco are much more expensive for homebuyers.

Schippa has a friend who lived in San Francisco, where a

small condo was \$249,000 about five years ago. "That was for a 600-square-foot condo," he said. "My first apartment was 700 square feet."

Schippa is pleased with the recent direction of the local market.

"Prices are still at a good low. If you're renting, now is the time to buy. There are some good deals for first-time homebuyers."

Greater Detroit's population has declined, he said. "Homes in Detroit were going for \$10,000." The city is now trying to draw younger professionals, including those in Midtown and downtown Detroit.

"I think there's a good movement within the city itself to bring the city back to what it once was," Schippa said.

"We're getting multiple

offers on property. That's just good, positive signs," he said. People bring cash if there's a difference between what the houses appraises for.

"They'll go forward and go ahead with the deal."

Presidential election will be important in his field, Schippa added. "We're just going to have to wait and see." Jobs are a key component.

"The more jobs you have the more opportunity people have to buy homes," Schippa said.

Industry pros also will see if debt forgiveness is extended past Dec. 31 on short sales, he said. "That's another very popular issue at the moment," the Plymouth resident said. He believes extension is likely but not guaranteed.

"I think there's good positive energy in the real estate industry moving forward,"

Schippa said.

Agreeing is Dale E. Smith, chief executive officer for GMAR. "It's really been a remarkable turnaround. The market throughout the Detroit metro area has rebounded nicely. We're pleased with the statistics," Smith said.

The market isn't back to levels of four-five years ago, Smith said. "But it certainly is encouraging."

"It really is and was what the middle class was all about," Smith said of Detroit's housing stock. There's been a demand for affordable housing. "A lot of people came to bat and demanded that kind of housing."

Cities are playing a bigger role with government agencies, Smith added.

Records usually not private

By Robert Meisner
Guest Columnist

Q: Could you be a little more specific whether a co-owner has a right of privacy in regard to his assessments?

A: Most cases have indicated that an owner does not have an expectation of privacy with respect to whether he or she is delinquent in payment, or, to put it differently, the association does not have an obligation to treat such records as confidential. So, if financial records of an

association contain itemization as to which owners are delinquent, a member has a right to inspect those records.

Of course, liens, motions, complaints and judgments are matters of public records and copies in the association's files and/or records would be discoverable by any co-owner. Under no circumstances should the association voluntarily publish the delinquency list, particularly if there is any question about their authenticity of accuracy.

Robert Meisner

Q: Our association was just taken over by a group of renegades who kept one of the directors from voting to remove the managing agent and the attorney, and many of the directors have a self-interest in promoting their own businesses as part of the association business. What can we do because of the apathy in this large condominium development?

A: This is not an unusual situation where a group of individuals, who may have an improper motive, seek to take control of the association, because of apathy or naiveté on the part of some of the residents at the condominium. Obviously, you should document your grievances against the Board of Directors through legal counsel, and attempt to take back control of the association, either politically through the association removal process, and/or by the commencement of a member's derivative lawsuit against the Board of Directors on behalf of the association. You may well be able to get reimbursement for your attorney fees, but obviously, a good lawyer is your first course of action in dealing with this problem.

Level: Beginner

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
